Disciple IV Field Translation Series DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study

concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. Drinking Water Infrastructure Createspace Independent Publishing Platform

Book Excerpt: ... But she said nothing of the sort of mystery connected with the powder; some instinct prevented her doing so. Nor did she tell that but a little of it remained, or that their stock of rose-leaves would soon be exhausted."Who knows what may happen before that?" she reflected, and the words of Linde's dream-visitor recurred to her, "Three times, and then ask the robin." Dame Barbara was quite satisfied and greatly delighted."Here," she said, fumbling for her substantial purse, "a goat for two ounces of it, did you say? No, a half-goat only? My dear, you'll have to raise your prices if the perfume is so excellent! Well to begin with, give me the four ounces straight away, and here's a half-goat over and above what it all comes to--dried leaves and fresh ones and flowers, all together--just the tiny silver piece for luck, you know."...

America ' s higher education system is failing its students. In the space of a generation, we have gone from being the best-educated society in the world to one surpassed by eleven other nations in college graduation rates. Higher education is evolving into a caste system with separate and unequal tiers that take in students from different socio-economic backgrounds and leave them more unequal than when they first enrolled. Until the 1970s, the United States had a proud history of promoting higher education for its citizens. The Morrill Act, the G.I. Bill and Pell Grants enabled Americans from across the income spectrum to attend college and the nation led the world in the percentage of young adults with baccalaureate degrees. Yet since 1980, progress has stalled. Young adults from low to middle income families are not much more likely to graduate from college than four decades ago. When less advantaged students do attend, they are largely sequestered into inferior and often profit-driven institutions, from which many emerge without degrees—and shouldering crushing levels of debt. In *Degrees of Inequality*, acclaimed political scientist Suzanne Mettler explains why the system has gone so horribly wrong and why the American Dream is increasingly out of reach for so many. In her eye-opening account, she illuminates how political partisanship has overshadowed America ' s commitment to equal access to higher education. As politicians capitulate to corporate

interests, owners of for-profit colleges benefit, but for far too many students, higher education leaves them with little besides crippling student loan debt. Meanwhile, the nation ' s public universities have shifted the burden of rising costs onto students. In an era when a college degree is more linked than ever before to individual—and societal—well-being, these pressures conspire to make it increasingly difficult for students to stay in school long enough to graduate. By abandoning their commitment to students, politicians are imperiling our highest ideals as a nation. *Degrees of Inequality* offers an impassioned call to reform a higher education system that has come to exacerbate, rather than mitigate, socioeconomic inequality in America.
