Esmeralda Santiago's story begins in rural Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical sounds and sights as well as poverty. Growing up, she learned the proper way to eat a guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.

School counselors are often the only employees in school settings with any formal education in group work, and yet their training is typically a general course on how to run groups. Group Work in Schools provides an alternative training model; one that presents exactly what counselors need to know in order to successfully implement task-driven, psychoeducational, and counseling/psychotherapy groups in any educational setting. Additions to this newly updated second

edition include: discussion topics, activities, case examples, integrated CACREP standards and learning outcomes, as well as an overall update to reflect the most recent research and knowledge.

*Madrigal's Magic Key to Spanish* Ingram

Offers some theoretical innovations in teaching foreign languages and reports how they have been applied to curriculum development and experimental courses at the upper secondary and college levels. Approaches language learning as comprising several dimensions, including grammatical competence, change in attitudes, learning about another culture, and reflecting on one's own. It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.
