... Had diagnostics done and replaced plugs,coil pack and engine sensor as advised by garage. Light went out for a few hours now back on sometimes blinking. Put into vauxhall specialist garage for diagnostics they said "EML light on, Engine misfire, suspect coil pack, plugs and leads first, could also be sticky valves."

Vauxhall corsa engine light issue

Vauxhall Astra MkV 1.7 CDTI (diesel) - Engine management light. Here's an interesting one that I'd like some views on if possible. First thing in morning, all works well when switching on the ignition. All lights come on, as they should and all go out after pre-check. When I start it, (cranking slightly longer than normal) the engine management light comes on after a short time (car with spanner).
