that number is one percent. What went so wrong? Losing the Signal is a riveting story of a company that toppled global giants before succumbing to the ruthlessly competitive forces of Silicon Valley. This is not a conventional tale of modern business failure by fraud and greed. The rise and fall of BlackBerry reveals the dangerous speed at which innovators race along the information superhighway. With unprecedented access to key players, senior executives, directors and

competitors, Losing the Signal unveils the remarkable rise of a company that started above a bagel store in Ontario. At the heart of the story is an unlikely partnership between a visionary engineer, Mike Lazaridis, and an abrasive Harvard Business school grad, Jim Balsillie. Together, they engineered a pioneering pocket email device that became the tool of choice for presidents and CEOs. The partnership enjoyed only a brief moment on top of the world, however. At the very moment BlackBerry was

ranked the world's fastest growing company internal feuds and chaotic growth crippled the company as it faced its gravest test: Apple and Google's entry in to mobile phones. Managing Technological Innovation Macmillan Seasoned CBS reporter Sharyl Attkisson reveals how she

has been electronically surveilled while digging deep into the Obama Administration and its scandals, and offers an incisive critique of her industry and the shrinking role of investigative journalism in today ' s media. Americans are at the mercy of powerful figures in business and government who are virtually unaccountable. The Obama Administration in particular has broken new ground in its monitoring of journalists, intimidation and

harassment of opposition groups, and surveillance of private citizens. Sharyl Attkisson has been a journalist for more than thirty years. During that time she has exposed scandals and covered controversies under both Republican and Democratic administrations. She has also seen the opponents of transparency go to ever greater lengths to discourage and obstruct legitimate reporting. Attkisson

herself has been subjected to " opposition research " efforts and spin campaigns. These tactics increased their intensity as she relentlessly pursued stories that the Obama Administration dismissed. Stonewalled is the story of how her news reports were met with a barrage of PR warfare tactics, including online criticism, as well as emails and phone calls up the network chain of command in an effort to intimidate and

discourage the next story. In Stonewalled, Attkisson recounts her personal tale, setting it against the larger story of the decline of investigative journalism and unbiased truth telling in America today.
