Told by doctors that he would never walk, talk, see, or even recognize her, Wyn devoted her every waking moment to exploring alternative treatments.

Through an intimate portrayal of her day-to-day interactions with her son and partner—as well as her own internal struggles, perceptions, and celebrations—Wyn shares her own uplifting story of resilience in the face of tragedy.

The court of James I is a volatile place, with factions led by warring cousins Robert Cecil and Francis Bacon.

Europe is seething with conflict between

Protestants and Catholics. James sees himself as a grand peacemaker - and what better way to make his mark than to use his children in marriage negotiations? Into this court come Henry, Prince of Wales, and his sister Elizabeth.

Their louche father is so distrusted that soon they are far more popular than he is: an impossibly dangerous position. Then Elizabeth is introduced to Frederick of Bohemia, Elector Palatine. He's shy but

they understand one another. She decides he will be her husband - but her parents change their minds. Brutally denied Henry's support, how can Elizabeth forge her own future? At once a love story, a tale of international politics and a tremendous evocation of England at a time of great change, this is a landmark novel to thrill all lovers of fine historical fiction.
