*A History of Venice* Melville House

What is the relationship between the medieval crusades and the problems of the modern Middle East? Were the crusades the Christian equivalent of Muslim jihad? In this sweeping yet crisp history, Thomas F. Madden offers a brilliant and compelling narrative of the crusades and their contemporary relevance. Placing all of the major crusades within their social, economic, religious, and intellectual environments, Madden explores the uniquely medieval world that led untold thousands to leave their homes, families, and friends to march in Christ's name to distant lands. From Palestine and Europe's farthest reaches, each crusade is recounted in a clear, concise narrative. The author gives special attention as well to the crusades' effects on the Islamic world and the Christian Byzantine East.

In *Sacred Plunder*, David Perry argues that plundered relics, and narratives about them, played a central role in shaping the memorial legacy of the Fourth Crusade and the development of Venice's civic identity in the thirteenth century. After the Fourth Crusade ended in 1204, the disputes over the memory and meaning of the conquest began. Many crusaders faced accusations of impiety, sacrilege, violence, and theft. In their own defense, they produced hagiographical narratives about the movement of relics—a medieval genre called *translatio*—that restated their own versions of events and shaped the memory of the crusade. The recipients of relics commissioned these unique texts in order to exempt both the objects and the people involved with their theft from broader scrutiny or criticism. Perry further demonstrates how these narratives became a focal point for cultural transformation and an argument for the creation of the new Venetian empire as the city moved from an era of mercantile expansion to one of imperial conquest in the thirteenth century.

One of Time's 12 Books for the History Buffs on Your Holiday Gift List The first single-volume history of Istanbul in decades: a biography of the city at the center of civilizations past and present. For more than two millennia Istanbul has stood at the crossroads of the world, perched at the very tip of Europe, gazing across the shores of Asia. The history of this city—known as Byzantium, then Constantinople, now Istanbul—is at once glorious, outsized, and astounding. Founded by the Greeks, its location blessed it as a center for trade but also made it a target of every empire in history, from Alexander the Great and his Macedonian Empire to the Romans and later the Ottomans. At its most spectacular Emperor Constantine I re-founded the city as New Rome, the capital of the eastern Roman empire, and dramatically expanded the city, filling it with artistic treasures, and adorning the streets with opulent palaces. Around it all Constantine built new walls, truly impregnable, that preserved power, wealth, and withstood any aggressor—walls that still stand for tourists to visit. From its ancient past to the present, we meet the city through its ordinary citizens—the Jews, Muslims, Italians, Greeks, and Russians who used the famous baths and walked the bazaars—and the rulers who built it up and then destroyed it, including Mustafa Kemal Atatürk, the man who christened the city "Istanbul" in 1930. Thomas F. Madden's entertaining narrative brings to life the city we see today, including the rich splendor of the churches and monasteries that spread throughout the city. Istanbul draws on a lifetime of study and the latest scholarship, transporting readers to a city of unparalleled importance and majesty that holds the key to understanding modern civilization. In the words of Napoleon Bonaparte, "If the Earth were a single state, Istanbul would be its capital."

Developed throughout early modern Europe, lazaretti, or plague hospitals, took on a central role in early modern responses to epidemic disease, in particular the prevention and treatment of plague. The lazaretti served as isolation hospitals, quarantine centres, convalescent homes, cemeteries, and depots for the disinfection or destruction of infected goods. The first permanent example of this institution was established in Venice in 1423 and between the fifteenth and eighteenth centuries tens of thousands of patients passed through the doors. Founded on lagoon islands, the lazaretti tell us about the relationship between the city and its natural environment. The plague hospitals also illustrate the way in which medical structures in Venice intersected with those of piety and poor relief and provided a model for public health which was influential across Europe. This is the first detailed study of how these plague hospitals functioned, where they were situated, who worked there, what it was like to stay there, and how many people survived. Comparisons are made between the Venetian lazaretti and similar institutions in Padua, Verona and other Italian and European cities. Centred on the sixteenth and seventeenth centuries, during which time there were both serious plague outbreaks in Europe and periods of relative calm, the book explores what the lazaretti can tell us about early modern medicine and society and makes a significant contribution to both Venetian history and our understanding of public health in early modern Europe, engaging with ideas of infection and isolation, charity and cure, dirt, disease and death.

In the fall of 1948, Ernest Hemingway made his first extended visit to Italy in thirty years. His reacquaintance with Venice, a city he loved, provided the inspiration for *Across the River and into the Trees*, the story of Richard Cantwell, a war-ravaged American colonel stationed in Italy at the close of the Second World War, and his love for a young Italian countess. A poignant, bittersweet homage to love that overpowers reason, to the resilience of the human spirit, and to the worldweary beauty and majesty of Venice, *Across the River and into the Trees* stands as Hemingway's statement of defiance in response to the great dehumanizing atrocities of the Second World War. Hemingway's last full-length novel published in his lifetime, it moved John O'Hara in *The New York Times* Book Review to call him "the most important author since Shakespeare."

