Lippincott's Primary Care Psychiatry Lippincott Williams & Wilkins

This unique study guide supplements any Mosby psychiatric nursing textbook. Topics cover everything from basic concepts of psychiatric nursing to nursing management of psychiatric disorders. It includes activities that represent a range of cognitive levels, from content review to application and critical thinking. These activities can be used as in-class or homework assignments, or they can be used by the student independently. Several chapters include pre- and post-viewing activities based on information and clinical scenarios from Mosby video series.

A Clinical Approach Saunders

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-

follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions.

Mosby's Psychiatric Nursing Study Guide

Mosby Incorporated

Written by and for Nurse Practitioners from a unique collaborative perspective, *Primary Care: A Collaborative Practice, 4th Edition*, prepares you to provide care for all of the major disorders of adults seen in the outpatient setting. Evidence-based content reflects the latest guidelines for primary

care of hundreds of conditions, including hypertension, diabetes, and sexually transmitted infections. Now in full color, the 4th Edition includes chapters on emerging topics such as genetics, obesity, lifestyle management, and emergency preparedness. Combining a special blend of academic and clinical expertise, the author team provides a practical text/reference that promotes a truly collaborative primary care practice. Comprehensive, evidence-based content incorporates the latest standardized guidelines for primary care in today's fast-paced, collaborative environment. Unique! A collaborative perspective, reflecting the key roles of NPs, MDs, PAs, PharmDs, and others, promotes seamless continuity of care. A consistent format from chapter to chapters facilitates learning and clinical reference value. Diagnostics and Differential Diagnosis boxes provide a quick reference for diagnosing disorders and helping to develop effective management plans. Physician Consultation icons highlight situations or conditions in which consultation is either recommended or necessary. Emergency Referral icons identify signs and symptoms that indicate the need

for immediate referral to an emergency facility. Co-management with Specialists discussions help you provide truly collaborative care in the outpatient setting. Complementary and alternative therapies are addressed where supported by solid research evidence.

Craig's Essentials of Sonography and Patient Care Mosby Incorporated

This text fills a void in advanced practice nursing literature by providing a foundation for integrating psychopharmacology, psychotherapy and Complementary and Alternative Medicine (CAM) into advanced practice nursing. The text includes coverage of neurobiology, theory and research evidence related to psychopharmacology, psychotherapy and complementary and alternative medicine interventions. This text addresses the issue of defining and integrating relationship-based approaches with psychopharmacological and CAM approaches by providing beautifully-designed and easy-to-follow decision trees for initiating specific treatment and discussion of specific continuing care issues. This text has a lifespan focus and includes pediatric pointers and aging alerts.

Primary Care - E-Book Saunders

Featuring the most accurate, current, and clinically relevant information available, Perry's Maternal Child Nursing Care in

Canada combines essential maternity and pediatric nursing information in one text. Comprehensive coverage includes promotion of wellness and the care for persons experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Medication Alerts stress medication safety concerns for better therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting, women's health concerns, and caring for sick children. Evidence-Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through

emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care. Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved in their own care with optimal outcomes.

Contemporary Practice Elsevier Health Sciences

This psychiatric-mental health undergraduate textbook, based on the theories of Hildegard Peplau and Joyce Travelbee, is the first recent book devoted to interpersonal relations as the foundation for therapeutic practice in psychiatric nursing. It guides the student through the essential phases of self-discovery necessary to integrate interpersonal nursing theory into practice, and provides a historical overview of the profession. The book addresses the most current ISPN and APNA competencies and presents content designed to foster self-growth, and critical thinking and decision-making skills, as well as to implement therapeutic interventions. It offers an overview of theories of mental illness and a detailed discussion of commonly seen psychiatric disorders, and addresses mental health care settings across the lifespan and different populations. Clinical case studies and first-hand accounts vividly describe the realities of living with specific mental illnesses, "What would you do?" questions stimulate discussions, and sample and practice care plans for chronic mental illness facilitate integration of concepts into practice. Evidence-based practice summaries from psychiatric nursing and related research literature are included, and NANDA guidelines are integrated throughout. A new chapter with DSM-V updates is also available. This affordably priced text additionally comes with supplementary materials for both teachers and students, including handy review guides, summaries, drug monographs, and hyperlinks to films and video illustrating content. A test bank and PowerPoint slides are also available for instructors. Key Features: Integrates and applies the

