BiSL® - A Framework for Business Information Management - 2nd edition Van Haren
Construction Planning and Scheduling, Fourth Edition offers broad coverage of all major scheduling subjects. This comprehensive resource is designed for construction management, planning and scheduling. It follows a logical progression, introducing precedence diagramming early and following with chapters on activity durations, resource allocations, network schedules, and more. It reflects current trends in scheduling (short-interval scheduling, computer scheduling, linear scheduling etc.) and includes chapters on arrow diagramming and PERT. With an eye on application, it includes a unique discussion of contract provisions related to scheduling and incorporates a sample project throughout.

Construction Planning and Scheduling Xulon Press
"God wants to answer ALL your prayers! "If He had planned it any other way, He would never have required you to pray. But He'll hear and answer only when you're 'PRAYING THE RIGHT WAY.' Discover the secrets and principles of effective prayer in this concise, yet comprehensive book by Chris Oyakhilome and rid yourself of any wrong mindsets, doctrines, perceptions, practices and prayers that may have clogged the wheels of your prayer life.

The Obelisks of Egypt Seagull Books Pvt Ltd
This book offers 150 12-lead ECGs and rhythm strips, each with a clinical case history and question. The full ECG is reproduced and a study of it with the case history should be enough to give an answer. On the back the case is examined, with a description of the main features of the ECG along with a clinical interpretation and a "what to do" section. The cases are graded in difficulty. The unique page size allows presentation of all 12-lead ECGs across a single page for clarity. Several of the cases incorporate chest X-rays and coronary angiograms illustrating the appearances that are associated with various cardiac conditions. All the cases are graded in difficulty and are cross-referenced to the new editions of ECG Made Easy and ECG in Practice for further information. For this Fourth Edition over 30 new ECGs have been included, mainly to provide clearer examples, though the book deliberately retains some technically poor records to maintain a 'real-world' perspective.

Praying the Right Way Elsevier Health Sciences
This book describes a process framework for business information management: the Business Information Services Library (BiSL®) – a public domain standard that is consistent with the IT Infrastructure Library (ITIL) and Application Services Library (ASL). BiSL establishes a bridge between IT and business processes, and between business information administrators and information managers. The BiSL process model provides an insight into all of the primary processes within their field of operations and into the relationship between the various processes. It offers a starting point for the improvement of these processes using best practices, amongst other things, and it provides uniform terminology. This book explains BiSL, a process framework for business information management, encompassing the best way to manage and execute business information management in day-to-day practice, and explains how the framework BiSL can help to improve business processes and the alignment of business and IT. Additional Training material is available for free for APMG accredited trainers. If you want to have this sent to you, please send an e-mail to: info@vanharen.net By this book is a separate file (free, via internet) available: • All images in the book, in Powerpoint format.
