Marine Corps Manual, 1940 Ravenio Books  
The Small Wars Manual is a manual on tactics and strategies for engaging in certain types of military operations created by the United States Marine Corps. The purpose of this work is sharing experience and preserving the achievements of tactics and organization of small wars, or different military operations of the United States in countries where government is "unstable, inadequate, or unsatisfactory for the preservation of life and of such interests as are determined by the foreign policy" of the United States. The book starts with the definition of the term "small war" and continues into more than 500 pages on tactics, personnel structure, communication chain, transportation and logistics, military-

civil relationship, psychological side of war, training, and support of native armed organizations and much more. The book is extremely interesting as a manual on tactics, whether it is used for a military operation or any other sort of massive campaign involving a large part of population, like elections. For example, it contains a chapter telling how to plan and organize legally the disarmament of local population. It tells what laws should be issued and what organizations form, what sort of personnel should be involved and what should be their roles. A reader will find guidelines on how to distribute and spare resources needed for a campaign, and how to properly cross a river in a dangerous area. Given the book's organization, structure and abundance of

---

important information, covering different aspects of civil and military campaigns, this volume is a must-read for any person engaged in a state service or a student considering career in serving their country.

*Funky Winkerbean* Penguin

*Attitudes Aren't Free: Thinking Deeply about Diversity in the US Armed Forces* emerged from a vision to collect essays from the brightest voices of experts across the range of contentious social issues to catalyze productive discussions between military members of all ranks and services. Forty-nine experts contributed to the following 29 chapters writing on the primary themes of religious expression, homosexuality, gender, race, and ethics.

Chapters appearing in this volume passed the scrutiny of a double-blind peer-review by one or more referees from the board of reviewers.

The chapters are largely written in a colloquial, intellectual op-ed fashion and capture a "snapshot" of the current discussions regarding a particular topic of interest to uniformed personnel, policy makers, and senior leaders. Each section seeks to frame the spectrum of perspectives captured within the current debates and lines of argument. Authors were specifically asked not to address all sides of the issue, but rather to produce a well-reasoned argument explaining why they believe their well-known position on an issue is in the best interests of the military members and make specific recommendations about how best to address the policy issues from their perspective. The volume is arranged in four primary sections by theme: Religious Expression, Homosexuality, Race and Gender, and Social Policy Perspectives. Within each section,

---

readers will find multiple chapters—each embracing a different perspective surrounding the section's theme. Thus, because of the unbalanced nature of many of the individual chapters, it is critically important that readers focus on the entire spectrum of perspectives presented within a section to ensure they have the context necessary to frame any single perspective. Diversity of opinion has been the hallmark of the United States since its dramatic birth in 1776 and has continued unfettered through today where we now have developed the most innovative and effective military the world has ever known. Thus, it is imperative that we continue to reflect upon the diversity of ideas about how best to formulate the "right" social policy to ensure our service members can most effectively execute their missions.

The surprising truth behind Barack Obama's decision to continue many of his predecessor's counterterrorism policies. Conventional wisdom holds that 9/11 sounded the death knell for presidential accountability. In fact, the opposite is true. The novel powers that our post-9/11 commanders in chief assumed—endless detentions, military commissions, state secrets, broad surveillance, and more—are the culmination of a two-century expansion of presidential authority. But these new powers have been met with thousands of barely visible legal and political constraints—enforced by

---

congressional committees, government lawyers, courts, and the media—that have transformed our unprecedentedly powerful presidency into one that is also unprecedentedly accountable. These constraints are the key to understanding why Obama continued the Bush counterterrorism program, and in this light, the events of the last decade should be seen as a victory, not a failure, of American constitutional government. We have actually preserved the framers' original idea of a balanced constitution, despite the vast increase in presidential power made necessary by this age of permanent emergency.