Peplau/Travelbee interpersonal relations theories to the four-step Assessment, Planning/Diagnosing, Implementation, and Evaluation (APIE) nursing process Addresses critical thinking, clinical decision making, therapeutic interventions, case management roles, and mental health care settings across the lifespan Features NCLEX preparation questions, vivid clinical scenarios, and evidence-based practice summaries Addresses the most current ISPN and APNA competencies A new chapter with DSM-V updates is available Both student and teacher digital aids, including review guides, summaries, hyperlinks to films and video, and drug monographs are available A test bank and PowerPoint slides are also available for instructors eBook Features (available in all eBook formats): Bidirectional link between Key Terms and their glossary definitions Learning Outcomes at start of chapters link to respective sections in book Hyperlinks to supplementary films and videos Care plans DSM-V update This book is also available as part of a discounted set. Essentials of Psychiatric Nursing Elsevier Health Sciences

Preceded by Essentials of sonography and patient care / Marveen Craig. 3rd ed. 2013.

Manual of I. V. Therapeutics - Teacher's Edition Lippincott Williams & Wilkins

The 7th edition of this market-leading textbook offers a clear, straightforward way to understand the often intimidating subject of psychiatric mental health nursing. Its practical, clinical perspective and user-friendly writing style help you quickly master key concepts. Clinical chapters follow the nursing process framework and progress from theory to application with a wealth of real-world examples to prepare you for practice. UNIQUE! A conversational, user-friendly writing style helps you quickly grasp complex psychiatric mental health nursing concepts. Clinical chapters are logically and consistently organized with sections on the clinical picture,

epidemiology, comorbidity, etiology, and application of the nursing process. Clinical chapters follow the nursing process, providing you with consistent guidelines for comprehensive assessment and intervention. Vignettes prepare you for real-world practice with personal, descriptive characterizations of patients with specific psychiatric disorders. Coverage of psychopharmacology in clinical chapters familiarizes you with specific drug treatment options, including the most commonly used drugs and important nursing considerations for their use. Assessment Guidelines boxes list essential guidelines for comprehensive patient assessment. Case Studies with Nursing Care Plans present individualized histories of patients with specific psychiatric disorders and include interventions with rationales and evaluation statements for each patient goal. A separate chapter on cultural implications, as well as Considering Culture boxes throughout the text, provides essential information on culture, worldviews, and techniques for providing culturally competent care. Coverage of treatment and recovery in the community addresses the need for successful ongoing psychiatric mental health nursing care in the community setting. A chapter on end-of-life care examines the psychological impact of terminal illness and death on patients, families, and nurses. New content on integrative care –this content will cover patient centered medical homes, integrated care clinics and the role of advanced practice nurses in psychiatric care *Relevant QSEN competencies will be introduced in Chapter One, Mental Health and Mental Illness, and will be integrated throughout the text. A common sense, and how it applies to practice, approach will be used to highlight the competencies relevant to psych nursing care such as safety, communication, evidence based practice and others. * Include more content and discussion on genetics as the basis for psychological disorders. Will consider a new chapter or add this content to Chapter 3, Biological Basis for Understanding Psychotropic Drugs *Enhance content on the health promotion and prevention of illness in pediatric patients *The author has secured a knowledgeable, expert contributor to develop meaningful, concept maps for the clinical chapters and we will work to revise our current concept map creator on Evolve to be more state of the art *Integrate the DSM-V to the extent that we know prior to publication to make

our text as current as possible. DSM-V content is to be released in Spring 2013 while our text is in production. All relevant and updated NANDA content will be included as well * The number of photos and illustrations will be increased to add to the appeal of the text (per reviewer comments). One example is to include normal brain images in the clinical chapters that are also accompanied by an image demonstrating clinical pathology (eg: schizophrenia)

