Aviation photography is the perfect mix of sleek, beautiful machines, blended with nature's beautiful skies and fields, along with a fascinating collection of fearless pilots and capable crew, all wrapped in a rich, significant, and crucial part of history. Few genres combine this many elements, and invoke this much passion from photographers. This one-of-a-kind book from Moose Peterson, one of the world's most recognized experts in aviation photography, not only teaches you exactly what you need to know to start making beautiful, intriguing photographs of aircraft, but inspires you and pushes you creatively and technically every step of the way. Moose takes you through all the basics for camera gear and settings, showing you what he travels with and the settings he uses to get those tack sharp images. He covers one of the most important aspects of aviation photography – light! And, he gives you a number of examples of how to take the best advantage of that light any time of the day. He shares the critical techniques

you'll need to master to create the illusion of flight, speed, and romance in a still image, including which types of prop blur you're aiming for (and which types you want to avoid). You'll learn how to make the most out of air shows and fly-ins – what to shoot while you're there, and what you might want to skip or avoid altogether (and why). You'll learn how to photograph aircraft on the ground, from ground-to-air, and ultimately air-to-air, and how to capture one of the most important elements in aviation photography today: the fascinating pilots and crew – the people! Moose shares many wonderful stories and adventures along the way, which illustrate how, as photographers, we're also storytellers, and the importance of bringing out those stories in our aviation photos. Plus, you'll gain free access to his acclaimed *KelbyOne* film, *Warbirds and the Men Who Flew Them*. With this book, your camera, and your passion, your success in aviation photography will quickly take flight!

Popular Photography Walter de Gruyter GmbH & Co KG

This work is concerned with optical imaging – from simple apertures to complex imaging systems. It spans the range all the way from optical physics to technical optics. For microscopists and photographers it conveys a deeper insight into the intricacies of their daily used devices. Physics and engineering students learn to understand different imaging systems and sensors as well as lenses and errors, image amplification and processing. This introduction into the topic is suitable for beginners and experienced people. It is illustrated by many practical examples and may also be used as a work of reference. The book is useful for everyone employing and assessing imaging systems in general. A special focus is given to photo camera systems.

Fittingly named for a wild horse, this fighter became widely recognized for its power and beauty. It was a key element in Allied air superiority in Europe during WWII, destroying 9,081 enemy aircraft, and with similar results in the Korean War. Striking photos and the personal stories of the men who flew it help to tell the story of this superior aircraft. Full color photos of restored P-51s. Revised and updated *Popular Photography* PHI Learning Pvt. Ltd. 195 Centre Street: It's summertime, and the kitchen windows are open and a warm, gentle breeze is blowing the spotless white lace curtains into the room. P-51 Mustangs: In my

opinion, it's the most perfect airplane ever to take to the skies. And, Me: I never "wanted to be a writer". I wanted to be a pilot, and fly P-51 Mustangs like Don Gentile, and Ratsy Preddy. So, I took a flying lesson, and found I really didn't like flying. My Life-Long Dream of Being a Pilot shattered, the next day I wrote my first Award-Winning newspaper column, and, it was published. Yeah, right... I began writing this book in 2015, putting together some ruminations and reflections. I slowly added to it over the years: new things I wrote, old things I discovered I had written, some things that other people wrote that made me laugh out loud, or, knocked my socks off. Welcome to: 195 Centre Street, Buchanan, New York, U.S.A. P-51 Mustangs, B-17's, B-24's, B-25's, PBYS, F-82's. Auschwitz, Birkenau, Vietnam, 9/11. Terciera in the Azores, Montecatini Alto in Tuscany and Rodney Bay on Saint Lucia. A 1936 Ford Five-Window Coupe and a 1963 Sting Ray Split-Window Coupe. Walking from Maine to Georgia—twice—on the world-famous Appalachian Trail. Allesandro Botticelli, Les Mis, Chateau Petrus. "Winning", paper clips, and farts. And, A Thousand (Or So) Things You Don't Know About Heart Attacks... **FPC Terminology** Springer Using a combination of artistic approach and impeccable technique, professional photographers

John and Barbara Gerlach will guide you through the field as you photograph the most intriguing and captivating subjects out in the wild. A sampling of what you'll learn: How to integrate equipment with technique to capture superb wildlife images of birds, mammals, amphibians, and more with an emphasis on precision and speed Where and how animals can be approached closely enough to photograph well How not to disturb the critters around you, depending on environment (den vs. tree and everything in-between) When (and when-not) to feed the animals Technical info like cropping, frames per second for capture, pixels/enlarging, and even HDR Where to focus on various types of wildlife Lighting depending on which animals have high contrast Ethics Traveling with your gear The "top 10" places in the world to shoot and how to find the best location for your interests *Popular Photography* John Wiley & Sons PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services.
