Dimention Publishing Company Limited

Some 250 works explore three distinct periods in American history when mainstream and outlier artists intersected, ushering in new paradigms based on inclusion, integration, and assimilation. The exhibition aligns work by such diverse artists as Charles Sheeler, Christina Ramberg, and Matt Mullican with both historic folk art and works by self-taught artists ranging from Horace Pippin to Janet Sobel and Joseph Yoakum. It also examines a recent influx of radically expressive work made on the margins that redefined the boundaries of the mainstream art world, while challenging the very categories of "outsider" and "self-taught." Historicizing the shifting identity and role of this distinctly American version of modernism's "other," the exhibition probes assumptions about creativity, artistic practice, and the role of the artist in contemporary culture. The exhibition is curated by Lynne Cooke, senior curator, special projects in modern art, National Gallery of Art.--Provided by publisher.

An Unprecedented African Political Tragedy Farrar,
Straus and Giroux

The initial version of the Curtiss P-40, designated by the
manufacturer as the Hawk H-81, combined the
established airframe of the earlier radial-powered H-75

(P-36) fighter with the Allison V-1710 liquid-cooled
engine. The year was 1939, and the marriage was one of
expediency. With the threat of war in Europe growing by
the day, the US Army Air Corps brass wanted a modern
fighter that would combine the sterling handling qualities
of the P-36 with a boost in performance that would make
it competitive with the new types emerging in Germany
and England, and the generals wanted the new plane
immediately. The P-40 delivered admirably, and though
it never reached the performance levels of the Bf 109 or
Spitfire, the sturdy fighter nevertheless made a place in
history for itself as the Army's frontline fighter when the
US entered World War II. Long-nosed P-40s initially saw
combat in North Africa, flying in Royal Air Force
squadrons. They also fought in the skies over Pearl
Harbor and the Philippines. But the long-nosed P-40 is
best known as the shark-faced fighter flown by the
American Volunteer Group – the legendary "Flying
Tigers" – over Burma and China during 1941 – 42.

Donald Trump shocked the nation in 2016 by winning the
presidency through an ultraconservative, anti-immigrant
platform, but, despite the electoral surprise, Trump's far-
right views were not an aberration, nor even a recent
phenomenon. In Far-Right Vanguard, John Huntington
shows how, for almost a century, the far right has forced
so-called "respectable" conservatives to grapple with their
concerns, thereby intensifying right-wing thought and
forecasting the trajectory of American politics.

Ultraconservatives of the twentieth century were the
vanguard of modern conservatism as it exists in the
Republican Party of today. Far-Right Vanguard chronicles
the history of the ultraconservative movement, its national
network, its influence on Republican Party politics, and its
centrality to America's rightward turn during the second

half of the twentieth century. Often marginalized as outliers,
the far right grew out of the same ideological seedbed that
nourished mainstream conservatism. Ultraconservatives
were true reactionaries, dissenters seeking to peel back
the advance of the liberal state, hoping to turn one of the
major parties, if not a third party, into a bastion of true
conservatism. In the process, ultraconservatives left a
deep imprint upon the cultural and philosophical bedrock
of American politics. Far-right leaders built their movement
through grassroots institutions, like the John Birch Society
and Christian Crusade, each one a critical node in the
ultraconservative network, a point of convergence for
activists, politicians, and businessmen. This vibrant,
interconnected web formed the movement's connective
tissue and pushed far-right ideas into the political
mainstream. Conspiracy theories, nativism, white
supremacy, and radical libertarianism permeated far-right
organizations, producing an uncompromising mindset and
a hyper-partisanship that consumed conservatism and,
eventually, the Republican Party. Ultimately, the far right's
politics of dissent—against racial progress, federal power,
and political moderation—laid the groundwork for the
aggrieved, vitriolic conservatism of the twenty-first century.