Advanced Practice Psychiatric Nursing W B Saunders Company

Edited and written by a Who's Who of internationally known advanced practice nursing experts, Hamric and Hanson's *Advanced Practice Nursing: An Integrative Approach*, 6th Edition helps you develop an understanding of the various advanced practice registered nursing (APRN) roles. This bestselling textbook provides a clear, comprehensive, and contemporary introduction to advanced practice nursing today, addressing all major APRN competencies, roles, and issues. It covers topics ranging from the evolution of advanced practice nursing to evidence-based practice, leadership, ethical decision-making, and health policy. New to this edition is expanded coverage of interprofessional collaborative practice, updated coverage of APRN roles related to implementation of healthcare reform in the U.S., updated and expanded coverage of IOM and QSEN, a global focus on international advanced practice nursing, and much more! Coverage of all APN core competencies defines and describes all competencies, including direct clinical practice, guidance and coaching, consultation, evidence-based practice, leadership, collaboration, and ethical decision-making.

Operationalizes and applies the APN core competencies to the major APN specialties including the Clinical Nurse Specialist, the Primary Care Nurse Practitioner, the Acute Care Nurse Practitioner, the Certified Nurse-Midwife, and the Certified Registered Nurse Anesthetist. Content on managing APN environments addresses such factors as business planning and reimbursement; marketing, negotiating, and contracting; regulatory, legal, and credentialing requirements; health policy; and nursing outcomes and performance improvement research. UNIQUE! Exemplar boxes (case studies), including Day in the Life vignettes of each APN specialty,

emphasize innovative practices and coverage of advanced practice roles. In-depth discussions of educational strategies for APN competency development show how nurses develop competencies as they progress into advanced practice. NEW and UNIQUE! Expanded coverage of interprofessional collaborative practice includes the latest Interprofessional Education Collaborative (IPEC) Core Competencies for Interprofessional Collaborative Practice. NEW! Updated coverage of APRN roles related to implementation of healthcare in the U.S. reflects current and anticipated changes in APRN roles related to healthcare reform. NEW! Coverage of IOM and QSEN has been updated and expanded. NEW! Refocused International Development of Advanced Practice Nursing chapter has been rewritten to be more global and inclusive in focus, to reflect the state of advanced practice nursing practice throughout all major regions of the world. NEW! Expanded content on the role of advanced practice nurses in teaching/education/mentoring and health policy related to the APRN role is featured in the 6th edition.

Foundations of Mental Health Care - E-Book Lippincott Williams & Wilkins

Increase your awareness and understanding of a holistic view of mental health care with this book for nurses and other health care professionals. Each chapter covers a specific psychological or psychosocial problem as well as the most current interventions and treatments. This edition features full-color illustrations, updated drug information, and a chapter on complementary and alternative therapies, in addition to more case studies to help you apply the content to real life. This solid background in mental health is just what you need to work comfortably with clients who exhibit both effective and maladaptive behaviors. Multidisciplinary care plans for sample clients show how members of the health care team work together. Client-specific case studies highlight particular mental disorders and help you apply chapter content to real-life situations. "Think About boxes throughout the text strengthen your critical-thinking skills. UNIQUE "Drug Alert boxes highlight what you need to know about a wide range of specific psychotherapeutic medications. UNIQUE Standard LPN full-color design and "Content Threads point out key information and special features in each chapter, consistent with the format of other books in the LPN Threads series.

Appendixes give you easy access to mental health care standards, DSM-IV TR diagnoses, and assessment tools that are essential for providing quality care. FREE workbook at the end of the book includes crossword puzzles, multiple-choice questions, and other exercises to boost your comprehension of the material. FULL-COLOR illustrations make the text even more visually appealing and user-friendly. Additional case studies help you apply chapter content to more real-life scenarios such as chronic illness and substance abuse with accompanying questions to test your critical-thinking skills. Chapter on complementary and alternative therapies increases your awareness of the benefits and risks of alternative therapies such as ayurveda, herbal supplements, massage, meditation, acupuncture, and telemedicine. Forensic nursing content familiarizes you with the prevention and treatment of violence-based disorders and shows you how to obtain and document evidence for legal purposes. NEW antianxiety and antimanic drug information keeps you up-to-date on the latest psychotropic medications.
