In Geneva, Maria’s despairing view of love is put to the test when she meets a handsome young painter. In this odyssey of self-discovery, Maria must choose between pursuing a path of darkness—sexual pleasure for its own sake—or risking everything to find her own inner light

"I thought that I had already thought about everything you could think about Love when Henry Drummond's sermon fell into my hands. My life changed a lot from the moment I read the words in this book and tried to put his teaching into practice." "Paulo Coelho" "If I speak in the tongues of men and of angels, but have not love, I am a noisy gong or a clanging cymbal." At some point, all of us have heard this passage from St. Paul's Letter to the Corinthians. But do we really understand his message? At the end of the 19th century, the young missionary Henry

Drummond was asked to replace a famous preacher. Though at the beginning he did not convince the audience, they were soon captivated by his analysis of the words of the Apostle Paul. This sermon, *The Greatest Thing in the World*, has become a classic and is, without doubt, one of the most beautiful texts ever written on love. Drummond broke it down into the following nine elements: patience, kindness, generosity, humility, gentleness, dedication, tolerance, sincerity and innocence. Contrary to what we are used to hearing, the greatest treasure in the spiritual life is not faith, but love. No matter what your religious beliefs are, this feeling is, without doubt, the most rewarding way to live. In *The Supreme Gift*, Paulo Coelho adapts Henry Drummond's text, offering a real and powerful message that will help us incorporate love into our daily life and experience all its transformational power in our lives.

This volume brings together perspectives on social identity and peace psychology to explore the role that categorization plays in both conflict and peace-building. To do so, it draws leading scholars from across the world in a comprehensive exploration of social identity theory and its application to some of the world's most pressing problems, such as intrastate conflict, uprising in the middle east, the refugee

crisis, global warming, racism and peace building. A crucial theme of the volume is that social identity theory affects all of us, no matter whether we are currently in a state of conflict or one further along in the peace process. The volume is organized into two sections. Section 1 focuses on the development of social identity theory. Grounded in the pioneering work of Dr. Henri Tajfel, section 1 provides the reader with a historical background of the theory, as well as its current developments. Then, section 2 brings together a series of country case studies focusing on issues of identity across five continents. This section enables cross-cultural comparisons in terms of methodology and findings, and encourages the reader to identify general applications of identity to the understanding of peace as well as applications that may be more relevant in specific contexts. Taken together, these two sections provide a contemporary and diverse account of the state of social identity research in conflict situations and peace psychology today. It is evident that any account of peace requires an intricate understanding of identity both as a cause and consequence of conflict, as well as a potential resource to be harnessed in the

promotion and maintenance of peace. Understanding Peace and Conflict Through Social Identity Theory: Contemporary Global Perspectives aims to help achieve such an understanding and as such is a valuable resource to those studying peace and conflict, psychologists, sociologists, anthropologists, public policy makers, and all those interested in the ways in which social identity impacts our world.
