Vauxhall Astra Problems Engine

If the second-hand Astra you're thinking of purchasing takes time to start before engaging the full power of the engine, or if there is a clicking sound when you turn the key in the ignition you could be looking at a problem with the starter motor or solenoid. This can be solved by simply cleaning the contacts in some cases, but will often require you completely replace the motor.

Vauxhall Astra: Common Problems and Solutions ...

Fortunately, The SIDI engines developed by Opel / Vauxhall have relatively few problems with carbon build-up, at least at low mileage. Keep in mind that at some point, there will be some build-up, and if it becomes severe, the only option is manual cleaning. This requires the intake manifold to be removed.
