Hans Ledwinka's innovative Tatra cars were models of design excellence, and were highly influential in shaping modern car design concepts and the development of the Volkswagen. This book places Ledwinka in his well-deserved place amongst the great car designers. This enlarged 2nd edition contains updated material and additional illustrations.

Monte Carlo Rally Herridge & Sons Limited
The myth that Alec Issigonis conceived the Mini is just one whisp of the smoke screen that obscures the untold story of post-War Britains greatest industrialist. This is more than a motoring story. You will find commentary on life in the first half of the 20th century as you explore the drama of one mans determination to overcome adversity. Someone who shot from the hip as no other tycoon. This is a tale of political and military intrigue. Of spectacular business acumen. Of bitter, violent, industrial conflict. An account of savage jealousies and

sexual intrigue. To record the life of Leonard Lord the author has visited a vast number of sources. In recent times some have sought to implant the roots of the British motor industrys ills and ultimate collapse in the policies of Leonard Lord. This is both disingenuous and unjust. This, for the first time, is his story.

key maintenance and repairs that an owner can undertake, and finally, describes modifications in detail with step-by-step photographs.

Brick by Brick Veloce Publishing

Hundreds of entrants, in cars of all shapes and sizes, battled through mid-winter snow, fog, ice and darkness from far-flung starting points towards the magical principality of Monaco. Mishaps, breakdowns and smashes abounded, and competitors had tales to tell of cars teetering on the edge of precipices or rammed into snowbanks, frantically improvised repairs, close encounters and feats of crazy bravado. The first rally was run in 1911, with just 20 starters. In 1930 there were 100, in 1949 205, and in the peak year, 1953, there were no less than 404. In this book every Monte Carlo Rally held between 1911 and 1980 is covered individually, with results listings and route maps. As the years unfold we see the successes of Hotchkiss in the late 1940s, Sunbeam-Talbot in the early 1950s, Mini-Cooper in the 1960s, Porsche 911 in the late '60s, and the dominance of Alpine Renault and Lancia Stratos in the 1970s. The author also provides essential information on regulations, routes, on what competitors were required to do, on the tests held after arrival in Monaco, on classes of entries, and on the various Concours, including for instance the Concours de Confort, that were there to be won. Thus a complete picture of the aims and nature of the rally as it evolved is formed. Written by the world's leading rally historian, and featuring more than 300 archive photographs, this book provides both the definitive history of the greatest motor rally of all time and

an evocative view of a golden age of motoring history.

Tube Tester I-177

At last a dedicated publication that explains the history of the world's most versatile station wagon, a global workhorse, and comfortable family vehicle. Sweden's answer to Germany's people's car arrived some 20 years earlier and quickly paved the way for safe and dependable vehicles. The Volvo Estate chronicles the evolution of the Volvo estate car, with every model featured. Whether you are a Volvo lover or just have a general interest in cars, this book offers an informative and interesting look into a car that has had very little media coverage despite its vast global sales success and the affection it holds with so many.
