"In recent years States have made more and more extensive use of the International Court of Justice for the judicial settlement of disputes. Despite being declared by

the Court's Statute to have no binding force for States other than the parties to the case, its decisions have come to constitute a body of jurisprudence that is frequently invoked in other disputes, in international negotiation, and in academic writing. This jurisprudence, covering a wide

---

range of aspects of international law, is the subject of considerable ongoing academic examination; it needs however to be seen against the background, and in the light, of the Court's structure, jurisdiction and operation, and the principles applied in these domains. The purpose of this book is thus to provide an accessible and comprehensive study of this aspect of the Court, and in particular of its procedure, written by a scholar who has had unique opportunities of close observation of the Court in action. This distillation of direct experience

and expertise makes it essential reading for all those who study, teach or practise international law." --book flap.

Czes ł aw Mi ł osz is at times called an American poet. This means one thing in Poland, and something else in the United States. To Polish readers, this description is mainly related to the moment of his departure from Europe to take up employment at the University of California in Berkeley, and his settlement for many years in California, where his new poems and essays were written. Mi ł osz is to them an American

poet, in a biographical sense, from the time he started living at Grizzly Peak until his return to Krakow, and in a symbolic sense, for as long as he cooperated with the publishing market, participated in literary life, and was an ambassador of Polish literature across the ocean. He is an American poet to the extent that his work was influenced by the thought and work of those cultural circles. However, one has to return to the landmark year of 1960, when Mi ł osz had only set off for Berkeley, and ask about the awareness with which he discovered America, where he spent those consequential five years fifteen years before, and where he apparently took

---

refuge from the consequences of the Sovietization of his native part of Europe. He returned to America as someone familiar with its realities and its lifestyle, with the reasoning and actions of its people, aware of many local customs and problems, well versed in various circulations of culture and information, fluent in English, with a rich and current knowledge of the literature of the linguistic circles that permeated it. Little is known about the postwar period, when Mi ę osz built this extensive awareness. For various reasons, it has not been the subject of investigations and research. Not only because the question of the poet's

American traits, posed ever more eagerly today, hides the assumption that it refers to his California period treated as a phase of life and creativity which is closed both temporally and intellectually. Such a formulation of this question also results partly from the Polish understanding of the label of an American poet. However, this question gains its full meaning only when its scope includes, firstly, the realization that 1960 was not the initial year in Mi ę osz's learning about America - it only marked a renewal of this process in a more complex way. Secondly, the question should include our awareness of the baggage of Mi ę osz's experiences

accumulated in the 1940s, with which he reentered the New World. In other words, understanding the process of taking root in California after 1960 is possible when we, as Mi ę osz himself did, take into account his American postwar period, thought-out, problematized and reassessed in Europe after 1950. This book aims to show how Czes ę aw Mi ę osz assimilated America from 1945 to 1950, how he expanded his cultural horizon there, incorporating various components within it. The subject of my interest has been, on the one hand, the sphere of his activities in many areas at the time, and on the other, the ways of making use of the intellectual

---

opportunities that his stay in America created for him. The book consists of four parts, each dedicated to a different aspect of Mi 1 osz's five years in America and based on archival research. The first part is a biographical reconstruction of his diplomatic and literary activities, the second discusses his lectures, articles and opinion journalism, the third recreates the process of his study of English-language literature, and the fourth examines the ways in which he assessed the postwar experience in his poetry, essays, and correspondence. While the last part concerns the period when Mi 1 osz, residing in France, looks back on the American years,

which to a large extent influenced the new way of interpreting them, the three previous ones concern the common five-year period and constitute a mutual reference system.

When I started a coffee company in April of 1988, my approach to espresso was formed from these two disciplines which can be summed up in a tidy little sound bite: scientific precision guided by artistry. First and always foremost: all information is geared to making an espresso that is characterized by a heavy red-brown syrup called crema. This crema features an intense coffee flavor that is free of bitterness. Ideally, espresso

should always taste like the freshly ground coffee smells. Texture is featured always, and should feel like a pair of velvet pajamas wrapped around your tongue. - Introduction. My First I Can Draw Text Publishing

