In 1979, fresh from  
its general election  
victory, the  
Conservative  
government began  
formulating plans to  
deregulate bus  
services and privatise  
the companies  
operating them in

England, Scotland and  
Wales. London was not  
to be excluded, so from  
the outset, London  
Buses was broken up  
into several areas and  
from 1985, a tendering  
system was introduced  
which permitted other  
operators to bid for  
the routes. Opposition  
from the Labour group  
at the Greater London  
Council had to be dealt  
with - eventually  
achieved by abolishing  
it in 1986. However, as  
each subsequent year  
passed, promises that  
deregulation was coming  
were not met. In late

1992, the privatisation  
timetable was set, and  
was ultimately  
completed at the end of  
1994. The issue of  
deregulation never  
resurfaced. Copiously  
illustrated with over  
270 photographs,  
virtually all of which  
are being published for  
the first time, this is  
the story of London  
Buses over those  
sixteen tumultuous  
years. To give greater  
context to the  
narrative, annual  
vehicle acquisition  
listings show how  
purchasing policy

changed over the period; important route changes, tendering gains and losses and a fleet list for the entire period are also included.

formulae needed for scheme design to British Standards by structural engineers in a handy-sized format. Bringing together data from many sources into a compact, affordable pocketbook, it saves valuable time spent tracking down information needed regularly. This second edition is a companion to the more recent Eurocode third edition. Although small in size, this book contains the facts and figures needed for preliminary design whether in the office or on-site. Based on UK conventions, it is split into 14 sections including geotechnics, structural steel,

reinforced concrete, masonry and timber, and includes a section on sustainability covering general concepts, materials, actions and targets for structural engineers. Popular Mechanics Frederick Warne Publishers

of Investments, American and Foreign Little Red Book 2009 Buses and Coaches from 1940 On September 8, 1980, with the family phone, the Yellow Pages, an old manual typewriter, and \$200 she had saved from the grocery money, forty-eight-year-old June Bratcher started her company from the kitchen table. In *You Are Driving Me Crazy!*, she shares the story of the creation of Daisy Tours, a bus tour company with twenty-six coaches now worth \$6 million. Bratcher relates her own experiences, how she recognized her opportunities, how she achieved her goals, and how she

coped when failure loomed. *You Are Driving Me Crazy!*, presents a personal story of building her business to become one of the top fifty companies in San Antonio, Texas. She tells tales of romance, suicide, robbery, sexual harassment, and international intrigue as well as glorious joy and deep despair. For enterprising entrepreneurs and those considering going into business, Bratcher discusses the anatomy of building a successful business while overcoming many challenges in a field considered to be a man's world.

described and how to think about the issues; abundant examples and exercises allow students to focus on how to do historical linguistics. Distinctive to this text is its integration of the standard topics with others now considered important to the field, including syntactic change, grammaticalization, sociolinguistic contributions to linguistic change, distant genetic relationships, areal linguistics, and linguistic prehistory. Examples are taken from a broad range of languages; those from the more familiar English, French, German, and Spanish make the topics more accessible,

while those from non-Indo-European languages show the depth and range of the concepts they illustrate. This second edition features expanded explanations and examples as well as updates in light of recent work in linguistics, including a defense of the family tree model, a response to recent claims on lexical diffusion/frequency, and a section on why languages diversify and spread.
