The efficient flow of air through an engine is instrumental for producing maximum power. To maximize performance, engine builders seek to understand how air flows through components and ultimately through the entire engine. Engine builders use this knowledge and apply specific practices and principles to unlock horsepower within an engine; this applies to all engine types, including V-8s, V-6s, and imported 4-cylinder engines. Former Hot Rod magazine editor and founder of Westech Performance Group John Baechtel explains airflow dynamics through an engine in layman's terms so you can easily absorb it and apply it. The principles of airflow are explained; specifically, the physics of air and how it flows through major engine components, including the intake, heads, cylinders, and exhaust system. The most efficient and least restricted path through an engine is the key to high performance. To get to this higher level, the author explains atmospheric pressure, air density, and brake specific fuel consumption so you understand the properties of fuel for tuning. Baechtel covers the primary factors for optimizing the airflow path. This includes the fundamentals of air motion, air velocity, and boundary layers; obstructions; and pressure changes. Flowing air through the heads and the combustion chamber is key and is comprehensively explained. Also comprehensively explored is the exhaust system's airflow, in particular primary tube size and length, collector function, and scavenging. Chapters also include flowbench testing, evaluating flow numbers, and using airflow software. In the simplest terms, an engine is an air pump. Whether you're a professional engine builder or a serious amateur engine builder, you must understand engine airflow dynamics and must apply these principles if you want to optimize performance. If you want to achieve ultimate engine performance, you need this book.

The Aspiring Minimalist's Guide to Living Consciously and Contributing to a "Greener" Tomorrow "This is the perfect book for people that want to find a realistic roadmap to sustainable living." ?The Holistic Millennial Eco-minimalism is a hot-button issue right now, and for good reason. Living a life with less can be the key to saving our precious planet. Break the consumption cycle. There's so much to do, and way too much to buy. Whether it's through late night TV ads, social media, or other sources of influence, we are addicted to buying and then storing

things. Sometimes we consume with no regret and other times we realize that we're doing more harm than good to our wallets and our homes. It's a constant cycle?one that many are longing to break. Who wants their hard-earned money to go toward something that soon ends up in a landfill? A guide to eco-minimalism with a plan that is realistic. Manufacturing "stuff" exploits Earth's precious (and finite) resources. And then there's the harsh reality of where it all goes. Our discarded possessions ultimately head to landfills and contribute to environmental pollution, releasing greenhouse gases during breakdown and decomposition. Sustainable Minimalism is the solution. Empower yourself to incrementally incorporate the tenets of sustainable minimalism into your home and life. Learn to master the easiest tasks first and build upon your successes?a practical and stress-free process. Now that's sustainable! A blueprint for sustainability and stress management: How to gain greater mental clarity and increase your free time with fewer possessions Environmentally friendly ways of decluttering and organizing Ways to improve your financial stability, while going green at the same time How to get organized and operate a zero-waste home If you enjoyed books like Zero Waste Home, The Minimalist Home, or The Life-Changing Magic of Tidying Up, you'll love Sustainable Minimalism. This eBook includes the full text of the book plus an exclusive additional chapter from Chip and Joanna that is not found in the hardcover. An exclusive look at America's first family of renovation! Taking you behind the scenes, Chip and Joanna Gaines share the story of how they met, the ups and downs of being an entrepreneurial couple, and how they built a life they love. The Magnolia Story is the first book from dynamic husband-and-wife team Chip and Joanna Gaines, stars of HGTV's Fixer Upper. Offering their fans a detailed look at their life together, they share everything from the very first renovation project they ever tackled together to the project that nearly cost them everything; from the childhood memories that shaped them, to the twists and turns that led them to the life they share on the farm today. While they both attended Baylor University in Waco, their paths didn't cross until Chip checked his car into the local Firestone tire shop where Joanna worked behind the counter. Even back then Chip was a serial entrepreneur who, among other things, ran a lawn care company, sold fireworks, and flipped houses. Soon they were married and living in their first fixer upper. Four children and countless renovations later, Joanna garnered the attention of a television producer who noticed her work on a blog one day, leading to the incredible Fixer Upper phenomenon. In The Magnolia Story, fans will finally get to join the Gaines family

behind the scenes and discover: The time Chip ran to the grocery store and forgot to take their new, sleeping baby Joanna's agonizing decision to close her dream business to focus on raising their children When Chip buys a houseboat, sight-unseen, and it turns out to be a leaky wreck Harrowing stories of the financial ups and downs as an entrepreneurial couple Memories and photos from Chip and Jo's wedding The significance of the word magnolia and why it permeates everything they do The way the couple pays the popularity of Fixer Upper forward, sharing the success with others, and bolstering the city of Waco along the way And yet there is still one lingering question for fans of the show: Is Chip really that funny? "Oh yeah," says Joanna. "He was, and still is, my first fixer upper."

