The Writing Guide of the Marine Corps History and Museums Division is intended primarily for use by historians and curators, both Marine and civilian, assigned to the Division and those others engaged in the preparation of officially sanctioned histories and exhibits. However, the Writing Guide can also be a useful reference for historians of Marine Corps history. Two basic source works have been consulted extensively in the preparation of the Writing Guide. In general, the current edition of the U.S. Government Printing Office Style Manual has been used for guidance in such areas as capitalization, compounding, punctuation and the use of numerals, while Merriam Webster's New Collegiate Dictionary is used as the authority for spelling and word usage. The ultimate authority in such matters is Webster's Third New International Dictionary. In those relatively few instances where official Marine historical writing practices differ from these sources, this Writing Guide provides examples of the approved and generally long-established methodologies. This edition is a major revision of the last Writing Guide, which was published in October 1983. While most of the material in the previous edition is included in this iteration, it has been completely reorganized and numerous additions have been made. It is the intent of the Marine Corps that its official historical works be accurate, objective, academically reputable and readable by a general audience interested in the subject matter.

In so doing, this publication provides all Marines a conceptual framework for planning in peace, in crisis, or in war. This approach to planning is based on our common understanding of the nature of war and on our warfighting philosophy of maneuver warfare as described in Marine Corps Doctrinal Publication (MCDP) 1, Warfighting.

The evidence in this book may not ultimately give you the "smoking gun" you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenwald, Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenwald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear weapons, and top secret aircraft. He took the millions of pages, and over the course of more than two decades, has built an archive known around the world, as The Black Vault. Inside The Black Vault: The Government's UFO Secrets Revealed takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s.

Declassified records prove that the UFO topic is one of the most highly classified and most elusive subjects the U.S. Government has ever dealt with. Each chapter explores various agencies and their documents, and Greenwald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Along with declassified documents, Greenwald outlines the struggle it took him to get them. No other topic has proven so difficult, in more than 8,000 FOIA requests that he has filed. He explores why that might be and meets skeptics and debunkers head on, outlining why some of their more prominent rebuttals for it all cannot be true.

In the past several years the concept of the mentor has become a part of the common parlance. There is a widespread interest in the pivotal role of mentoring for the success of individuals. Research has made it plain that mentors play a

major role in career development. Now human resources and organizational development groups have come to appreciate the role of mentoring on the donor as well as recipient, for the career of the helper no less than the person(s) being helped. Michael Zey, in this study based upon interviews with over 150 executives in Fortune 500 companies and smaller firms, provides a major exploration of the sociological dynamics of the mentoring relationships, locating this phenomenon in the fields of career growth, job satisfaction, and social mobility. In doing so, Zey offers a framework for the understanding of corporate culture, an approach that raises this volume far beyond the usual self-help literature found in this field.

DOD policy requires "[m]embers of the DoD Components comply with the law of war during all armed conflicts, however such conflicts are characterized, and in all other military operations" (Department of Defense Directive [DODD] 2311.01E). This publication addresses topics that are also addressed in the DOD Law of War Manual. In the event of a conflict or discrepancy regarding the legal standards addressed in this publication and the DOD Law of War Manual, the latter takes precedence. In many cases, any apparent conflict or discrepancy may be due to this publication's efforts to provide guidance to Commanders by describing legal concepts more generally rather than exhaustively as found the DOD Law of War Manual. In certain instances, this publication will set out a current policy or practice for Army and Marine forces rather than a legal requirement.
