Velvet Drive 5000 Down Angle Liberty Series transmission.  
1.25:1 ratio. 12 degree down angle between input and output  
shaft shafts. Fully reversing feature allows for twin engine  
installation using automotive rotation engines.

**Drive Dampers - Marine Engine Parts**

The velvet drive is hydraulically operated and hence defaults to 'neutral'  
when the input shaft is not turning and there is no control pressure; you can  
turn input and output shafts by hand, yes.
