The soft crash of waves that blissfully block out all other noise, the smell of two-stroke and lawn clippings, the first sip of cold beer, the laboured whirl of the ceiling fan, the sound of a bag of ice hitting the pavement, that feeling of salt on skin and even the smell of prawns on bin night. Comedian Tim Ross uses the Australian Summer as a

back drop for a new collection of nostalgic short stories. The Master Lawn Mower Repair Book Shire Publications Age 2-6 Boys & Girls. This illustrated children's book is for all the little boys and girls that love lawn mowers. You'll encounter a riding mower, a push mower, an old-fashioned reel mower, and the most modern and colorful mower out there. In this delightful spin on a beloved classic, a little ball gets stuck in the tall grass. After asking several

lawn mowers to help the ball, a green electric mower agrees to help. Even though he is small and not the toughest model, the kind mower tries his best to cut his way through the thick grass to get to the little ball. Bits of facts about each type of lawn mower have been beautifully woven into the story, providing little gardening-tool enthusiasts with a story that lets their love for mowers come to life. Australia, a Cultural History Hodder Children's Books
First invented in 1830, the early lawn mower was hampered by the inadequacy of materials and machine tools available and its development and speed did not pick up until the introduction of chains and small lightweight petrol engines. This book traces the progress of the lawn mower from the early hand or animal powered mowers, through to steam, petrol and electric-powered modern machines.

A lost classic by
beloved novelist
Joseph Heywood
that helped put the
writer on the map,
THE BERKUT
begins at dusk as
SS Colonel Gunter
Brumm parachutes
silently through
the sulphuric haze
in the smoldering
ruins of Berlin,
past the Soviet
troops that encircle
the skeleton that
the city has
become in April
1945. With the
precision and skill
that has marked his
brilliant military
career, Brumm has
completed the first
stage of a simple
yet seemingly
impossible
mission: to evade

the Allied forces swarming over Europe and to smuggle "Herr Wolf," the greatest war criminal of the twentieth century, to safety. Less than twenty-four hours later a special Russian team snakes its way into Berlin's city limits, headed for the Reich Chancellery. It is led by Vasily Petrov, "the Berkut"—named after the Russian eagles trained to hunt wolves, a man handpicked by Stalin himself for his ability to track down his quarry and driven by the knowledge that failure means

certain death. THE BERKUT is a classic story of pursuit, of hunters and the hunted, that pits two elite teams against each other—both of them brave, resourceful, of great physical prowess and so fully motivated that only the winners will survive. Scores of other characters populate this engrossing thriller: priests, deserters, partisans, Nazis on the run, Swiss guides, Austrian refugees—as well as a larger-than-life OSS operative who is the only person among the hundreds of

thousands of Allied troops in Europe who realizes that Herr Wolf is not only alive but on the verge of escaping justice. Joseph Heywood's novel is a story of enormous conviction and urgency, made even more compelling for being based on facts that have yet to be proven fiction.

"Drawing on sources ranging from gardening books and magazines to statistics and oral history, Harvest of the suburbs challenges some widespread myths about food production in Australian cities,

and traces the reasons for its enduring popularity. It describes changing attitudes and techniques, and explores the relationship between food production and a range of contemporary ideas relating to work, social organisation, gender roles, health and the body, and nature. In doing so, it provides new insights into the tension between the quest for independence and the desire for interdependence in suburban

Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share

their own photos - and their stories. As the Naked Farmer movement grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also opened up about their struggles. This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response.