America "Evocative and hopeful," says Newbery Honor-Winner Rita Williams-Garcia of this intense survival story set during the Armenian genocide of 1915. It is 1914, and the Ottoman Empire is crumbling into violence. Beyond Anatolia, in the Armenian Highlands, Shahen Donabedian dreams of going to New York. Sosi, his twin sister, never wants to leave her home, especially now that she is in

love. At first, only Papa, who counts Turks and Kurds among his closest friends, stands in Shahen's way. But when the Ottoman pashas set in motion their plans to eliminate all Armenians, neither twin has a choice. After a horrifying attack leaves them orphaned, they flee into the mountains, carrying their little sister, Mariam. But the children are not alone. An eagle watches over them as they run at night and hide each day,

making their way across mountain ridges and rivers red with blood. The collection has three parts: "The Translator's Take," "Theoretics," and

"Impact." The conversation stretches from queer-feminist engagement with China's newest poetry to philosophical and philological reflections on its oldest, and from Tang- and Song-dynasty classical poetry in Western languages to Baudelaire and Celan in Chinese. Translation is taken as an interlingual and intercultural act, and the essays foreground theoretical expositions and the practice of translation in equal but not opposite measure. Poetry has a transforming yet ever-acute relevance in

Chinese culture, and this makes it a good entry point for studying Chinese-foreign encounters. Pushing past oppositions that still too often restrict discussions of translation-form versus content, elegance versus accuracy, and "the original" versus "the translated"-this volume brings a wealth of new thinking to the interrelationships between poetry, translation, and China. Poland of Today Routledge Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell'autore e la storia collettiva della società di un paese del Sud. The collection of essays presented here examines the links forged through the ages between the realm of law and the expressions of the humanistic culture. We collected thirty-five essays by international scholars and organized them into sections of ten chapters based around

---

ten different themes. Two main perspectives emerged: in some articles the topic relates to the conventional approach of law and/in humanities (iconography, literature, architecture, cinema, music), other articles are about more traditional connections between fields of knowledge (in particular, philosophy, political experiences, didactics). We decided not to confine authors to one particular

methodological framework, preferring instead to promote historiographical openness. Our intention was to create a patchwork of different approaches, with each article drawing on a different area of culture to provide a new angle to the history being told. The variety of authorial nationalities gives the collection a multicultural character and the breadth of the chronological period it deals with from

antiquity to the contemporary age adds further depth of insight. As the element that unites the collection is historiographical interpretation, we wanted to bring to the fore its historical depth. Thus for every chapter we organized the articles in chronological order according to the historical context covered. Looking at the final outcome, it was interesting to learn that more often than not the connection between law and humanities is not

---

simply a relation between a specific branch of the law and a single field of the humanities, but rather a relation that could be developed in many directions at once, involving different fields of knowledge, and of arts and popular culture. We are grateful to Luigi Lacchè for his contribution to this collection. His essay outlines the coordinates of the law and humanities world, laying out the instruments necessary for an

understanding of the origins of a complex methodology and the different approaches that exist within it. This project is the result of discussions that took place during the XXIII Forum of the Association of Young Legal Historians held in Naples in the spring of 2017. of Recorded Sound in the United States Chronicle Books This comprehensive biography of George Gershwin (1898-1937) unravels the myths surrounding one of America's most celebrated composers and establishes the enduring value of his music. Gershwin created some of the most beloved music of the twentieth

century and, along with Jerome Kern, Irving Berlin, and Cole Porter, helped make the golden age of Broadway golden. Howard Pollack draws from a wealth of sketches, manuscripts, letters, interviews, books, articles, recordings, films, and other materials—including a large cache of Gershwin scores discovered in a Warner Brothers warehouse in

---

1982—to create an expansive chronicle of Gershwin’s meteoric rise to fame. He also traces Gershwin’s powerful presence that, even today, extends from Broadway, jazz clubs, and film scores to symphony halls and opera houses. Pollack’s lively narrative describes Gershwin’s family, childhood, and education; his early career as a pianist; his friendships and

romantic life; his relation to various musical trends; his writings on music; his working methods; and his tragic death at the age of 38. Unlike Kern, Berlin, and Porter, who mostly worked within the confines of Broadway and Hollywood, Gershwin actively sought to cross the boundaries between high and low, and wrote works that crossed over into a realm where

art music, jazz, and Broadway met and merged. The author surveys Gershwin’s entire oeuvre, from his first surviving compositions to the melodies that his brother and principal collaborator, Ira Gershwin, lyricized after his death. Pollack concludes with an exploration of the performances and critical reception of Gershwin's music over the years, from his time to ours.
