The 18-HP Vanguard Briggs and Stratton engine features a full-pressurized lubrication system. The oil in any engine acts as the lubricant to cool the internal moving components; as the oil ages from hours of use and heat from the engine, the oil's viscosity starts to break down. As the oil breaks down, the temperature of the engine increases and will cause damage to the internal components. [Oil Recommendations | Vanguard Engines](#) The full-synthetic composition makes Vanguard Oil a high-performance solution, providing longer oil life compared to a semi-synthetic or mineral-based oil product. The zinc additive ingredient provides anti-wear protection from metal components, while the high-quality detergent ensures lower engine deposits over time. Even in the most demanding environments, Vanguard Oil delivers. It is suitable for use in outdoor temperatures up to 130 ° F, providing maximum protection in
