Please note that such a monitoring user has to be created on each tenant and for the SYSTEM-DB for SAP HANA systems with multi-tenancy database containers. It is very important that the monitoring can collect data all the time, even if the system is under high load, as the monitoring is the only way to notice such a high load situation and get alerted.

SAP ERP User Manual of Purchase Order | SAP Blogs

Welcome to the MongoDB 4.2 Manual! MongoDB is a document database designed for ease of development and scaling.