Understanding of African Initiated Churches Bloomsbury Publishing Award-winning, critically acclaimed author Alan Gratz (Prisoner B-3087) returns with another gripping World War II story, this time about a spy in the Hitler Youth. Infiltrate. Befriend. Sabotage. World War II is raging. Michael O'Shaunessey, originally from Ireland, now lives in Nazi Germany with his parents. Like the other boys in his school, Michael is a member of the Hitler Youth. But Michael has a secret. He and his parents are spies. Michael despises everything the Nazis stand for. But he joins in the Hitler Youth's horrific games and book burnings, playing the part so he can gain insider knowledge. When Michael learns about Projekt 1065, a secret Nazi war mission, things get even more complicated. He must prove his loyalty to the Hitler Youth at all costs -- even if it means risking everything he cares about. Including... his own life. From acclaimed author Alan Gratz (Prisoner B-3087) comes a pulse-pounding novel about facing fears and fighting for what matters most.

A Resource Book Alpha Edition

A retired general of the Biafran Army presents a post-mortem account of the events of the Nigerian civil war, 1966-70. He attempts to explain dispassionately why army officers toppled the civil government in the cause of stability, and the considerable civilian support they received; and the ensuing riots and counter-coup, in the name of reunification, which led to a civil war claiming some three million lives. He presents eye-witness accounts, and from an insider-perspective tells the story of how and why the Biafrans fought the war for almost three years under blockade and in isolation from the outside world, aiming to rectify much perceived misinformation about the war published outside Africa.

Decolonization and the Transformation of the Church Malthouse Press

An improved version of the Allison V-1710 engine gave rise to the Curtiss H-87, which began life in 1941 as the P-40D and featured a completely redesigned fuselage. The shorter and deeper nose of the new fighter gave it a decidedly snub-nosed appearance compared to the earlier P-40 models. Curtiss continued to tweak the H-87 for the next two years in the search for better performance, but the last major version, the P-40N, was only marginally faster than the first. In the process, Curtiss even tried an engine change to the Packard Merlin in the P-40F and L but to no avail. What the late model P-40s lacked in speed and service ceiling, they traded for maneuverability, durability and availability. Their niche became fighter-bomber operations, and they fought on fronts as varied as the arctic wastes of the Aleutian Islands and Iceland, the steaming jungles of the South

Pacific and the barren deserts of North Africa. P-40s were a common sight in the skies over Burma and China, Sicily and Italy, and western Russia as well. By the time production ceased in 1944, Curtiss had produced nearly 14,000 P-40s.

Projekt 1065 Scholastic Inc.

"An insider traces the details of hope and ambition gone wrong in the Giant of Africa, Nigeria, Africa's most populous country. When it gained independence from Britain in 1960, hopes were high that, with mineral wealth and over 140 million people, the most educated workforce in Africa, Nigeria would become Africa's first superpower and a stabilizing democratic influence in the region. However, these lofty hopes were soon dashed and the country lumbered from crisis to crisis, with the democratic government eventually being overthrown in a violent military coup in January 1966. From 1966 until 1999, the army held onto power almost uninterrupted under a succession of increasingly authoritarian military governments and army coups. Military coups and military rule (which began as an emergency aberration) became a seemingly permanent feature of Nigerian politics. The author names names, and explores how British influence aggravated indigenous rivalries. He shows how various factions in the military were able to hold onto power and resist civil and international pressure for democratic governance by exploiting the country's oil wealth and ethnic divisions to its advantage."--Publisher's description.

Enduring Success University of Pennsylvania Press

This book explores the disturbing dimensions of the problem of insecurity in Nigeria, such as herdsmen violence, the Boko Haram insurgency, cybercrime, militancy in the Niger Delta, communal conflict and violence, as well as police corruption. It offers a comprehensive discussion of the theoretical foundations of internal security, the threats to internal security, the role of formal and informal agencies in internal security management and the challenges of internal security management.

Remarkable Women Leaders Share the Power of Immigrace Algora Publishing

Mohammed Chris Alli is a retired Nigerian Army Major General who served as Chief of Army Staff from 1993 to 1994 under General Sanni Abacha's regime and was military governor of Plateau State Nigeria from August 1985 to 1986 during the military regime of General Ibrahim Babangida. Many years later, he was appointed interim administrator of the state during a 2004 crisis in the state following ethno-religious killings in Shendam, Yelwa Local Government. In this anthology, organized as a symposium on Mohammed Christopher Alli's work, he is identified as one of those critical and rational thinkers, philosophers, albeit, a General in the Nigerian Army, whose work finds a befitting logical space in the

contemporary African philosophical tapestry. The book also captures the elements of military misrule in Nigeria and its undue influence on the body polity; it is a critical survey of past military misadventures, and a satire against false federalism, it is a firm warning against future corruption and impunity in the military.