It is a rare cartoonist who can introduce new characters into a successful strip without upsetting readers. But since Wiley introduced Lucy, the lovable Pygmy-Clydesdale-with-an-attitude as the companion to Danae, Non Sequitur's cynical anti-heroine, fans have been clamoring for more of the pair. Now readers can enjoy the adventures of Lucy and Danae in the Non Sequitur collection dedicated to their exploits, Lucy and Danae: Something Silly This Way Comes. Lucy's lovable equine goofiness tempers Danae's overdeveloped cynicism as Danae

struggles with school, her father, and her sunny little sister, Kate. World-weary beyond her years, Danae sports a skull-in-heart T-shirt and perpetual scowl, while Lucy embodies unbridled optimism with her horsey grin. From their first meeting at summer camp, to Danae's "sneaky yet noble" plot to train Lucy as a guide horse for the blind (they do exist!), to an unplanned expedition to Santa's Workshop (in Maine, not the North Pole), Danae and Lucy turn the cliché of a sentimental girl and her horse upside down and inside out. With Lucy and Danae, Wiley Miller has found a winning combination that readers can't resist.

This publication describes the theory  
and philosophy of military planning as  
practiced by the U.S. Marine Corps.

The intent is to describe how we can  
prepare effectively for future action  
when the future is uncertain and  
unpredictable. In so doing, this  
publication provides all Marines a  
conceptual framework for planning in  
peace, in crisis, or in war. This  
approach to planning is based on our  
common understanding of the nature of  
war and on our warfighting philosophy  
of maneuver warfare as described in

Army leaders are the competitive  
advantage the Army possesses that  
technology cannot replace nor be  
substituted by advanced weaponry and

trained and ready units with agile,  
proficient leaders. Developing our  
leaders is integral to our institutional  
success today and tomorrow. It is an  
important investment to make for the  
future of the Army because it builds  
trust in relationships and units,  
prepares leaders for future  
uncertainty, and is critical to readiness

The Legacy of Belleau Wood Createspace Independent Pub  
Marine Corps Reference Publication (MCRP) 3-02B. Marine Corps Martial Arts Program (MCMAP), is designed for

Marines to review and study techniques after receiving initial naming from a certified Marine Corps martial arts instructor or martial arts instructor trainer. It is not designed as a self-study or independent course. The true value of Marine Corps Martial Arts Program is enhancement to unit training. A frilly implemented program can help instill unit esprit de corps and help foster the mental, character, and physical development of the individual Marine in the unit. This publication guides individual Marines, u leaders, and martial arts instructors/instructor trainers in the proper tactics, techniques, and procedures for martial arts training. MCRP 3-02B is not intended to replace supervision by appropriate unit leaders and martial arts instruction by qualified instructors. Its role is to ensure standardized execution of

tactics, techniques, and procedures throughout the Marine Corps. Although not directive, this publication is intended for use as a reference by all Marines in developing individual and unit martial arts programs. For policy on conducting martial arts training, refer to Marine Corps Order 1500.59, Marine Corps Martial Arts Program (MCMAP). **WARNING** Techniques described in this manual can cause serious injury or death. Practical application in the training of these techniques will be conducted in strict adherence with training procedures outlined in this manual as well as by conducting a thorough operational risk assessment for all training.

In the summer of 2017, the newly arrived president of Marine Corps

University, Brigadier General William J. Bowers, ordered a lecture series, "The Legacy of Belleau Wood: 100 Years of Making Marines and Winning Battles." The series would include four lectures, and it was to be supported by an anthology produced by History Division, providing readings to the students on the topics each lecture would cover. The intent was to produce an anthology of lasting worth to Marines, broadly depicting keystone moments in the history of the Corps during the century following the Battle of Belleau Wood. This volume presents a collection of 36 extracts, articles, letters, orders, interviews,

---

and biographies. The work is intended to serve as a general overview and provisional reference to inform both Marines and the general public of the broad outlines of notable trends and controversies in Marine Corps history--Provided by publisher.

Leading Marines 2 May 2016 The act of leading Marines is a sacred responsibility and a rewarding experience. This publication describes a leadership philosophy that speaks to who we are as Marines. It is about the relationship between the leader and the led. It is also about the bond between all Marines that is formed in the common forge of selfless service and shared hardships. It's in this forge where Marines are hardened like steel, and the undefinable spirit that forms the character of our Corps is born. It draws from shared experiences, hardships, and challenges in training and combat. Leading Marines is not meant to be read passively; as you

read this publication, think about the material. You should reflect on, discuss, and apply the concepts presented in this publication. Furthermore, it is the responsibility of leaders at all levels to mentor and develop the next generation of Marine leaders.

The Corps does two things for America: they make Marines and they win the nation's battles. The ability to successfully accomplish the latter depends on how well the former is done.