*Death in Venice and Other Stories* Comma Press

A #1 New York Times Bestseller! "Funny, insightful, illuminating . . ." —*The Boston Globe* Twelve years ago, *Midnight in the Garden of Good and Evil* exploded into a monumental success, residing a record-breaking four years on the New York Times bestseller list (longer than any work of fiction or nonfiction had before) and turning John Berendt into a household name. The *City of Falling Angels* is Berendt's first book since *Midnight*, and it immediately reminds one what all the fuss was about. Turning to the magic, mystery, and decadence of Venice, Berendt gradually reveals the truth behind a sensational fire that in 1996 destroyed the historic Fenice opera house. Encountering a rich cast of characters, Berendt tells a tale full of atmosphere and surprise as the stories build, one after the other, ultimately coming together to portray a world as finely drawn as a still-life painting.

*Istanbul* Penguin UK

A globetrotting, time-bending, wildly entertaining masterpiece hailed by the New York Times Book Review as "Audaciously well written...the book I was raving about to my friends before I'd even finished it." Publishers Weekly raved that "with near-universal appeal . . . Seay's debut novel is a true delight, a big, beautiful cabinet of wonders that is by turns an ominous modern thriller, a supernatural mystery, and an enchanting historical adventure story." Set in three cities in three eras, *The Mirror Thief* calls to mind David Mitchell and Umberto Eco in its mix of entertainment and literary bravado. The core story is set in Venice in the sixteenth century, when the famed makers of Venetian glass were perfecting one of the old world's most wondrous inventions: the mirror. An object of glittering yet fearful fascination—was it reflecting simple reality, or something more spiritually revealing?—the Venetian mirrors were state of the art technology, and subject to industrial espionage by desirous sultans and royals world-wide. But for any of the development team to leave the island was a crime punishable by death. One man, however—a world-weary war hero with nothing to lose—has a scheme he thinks will allow him to outwit the city's terrifying enforcers of the edict, the ominous Council of Ten . . . Meanwhile, in two other Venices—Venice Beach, California, circa 1958, and the Venice casino in Las Vegas, circa today—two other schemers launch similarly dangerous plans to get away with a secret . . . All three stories will weave together into a spell-binding tour-de-force that is impossible to put down—an old-fashioned, stay-up-all-night novel that, in the end, returns the reader to a stunning conclusion in the original Venice . . . and the bedazzled sense of having read a truly original and thrilling work of art.

*Death in Venice* Penn State Press

INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or tuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

This book deals with the Netherlandish merchant community in sixteenth- and seventeenth-century Venice. It examines the merchants commercial activities, their social and communal relations, as well as their interaction with the Venetian state, which was accustomed to protect its own trade. The Netherlandish merchants in Venice, as part of an extensive international trading network, were ideally placed to connect Mediterranean and Atlantic commerce. They quickly became the most important group of foreign merchants in the city at a time of rapid economic changes. Drawing on a wide variety of primary sources, this book shows how these immigrant traders used their strong commercial position to secure a place in Venice. It demonstrates how the changing balance of international commerce affected early modern Venetian society.

**Venice** Penguin

A classic, controversial book exploring German culture and identity by the author of *Death in Venice* and *The Magic Mountain*, now back in print. When the Great War broke out in August 1914, Thomas Mann, like so many people on both sides of the conflict, was exhilarated. Finally, the era of decadence that he had anatomized in *Death in Venice* had come to an end; finally, there was a cause worth fighting and even dying for, or, at least when it came to Mann himself, writing about. Mann immediately picked up his pen to compose a paean to the German cause. Soon after, his elder brother and lifelong rival, the novelist Heinrich Mann, responded with a no less determined denunciation. Thomas took it as an unforgivable stab in the back. The bitter dispute between the brothers would swell into the strange, tortured, brilliant, sometimes perverse literary performance that is *Reflections of a Nonpolitical Man*, a book that Mann worked on and added to throughout the war and that bears an intimate relation to his postwar masterpiece *The Magic Mountain*. Wild and ungainly though Mann's reflections can be, they nonetheless constitute, as Mark Lilla demonstrates in a new introduction, a key meditation on the freedom of the artist and the distance between literature and politics. The NYRB Classics edition includes two additional essays by Mann: "Thoughts in Wartime" (1914), translated by Mark Lilla and Cosima Mattner; and "On the German Republic" (1922), translated by Lawrence Rainey.

*The Book of Venice* Editions Jonglez

Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public) romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

The #1 New York Times--bestselling author of *The Group* takes readers on a captivating journey to one of the world's most celebrated cities. Mary McCarthy brings her novelist's unerring eye to a book that blends art, politics, religion, music, and history to create a living portrait of "the world's loveliest city." Like a painter capturing the city's essence on canvas, McCarthy uses words to create stunning visuals that bring both the old and new Venice to enchanting life. From her apartment overlooking the garden of a palazzo, McCarthy takes us into the museums and monasteries of this city of canals and gondolas, Machiavelli and Tintoretto. And she reveals some little-known facts: Venetians love pets, but prefer cats to dogs; during World War II, the Allies captured the city with a fleet of gondolas; and without Napoleon, Venice wouldn't be what it is today. From the ancient roots of *The Merchant of Venice's* pound of flesh to the quotidian details of daily life, it's all here--the magnificent frescoes, the sublime music of Mozart, the virgins, and the saints. At once a comprehensive travelogue and a powerful piece of reportage, *Venice Observed* is a testimony of McCarthy's love affair with the City of Canals. This ebook features superb color reproductions of the works of Giorgione, Veronese, Titian, Canaletto, Guardo, Bellini, and Tiepolo, and an illustrated biography of Mary McCarthy including rare images from the author's estate.