Perhaps the most charismatic automobile ever, the Volkswagen Beetle was the longest-running, most-manufactured automobile on a single platform of all time. From 1938 to 2003, more than 21.5 million "Bugs" were assembled, distributed, and sold on nearly every continent in the world. Throughout the Beetle's successful run, many of these cars have been relegated to project car status due to their age or condition. Airkooled Kustoms, a VW restoration shop in Hazel Green, Alabama, brings its expertise in restoring these cars to book form with this all-encompassing compilation. Restoring your Beetle is

covered through step-by-step sequences from unbolting that first nut through polishing the paint on your freshly restored Bug. The specialists at Airkooled Kustoms walk you through the proper disassembly methods, restoring versus replacing components, and reassembling your restored Bug, covering everything related to the body, sundercarriage, and interior along the way. It's about time a thorough, hands-on restoration book has been authored by authorities who know the Beetle like the back of their hands. With this book, you will have everything you need to bring your old or new VW Beetle project back to life. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial; color: #000000}

****THE INSTANT NEW YORK TIMES BESTSELLER**** "The Minimalists show you how to disconnect from our conditioned material state and reconnect to our true essence: love people and use things. This is not a book about how to live with less, but about how to live more deeply and more fully." —Jay Shetty, #1 New York Times bestselling author of Think Like a Monk **AS SEEN ON THE NETFLIX DOCUMENTARIES MINIMALISM & LESS IS NOW** How might your life be better with less? Imagine a life with less: less stuff, less clutter, less stress and debt and discontent—a life with fewer distractions. Now, imagine a life with more: more time, more meaningful relationships, more growth and contribution and contentment—a life of passion, unencumbered by the trappings of the chaotic world around you. What you're imagining is an intentional life. And to get there, you'll have to let go of some clutter that's in the way. In Love People, Use Things, Joshua Fields Millburn and Ryan Nicodemus move past simple decluttering to show how minimalism makes room to reevaluate and heal the seven essential relationships in our lives: stuff, truth, self, money, values, creativity, and people. They use their own experiences—and those of the people they have met along the minimalist journey—to provide a template for how to live a fuller, more meaningful life. Because once you have less, you can make room for the right kind of more.

WALLSTREET JOURNAL BESTSELLER Live lighter. Live freer. Live a bigger life with less. In Declutter Like a Mother, Allie Casazza comes alongside you to explore: Why decluttering calms anxiety in your heart and lessens

tension in your relationships. How to ensure your house is working for you, not against you. Why kids thrive when they're not overwhelmed with options. How to make time, when you feel you don't have time, to declutter. Allie Casazza was tired of feeling it was her against the laundry in her home. She wondered if somewhere beneath her frantic days and the mountains of toys in the playroom she would ever find joy and peace in motherhood. Then she discovered the abundance . . . of less. As she purged her home of excess stuff, Allie discovered a lifestyle that strengthened her marriage, saved her motherhood, and helped her develop her gifts in a way that no amount of new kitchen appliances or new organizing system ever could. Research studies show a direct link between stress levels and the amount of physical possessions people have in their homes, and Allie has seen that truth play out in her own life and in the lives of hundreds of thousands of other moms she has mentored through her business and online courses. She proclaims: You don't need a home that's perfect. You need a home that's lighter. Discover less stress, more space. Less chaos, more peace. Less of what doesn't matter, so you have room for what matters most of all.

In the spirit of *The Gentle Art of Swedish Death Cleaning* and *The Joy of Less*, experience the benefits of buying less and sharing more with this accessible 7-step guide to decluttering, saving money, and creating community from the creators of

the Buy Nothing Project. In their island community, friends Liesl Clark and Rebecca Rockefeller discovered that the beaches of Puget Sound were spoiled by a daily influx of plastic items and trash washing on shore. From pens and toothbrushes to toys and straws, they wondered, where did it all come from? Of course, it comes from us—our homes, our backyards, our cars, and our workplaces. And so, a rallying cry against excess stuff was born. In 2013, they launched the first Facebook Buy Nothing Project group in their small town off the coast of Seattle, and they never expected it to become a viral sensation. Today there are thousands of Buy Nothing groups all over the world, boasting more than a million members, and 5,000 highly active volunteers. Inspired by the ancient practice of gift economies, where neighbors share and pool resources, *The Buy Nothing, Get Everything Plan* introduces an environmentally conscious 7-step guide that teaches us how to buy less, give more, and live generously. At once an actionable plan and a thought-provoking exploration of our addiction to stuff, this powerful program will help you declutter your home without filling landfills, shop more thoughtfully and discerningly, and let go of the need to buy new things. Filled with helpful lists and practical suggestions including 50 items you never need to buy (Ziploc bags and paper towels) and 50 things to make instead (gift cards and salad dressing), *The Buy Nothing, Get Everything Plan* encourages you to rethink why you shop and embrace a space-saving, money-saving, and earth-saving mindset of buying less and sharing more.
