Authoritatively and expertly written, the new seventh edition of Bratton and Gold's Human Resource Management builds upon the enduring strengths of this renowned book. Thoroughly updated, topical and accessible, this textbook explores the theory and practice of human resource management and will encourage your students to reflect critically on the realities of the ever-changing world of work. The new edition truly captures the zeitgeist of contemporary human resource management. With coverage of the Covid-19 pandemic in relation to business ethics, physical and mental wellbeing, inequality and the rise of the gig-economy and precarious work, students will feel connected to the complex issues that face workers, organisations and wider society. This edition also includes expanded coverage on the ever-palpable effects of globalization and technological change and explores the importance of sustainable practice. Students will gain critical insight into the realities of contemporary HRM, engaging with the various debates and tensions inherent in the employment relationship and understanding the myriad of different theories underpinning human resource management. New to this edition: - New 'Ethical Insight' boxes explore areas of current ethical concern in trends and practice - New 'Digital Spotlight' boxes explore innovations in technology, analytics and AI and the impact on workers and organisations - Topical coverage on job design and the rise of the gig economy and precarious work - A critical discussion of the core themes and debates around human resource management in the post-Covid-19 era, including mental health and wellbeing. - A rich companion website packed with extra resources, including video interviews with HR professionals, work-related films, bonus case studies, links to employment law, and vocab checklists for ESL students make this an ideal text for online or blended learning.

This book presents operational and practical issues of automotive mechatronics with special emphasis on the heterogeneous automotive vehicle systems approach, and is intended as a graduate

text as well as a reference for scientists and engineers involved in the design of automotive mechatronic control systems. As the complexity of automotive vehicles increases, so does the dearth of high competence, multi-disciplined automotive scientists and engineers. This book provides a discussion into the type of mechatronic control systems found in modern vehicles and the skills required by automotive scientists and engineers working in this environment. Divided into two volumes and five parts, Automotive Mechatronics aims at improving automotive mechatronics education and emphasises the training of students' experimental hands-on abilities, stimulating and promoting experience among high education institutes and produce more automotive mechatronics and automation engineers. The main subject that are treated are: VOLUME I: RBW or XBW unibody or chassis-motion mechatronic control systems; DBW AWD propulsion mechatronic control systems; BBW AWD propulsion mechatronic control systems; VOLUME II: SBW AWS diversion mechatronic control systems; ABW AWA suspension mechatronic control systems. This volume was developed for undergraduate and postgraduate students as well as for professionals involved in all disciplines related to the design or research and development of automotive vehicle dynamics, powertrains, brakes, steering, and shock absorbers (dampers). Basic knowledge of college mathematics, college physics, and knowledge of the functionality of automotive vehicle basic propulsion, propulsion, conversion and suspension systems is required.

This book "provides managers with an awareness of the issues involved in managing change, moving them beyond "one-best way" approaches and providing them with access to multiple perspectives that they can draw upon in order to enhance their success in producing organizational change. These multiple perspectives provide a theme for the text as well as a framework for the way each chapter outlines different options open to managers in helping them to identify, in a reflective way, the actions and choices open to them."--Cover.
