tool designed to achieve proficiency at Latin in one year at the college level, two years at the high school or intermediate level. The volume provides students with imaginative, connected reading, beginning with introductory prose versions of Ovid's simple myth tales and progressing to the rich poetry of Ovidian Latin (with appropriate teaching aids) within forty lessons. The grammatical approach is traditional, but the central emphasis is on reading. In each chapter the reading appears first, followed by the vocabulary, the grammar, exercises, and etymology relating to the vocabulary. The exercises begin with a group of questions in Latin (based on the reading), to be answered in Latin. Each tale is preceded by a brief discussion in English of the story and its mythological significance. The myths retold by Ovid and the attractive format are conceived to impel the student into acquiring the skill to read the author in the original language. For additional complimentary materials on this topic, please see Latin Via Ovid Audio materials (available via downloadable flash drive and cassette tapes) by Norma Goldman and Jacob E. Nyenhuis and the accompanying text Practice, Practice: A Latin Via Ovid Workbook by Norma Goldman and Michael Rossi.

The Ballad of the White Horse is a poem by G. K. Chesterton about the idealized exploits of the Saxon King Alfred the Great. Written in ballad form, the work is usually considered one of the last great traditional epic poems ever written in the English language. The poem narrates how Alfred was able to defeat the invading Danes at the Battle of Ethandun under the auspices of God working through the agency of the Virgin Mary. In addition to being a narration of Alfred's military and political accomplishments, it is also considered a Catholic allegory. Chesterton incorporates a significant amount of philosophy into the basic structure of the story. Aeterna Press

Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share their own photos - and their stories. As the Naked Farmer movement grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also opened up about their struggles. This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response.
