THE ABSURD CRIME FICTION PARODY BY FICTIONAL
AUTHOR 'MARTIN FISHBACK' - AS SEEN ON BBC TWO 'What's better than a good crime novel? I'll tell you - a spoof crime novel, by the absurdly funny and clever Fergus Craig' MIRANDA HART 'We all need more laughs like this' AISLING BEA Exeter: a city in decline, East Devon's capital of crime. Detective Roger LeCarre: a man on a quest to rid the world of crime (starting with Devon and Cornwall and then working outwards) so he can concentrate on his watercolours. LeCarre runs 10km a day but probably burns more calories shaking his head at what has become of his city. Now Exeter is set to become the UK Capital of Culture and the ambitious Lord Mayor wants to turn things around. But when a young man's (dead) body is found in the centre of town, things get murky. Detective Roger LeCarre is a character never seen before in modern fiction - a tough but troubled detective with a drink problem and a marriage in trouble. Can he find out who killed the young man, save the city and change his energy provider before the new more expensive tariff kicks in? Filled with drama, eroticism and very specific Wikipedia-sourced information on Devon, Once Upon A Crime is a thriller that takes itself very seriously and that should not, on any account, actually be taken seriously.

This book focuses on various types of crowdfunding and the lessons learned from academic research. Crowdfunding, a new and important source of financing for entrepreneurs, fills a funding gap that was traditionally difficult to close. Chapters from expert contributors define and carefully evaluate the various market segments: donation-based and reward-based crowdfunding, crowdinvesting and crowdlending. They further provide an assessment of startups, market structure, as well as backers and investors for each segment. Attention is given to the theoretical and empirical findings from the recent economics and finance literature. Furthermore, the authors evaluate relevant regulatory efforts in several jurisdictions. This book will appeal to finance, entrepreneurship and legal scholars as well as entrepreneurs and platform operators.

Now available: Nudge: The Final Edition The original edition of the multimillion-copy New York Times bestseller by the winner of the Nobel Prize in Economics, Richard H. Thaler, and Cass R. Sunstein: a revelatory look at how we make decisions—for fans of Malcolm Gladwell’s Blink, Charles Duhigg’s The Power of Habit, James Clear’s Atomic Habits, and Daniel Kahneman’s Thinking, Fast and Slow Named a Best Book of the Year by The Economist and the Financial Times Every day we make choices—about what to buy or eat, about financial investments or our children’s health and education, even about the causes we champion or the planet itself. Unfortunately, we often choose poorly. Nudge is about how we make these choices and how we can make better ones. Using dozens of eye-opening examples and drawing on decades of behavioral science research, Nobel Prize winner Richard H. Thaler and Harvard Law School professor Cass R. Sunstein show that no choice is ever presented to us in a neutral way, and that we are all susceptible to biases that can lead us to make bad decisions. But by knowing how people think, we can use sensible “choice architecture” to nudge people toward the best decisions for ourselves, our families, and our society, without restricting our freedom of choice.

Det er en del af den danske mentalitet og kultur at spare penge. Bogen kommer med mange idéer til, hvordan du kan spare penge, men har også alternative måder, hvorpå du kan tjene penge. Mange af de 1000 råd er samtidig råd, som gavner miljøet og kampen mod tidens hotte emne, global opvarmning. Jo mindre forbrug du har, jo mindre belaster du kloden. Der er totalt set besparelser for et tocifret millionbeløb. Du kan spare for over en million, på enkelte råd. Men da alle ikke kan bruge alle råd, kan en gennemsnitsperson sikkert spare to til otte hundrede tusind kroner. Bogens investering kan derfor nemt tjenes hjem, på kort tid. Nogle af rådene har du måske hørt om før, men der er tit tilført nye vinkler og idéer, som kan inspirere dig til at spare. Rådene er punkttopstillet og kan også bruges som opslagsværk. Ud over de mange spareråd er der også indlagt information om forskellige ting. Fx hvordan du sælger din bolig, hvad er finansiell uafhængighed og tidlig tilbage trækning. Men også hvordan du får styr på dit budget, og hvordan prutter du om prisen, samt mange andre forslag og input.

With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company’s brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of Brands and Branding provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, Brands and Branding sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.
