"Space opera the way it ought to be . . . Bujold and Weber, bend the knee; interstellar adventure has a new king, and his name is Walter Jon Williams."—George R. R. Martin

Following *The Accidental War*, the second book of a brand-new series set in the Praxis—an epic mix of space opera and military science fiction, from a grand master of science fiction, Walter Jon Williams. *The Praxis*, the empire of now extinct Shaa, has again fallen into civil war, with desperate and outnumbered humans battling several alien species for survival. Leading the

human forces are star-crossed lovers Gareth Martinez and Caroline Sula, who must find a way to overcome their own thorny personal history to defeat the aliens and assure humanity 's survival. But even if the human fleet is victorious, the divisions fracturing the empire may be too wide to repair, as battles between politicians, the military, and

fanatics who want to kill every alien threaten to further tear the empire apart. While Martinez and Sula believe they have the talent and tactics to defeat an overwhelming enemy, what will prevent their fellow humans from destroying themselves? [The Lost Fleet: Corsair \(complete collection\)](#) Ace "Two Syndicate Worlds star systems have fallen prey to a mysterious fleet of warships, a

fleet controlled entirely by artificial intelligence that is now targeting Alliance space. The warships are no mystery to Geary. They were developed by his government to ensure security, but malfunctioned. If the Syndics learn the truth, the war with the Alliance will resume with a vengeance. As the government attempts to conceal the existence of the AI warships and its role in their creation, Geary pursues them, treading a fine

grow, Geary is ordered to take a small force to the border of Syndic space. But what he finds there is a danger much greater than anyone expected: a shrewd and powerful enemy that could finally force the Alliance to its knees.

The Lost Fleet: Fearless Baen Books Admiral Geary's First Fleet of the Alliance has survived the journey deep into unexplored interstellar space, a voyage that led to the discovery of new alien species, including a new enemy and a possible ally. Now Geary's mission is to ensure the safety of the Midway Star System, which has revolted

against the Syndicate Worlds empire—an empire that is on the brink of collapse. To complicate matters further, Geary also needs to return safely to Alliance space not only with representatives of the Dancers, an alien species, but also with *Invincible*, a captured warship that could possibly be the most valuable object in human history. Despite the

peace treaty that Geary must adhere to at all costs, the Syndicate Worlds regime threatens to make the fleet ' s journey back grueling and perilous. And even if Geary escorts Invincible and the Dancers ' representatives home unharmed, the Syndics ' attempts to spread dissent and political unrest may have already sown the seeds of the Alliance ' s destruction...

Storm from the Shadows Penguin A Gripping New Adventure by the Author of the Bestselling Crimson Worlds and Far Stars series...The Confederation has fought three wars against the forces of the totalitarian Union. Three generations of its warriors have gone off to war, held the line against the larger, more powerful enemy. Now the fourth conflict is imminent, and the Confederation's navy is on alert, positioned

behind the frontier, waiting for the attack it knows is coming. The battleship Dauntless has spent the past ten months patrolling the border, deployed far forward of the main fleet, a forlorn hope, an advance guard positioned to give the warning of invasion. But no attack has come. Her crew is exhausted, and the aging battleship needs maintenance. With the fleet mobilized and the forward bases overloaded beyond capacity,

The recently colonized world of Glenlyon has learned that

they're stronger when they stand with other star systems than they are on their own. But after helping their neighbor Kosatka against an invasion, Glenlyon has become a target. The aggressive star systems plan to neutralize Glenlyon before striking again. An attack is launched against Glenlyon's orbital facility with forces too powerful for fleet officer Rob Geary to counter using their sole remaining destroyer, Saber. Mele Darcy's Marines must repel repeated assaults while their hacker tries to get into the enemy systems to

give Saber a fighting chance. To survive, Glenlyon needs more firepower, and the only source for that is their neighbor Kosatka or other star systems that have so far remained neutral. But Kosatka is still battling the remnants of the invasion forces on its own world, and if it sends its only remaining warship to help will be left undefended against another invasion.
