**BEING UNOFFENDABLE IS A CHOICE** It's a provocative idea: We are not entitled to get offended or stay angry at other people. The idea of our own "righteous anger" is a myth. Instead, the Bible calls every follower of Christ to do something radical and countercultural: Let go of our anger and forgive. As it turns out, giving up our right to be offended is one of the most freeing, healthy, relaxing, refreshing, stress-relieving, and encouraging things we can do. It allows us to recognize that people are broken and stop being scandalized by their actions. It enables us to accept people and stop judging them. It creates a way for us to not just love others but to actually like them. In this six-session Bible study, based on the bestselling book of the same name, Brant Hansen shares practical ways to live life with less stress and more care by becoming unoffendable. In his highly entertaining style, he seeks to lift the religious burdens from our backs and allow us to experience the joy of gratitude every day of our lives—flourishing the way God intended. God sees you in every situation in life. In the Bible, we read that Hagar gave God the name El Roi, "the God who sees," when she recognized that the Lord had seen her in her plight. In our lives, we often wonder if God sees us when trials feel endless, or problems resurface, or once-defeated illnesses return again to impact us. These moments make us question if God sees us and if he truly cares. In this six-session video Bible study, Kathie Lee Gifford and Joanne Moody delve into the lives of five people in the Bible who, like us, wondered if God saw them in their distress. Through the stories of Hagar, Ruth, Boaz, David, and Mary of Magdala, you will discover that even in the darkest times, God constantly watches over you. He has promised to never abandon you, and he empowers you to fulfill the purpose that he has for your life. Each session includes clips from *The Way* oratorios, featuring Kathie Lee Gifford and other well-known personalities, that bring the story of Scripture to life with contemporary orchestral arrangements, powerful narration, and stunning visuals. Using vendor licensing and fair use guidelines, library collections can contain thousands of online videos either purchased or through in-house digitization. In this book, the authors share their knowledge developed in building and maintaining a streaming video collection. Highlights include key information and tips, as well as recommended best practices, for the licensing and acquisitions processes, providing access, promoting the collection, and evaluating the library and vendor collections. The authors cover the options for acquiring streaming video titles and options for hosting videos. The book is structured with an introduction, a chapter on each key process with subsections on specific aspects of those processes, and finally with a concluding chapter which looks at the future of streaming video collections for libraries. *Creating a Streaming Video Collection for Your Library* will serve as a key reference and source of best practices for libraries adding streaming video titles to their collections or for any library that is already offering streaming video. Since this is a relatively new area of collection development, this book will help libraries and video vendors establish consistent guidelines, licensing models and workflows.