Perspectives, Challenges and Lessons Xlibris Us

This book brings together a selection of articles on newspaper writing and reporting. It represents a resource book intended to sensitize would-be journalists to the arts of reporting and writing, and to the ways in which newspaper readership can be sustained in the age of online messaging. It will provide students of journalism and media studies, particularly in Nigeria, with the skills required by newspaper journalism, and is a response to the poverty of literature on newspaper journalism in Nigerian universities and colleges.

Outliers and American Vanguard Art Harvard University Press
Relates the life and work of the first African American woman to publish and edit a newspaper in North America.

How Black Women Broke Barriers, Won the Vote, and Insisted on Equality for All Potomac Books, Inc.

Classic radical feminist statement from the woman who shot Andy Warhol "Life in this society being, at best, an utter bore and no aspect of society being at all relevant to women, there remains to civic-minded, responsible, thrill-seeking females only to overthrow the government, eliminate the money system, institute complete automation and destroy the male sex." Outrageous and violent, SCUM Manifesto was widely lambasted when it first appeared in 1968. Valerie Solanas, the woman who shot Andy Warhol, self-published the book just before she became a notorious household name and was confined to a mental institution. But for all its vitriol, it is impossible to dismiss as the mere rantings of a lesbian lunatic. In fact, the work has proved prescient, not only as a radical feminist analysis light years ahead of its time—predicting artificial insemination, ATMs, a feminist uprising against underrepresentation in the arts—but also as a stunning testament to the rage of an abused and destitute woman. In this edition, philosopher Avital Ronell's introduction reconsiders the evocative exuberance of this infamous text.

Lagos State, the Cornerstone of Nigeria's Economic Development Basic Books

Amidst the gas lamp shadows former soldier-turned-mercenary John Vanguard hunts criminals at the behest of his corrupt employer, Captain Felix Sanquain. Shamed by his deserter past and seeking to make amends for his many misdeeds, a chance encounter with Tarryn Leersac - a skilled young would-be-assassin fallen from the graces of high society - leads Vanguard to become an unlikely mentor. Charged with hunting down the killer of two guards left washed up on the banks of the canal, the further Vanguard delves into the underbelly of the city the more he finds himself

entangled in a web of secrets and lies. A prominent aristocrat is missing. Crime lords, con men and harlots run amok and the city teeters on the brink of another revolution. With his already precarious reputation hanging by a thread, Vanguard must piece together how and why the last war came to pass, find a way to earn redemption for his mistakes and come to terms with the past in a city where few survive, and even fewer can be trusted. A Grimdark novel with elements of adventure and gaslight fantasy, 'We Men of Ash and Shadow' explores themes of redemption, loyalty, and betrayal against the backdrop of a world where survival often means compromising your values. 'We Men of Ash and Shadow' is an adult fantasy novel and as such, contains adult themes and language.

Vanguard Book of Quotations University of Chicago Press

This is not a comprehensive study of every sexual quirk, kink and ritual across all cultures throughout time, as that would entail writing an encyclopaedia. Rather, this is a drop in the ocean, a paddle in the shallow end of sex history, but I hope you will get pleasantly wet nonetheless. The act of sex has not changed since people first worked out what went where, but the ways in which society dictates how sex is culturally understood and performed have varied significantly through the ages. Humans are the only creatures that stigmatise particular sexual practices, and sex remains a deeply divisive issue around the world. Attitudes will change and grow — hopefully for the better — but sex will never be free of stigma or shame unless we acknowledge where it has come from. Based on the popular research project Whores of Yore, and written with her distinctive humour and wit, A Curious History of Sex draws upon Dr Kate Lister 's extensive knowledge of sex history. From medieval impotence tests to twentieth-century testicle thefts, from the erotic frescoes of Pompeii, to modern-day sex doll brothels, Kate unashamedly roots around in the pants of history, debunking myths, challenging stereotypes and generally getting her hands dirty. This fascinating book is peppered with surprising and informative historical slang, and illustrated with eye-opening, toe-curling and meticulously sourced images from the past. You will laugh, you will wince and you will wonder just how much has actually changed.

