r/engineering: The hub for all content related to the engineering discipline. ... So as I'm learning new tools I ended up on Udemy and then I saw there were entire courses for something called Excel VBA. As I looked more into it and searched through this subreddit I realized it is fairly useful skill.

Engineer | VBA

Engineers' tool is VBA so you find them using it where it's not appropriate or useful. Moreover, they're amateur programmers so to a professional software developer like me, opening up a macro-enabled Excel file is like a carpenter walking up to a woodworking project and seeing a screw that's been pounded double surrounded by a bunch of circular indentations.
