Ever wondered what would happen if you stopped teaching in your lessons? You might be surprised. If you want your students to learn more and you to work less, then this book provides you with all the arguments and evidence you need to become a lazy, but outstanding teacher. Gathered over 10 years in the classroom, this handbook of tried-and-tested techniques shifts the emphasis away from the teaching and onto the learning, and makes your life so much easier in the process. Fed up missing out on those sunny Sundays? Maybe your marking could be done by the local community instead? Sick of planning lessons? Get the students to plan them for you. (After all, personalised learning can't involve 30 lesson plans!). This powerful book is packed full of easy-to-apply and highly effective strategies (which Ofsted have rated as 'outstanding'). What's more, they all have the seal of approval of real students in real classrooms. In fact, many of them have been thought up by the students themselves, but that's why Jim Smith is called the Lazy Teacher. So, next time someone says to you to get a life, this book will make it possible.

Nobody Loves a Ginger Baby Haynes Publishing

Touring Car Racing, a feast of nostalgia, celebrates the 60-year heritage of the British Touring Car Championship. From the era of Mini Coopers and Lotus Cortinas to the Vauxhall Astras and Honda Civics of recent years, all the highlights of Britain's ever-spectacular touring car scene are captured in a year-by-year visual extravaganza with over 600 photos and expert commentary. Compiled by long-time touring car journalist Matt James, the book has a chapter for each year featuring a summary of the season, 10 photos showing all the top cars and drivers in action, key statistics and a profile of the champion driver. Anyone who has ever enjoyed touring car racing as a participant, spectator or television viewer will treasure this book. The 1950s. The British Saloon Car Championship was inaugurated in 1958 and from the start it was super-competitive, ending in a tie that was resolved by a shoot-out in favour of Jack Sears. The 1960s. There were three Mini champions but mainly this was a Ford era, epitomised by Lotus Cortinas (with Jim Clark ever spectacular) and big Falcons, Galaxies and Mustangs from America. The 1970s. Smaller classes came to the fore in this decade, with three drivers sharing seven titles — Bill McGovern took three in Sunbeam Imps while two apiece went to Bernard Unett (Chrysler Avenger GT) and Richard Longman (Mini 1275GT). The 1980s. Three drivers also bestrode this decade but in a wider range of cars, including Mazda RX-7, Alfa Romeo GTV, Rover Vitesse and Ford Sierra XR4i; Win Percy and Andy Rouse each took three titles, Chris Hodgetts two. The 1990s. Overseas drivers arrived in force to mix it with home-grown stars during the highly competitive Super Touring years, the decade's champions including Joachim Winkelhock (BMW 318is), Frank Biela (Audi A4 quattro), Alain Menu (Renault Laguna), Rickard Rydell (Volvo S40) and Laurent Aïello (Nissan Primera). The 2000s. Vauxhalls were the star cars, taking six titles, while the decade brought three double champions in the form of James Thompson (Vauxhall Astra), Matt Neal (Honda Integra) and Fabrizio Giovanardi (Vauxhall Vectra VXR). The 2010s. Yet more variety and brilliant racing has characterised the current decade, with Gordon Shedden becoming the winningest driver with three titles in Honda Civics.

Rebuild and Repair Guide: Haynes Service and Repair Manuals
Drastic reduction of carbon emissions is vital if we are to avoid a catastrophe that devastates large parts of the world. Governments and businesses have been slow to act - individuals need to take the

lead now if we are to avoid climate chaos. Each Westener is responsible for an average 10 - 20 tonnes of carbon emissions each year (depending on where you live). In How to Live a Low-Carbon Life, Chris Goodall shows how easy it is to take responsibility, providing a comprehensive, one-stop reference guide to calculating your CO2 emissions and reducing them to a more sustainable 2 tonnes a year.

Vehicle Refinement Haynes Manuals

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.