And Broken Promises of Our Fathers Black Classic Press

Memoirs of an Early Arab Feminist is the first English translation of the memoirs of Anbara Salam Khalidi, the iconic Arab feminist. At a time when women are playing a leading role in the Arab Spring, this book brings to life an earlier period of social turmoil and women's activism through one remarkable life. Anbara Salam was born in 1897 to a notable Sunni Muslim family of Beirut. She grew up in "Greater Syria," in which unhindered travel between Beirut, Jerusalem and Damascus was possible, and wrote a series of newspaper articles calling on women to fight for their rights within the Ottoman Empire. In 1927 she caused a public scandal by removing her veil during a lecture at the American University of Beirut. Later she translated Homer and Virgil into Arabic and fled from Jerusalem

to Beirut following the establishment of Israel in 1948. She died in Beirut in 1986. These memoirs have long been acclaimed by Middle East historians as an essential resource for the social history of Beirut and the larger Arab world in the 19th and 20th centuries.

Far-Right Vanguard Cambridge Scholars Publishing

The epic history of African American women's pursuit of political power -- and how it transformed America. In the standard story, the suffrage crusade began in Seneca Falls in 1848 and ended with the ratification of the Nineteenth Amendment in 1920. But this overwhelmingly white women's movement did not win the vote for most black women. Securing their rights required a movement of their own. In Vanguard, acclaimed historian Martha S. Jones offers a new history of African American women's political lives in America. She recounts how they defied both racism and sexism to fight for the ballot, and how they wielded political power to secure the equality and dignity of all persons. From the earliest days of the republic to the passage of the 1965 Voting Rights Act and beyond, Jones excavates the lives and work of black women -- Maria Stewart, Frances Ellen Watkins Harper, Fannie Lou Hamer, and more -- who were the vanguard of women's rights, calling on America to realize its best ideals.

The Life and Activism of Anbara Salam Khalidi Xlibris Corporation

The best-known and most sensational event in Vincent van Gogh 's life is also the least understood. For more than a century, biographers and historians seeking definitive facts about what happened on a December night in Arles have unearthed more questions than answers. Why would an artist at the height of his powers commit such a brutal act? Who was the mysterious “ Rachel ” to whom he presented his macabre gift? Did he use a razor or a knife? Was it just a segment—or did Van Gogh really lop off his entire ear? In Van Gogh 's Ear, Bernadette Murphy reveals, for the first time, the true story of this long-misunderstood incident, sweeping away decades of myth and giving us a glimpse of a troubled but brilliant artist at his breaking point. Murphy 's detective work takes her from Europe to the United States and back, from the holdings of major museums to the moldering contents of forgotten archives. She braids together her own thrilling journey of discovery with a narrative of Van Gogh 's life in Arles, the sleepy Proven ç al town where he created his finest work, and vividly reconstructs the world in which he moved—the madams and prostitutes, caf é patrons and police inspectors, shepherds and bohemian artists. We encounter Van Gogh 's brother and benefactor Theo, his guest and fellow painter Paul Gauguin, and many local subjects of Van Gogh 's paintings, some of whom

Murphy identifies for the first time. Strikingly, Murphy uncovers previously unknown information about “ Rachel ” —and uses it to propose a bold new hypothesis about what was occurring in Van Gogh 's heart and mind as he made a mysterious delivery to her doorstep. As it reopens one of art history 's most famous cold cases, Van Gogh 's Ear becomes a fascinating work of detection. It is also a study of a painter creating his most iconic and revolutionary work, pushing himself ever closer to greatness even as he edged toward madness—and one fateful sweep of the blade that would resonate through the ages.

Van Gogh's Ear TCU Press

The question of what holds pre-eminence in the life of an African man, between his sons and his lands has always been a hot issue. Ali is a developing story which presents a thrilling and engrossing account of an African child growing up in a complicated world of land rivalry. His existence is made meaningful by his significance as a redeemer of a lost asset. Ogbonna Nwokpoku is from Nigeria. He lives in Lagos where he writes for the Vanguard newspaper.
