Press the 2 key to select Return. 2. Press the 1 key to select Credit or the 2 key to select Debit. If the VX 680 is set up for Credit only, this step will not appear. 3. Swipe the

customer's card (debit/credit) or enter the card number manually (credit only). Page 8 6.

## Verifone Troubleshooting User Guide

You are redirected to the Verifone portal. Log in with your username and password for the base station. Go to Configuration > Ethernet. In the Connection Type drop-down menu, select Static. Enter the IPv4 Address, the Subnet Mask, the Gateway, the DNS 1, and the DNS 2. The Connection Speed should remain on Auto. The static IP address must be unique in the network and, if you have more than one base station, unique for each base station.

## [VeriFone VX 820 Manuals and User Guides, Payment Terminal ...](#)

MANUAL PAN ENTRY Used when paying for product or services by telephone, i.e. when the cardholder is not present to hand over his card. You can only perform a "Manual pan" entry with credit cards. Enter amount on Start menu - Choose "Enter" or "Sale" button - Choose "Manual Entry" button on screen.

Topaz | Verifone.com

Begin typing the card number on the payment  
options screen. The screen will switch to  
manual entry screen. Once the long card  
number is complete, press the key to continue.  
Enter the expiration date of card and then press  
key. Select the Card Present Mode. Enter CVV  
number and then press key.
