Complete Nikon User's Guide Rocky Nook, Inc.

An All in One Guide to Master your Nikon D850 The Nikon D850 is a high resolution full-frame DSLR, boasting a 46MP backside-illuminated CMOS sensor. But, in a fairly radical departure for the series, it is also one of the company's fastest-shooting DSLRs. This combination of properties should significantly widen the camera's appeal to high-end enthusiasts as well as a broad range of professional photographers. The use of a backside illuminated (BSI) sensor means that the light collecting elements of the sensor are closer to the surface of the chip. This should not only increase the efficiency of the sensor (improving low light performance) but should also be expected to make the pixels near the edges of the sensor better able to accept light approaching with high angles of incidence, improving peripheral image quality. Taking the perfect shot requires more than just years of experience and good lighting! Knowing Your camera and what it offers you is a primary requirement. and this Nikon D850 manual provides clear, step by step instructions to help you take full advantage of your camera. Here's a preview of what you'll learn Learn about each button on your camera Understand the settings Get better photos in auto or manual mode Shoot, view, and edit movies Whatever the occasion you're shooting for, you'll get all the guidance you need to take excellent photos from now!

Complete Nikon User's Guide Rocky Nook, Inc.

A high-quality photograph may be captured with the Nikon D850, a professional digital single-lens reflex camera. The Nikon D850 is equipped with a 45.7-megapixel FX-format BSI CMOS sensor that can record 4K video and high-resolution still images. Also, it has a larger light-gathering capacity than competing DSLRs, allowing photographers to work in low-light conditions without resorting to artificial lighting. To facilitate photography in low-light situations, the camera's original ISO range of 64-25,600 may be increased to a maximum of ISO 32,00-102,400. The Nikon D850 supports many frame rates and resolutions, like as 4K UHD @ 24/25/30 fps or 1080p HD at 60/50 fps. The camera's built-in Wi-Fi and Bluetooth enable wireless file sharing and control through a mobile device.
