The court of James I is a volatile place, with factions led by warring cousins Robert Cecil and Francis Bacon. Europe is seething with conflict between Protestants and Catholics. James sees himself as a grand peacemaker - and what better way to make his mark than to use his children in marriage negotiations? Into this court come Henry, Prince of Wales, and his sister Elizabeth. Their louche father is so distrusted that soon they are far more popular than he is: an impossibly dangerous position. Then Elizabeth is introduced to Frederick of Bohemia, Elector Palatine. He's shy but they understand one another. She decides he will be her husband - but her parents change their minds. Brutally denied Henry's support, how can Elizabeth forge her own future? At once a love story, a tale of international politics and a tremendous evocation of England at a time of great change, this is a landmark novel to thrill all lovers of fine historical fiction.

Small dreams can damn as much as full-blown nightmares, as proven in the short stories Laura Argiri has written in her debut collection, *Guilty Parties*. Small town life can host the bitterest gossip, and and small-minded folk can offer the cruelest taunts

and regrettable deeds. A mother dwells on how broken her only daughter is, and whether her grandchild is all the crueller for it. A man's obsession with bettering his lot in life to impress a woman develops a fascination instead for poisonous snakes. A young wife is confronted by her husband's former boarding school roommate, a demented man whose misogyny has convinced him that she tore a rightful pairing apart. Guilt is the mortar between these enthralling tales.
