This study explains why the Big Bang was intelligently controlled and the most exquisitely designed phenomena science has ever discovered. How the latest scientific discoveries can shed light on some theological questions, such as: how can God hear an answer the prayers of billions of people all at the same time? Why we cannot understand the Trinity. And how Jesus can pay for everybody's sin in just a few hours

while on the cross?

### The Book of Isaiah HarperChristian Resources

A comprehensive study guide that will help you minister according to Jesus' pattern. Jesus made it perfectly clear that the servant of God has been called to live by different rules than the children of the world. That is why some have deemed the church, 'the upside-down kingdom.' Jesus said that, "Whosoever would be first among you, shall be servant of all." (Mark 10:44) Servanthood is not a dirty word. Rather, in it, is reflected the

heart of God, and the mission of heaven. To serve others, is to serve God. To give up the best part of yourself, for the betterment of your neighbor, is truly to have Christ revealed through you. One of the most potent, and life-changing images of Christ, in the entire Bible, is a picture of Jesus, with towel wrapped around his waste, washing the feet of his disciples. Contrast that with the attitude of the James and John's mother, concerning the proper placement of her sons, "Then the mother of Zebedee's sons came to Jesus with her sons. She bowed down in front of him to ask him for a favor. He asked her, "What do you want?" She said to him, "Promise that these two sons of mine will sit, one at your right and one at your left, in your kingdom." Nobody likes that kind of attitude in fellow laborers, do they? Somehow, it is grating to us. The reason it irritates us so badly, is probably because it is so diametrically opposite to the role

Jesus models for us. In these verses, we find Jesus' own attitude toward Servanthood revealed. Not only does He appreciate hard working people, but our Lord - the God of heaven - actually embraces Servanthood in a real and personal way: so much so, in fact, that He forever links Himself, and His purpose for coming to earth, with it. In all that we do, as servant-leaders for Christ, we are called to serve well. Practical Ministry - Study Guide, will give you a clear, easy-to-follow roadmap for successful leadership.

(9780310096924), sold separately. A New History of a Lost World Brooks/Cole Publishing Company An exhilarating, time-traveling journey to the solar system's strangest and most awe-inspiring volcanoes. Volcanoes are capable of acts of pyrotechnical prowess verging on magic: they spout black magma more fluid than water, create shimmering cities of glass at the bottom of the ocean and frozen lakes of lava on the moon, and can even tip entire planets over. Between lava that melts and re-forms the landscape, and noxious volcanic gases that poison the atmosphere, volcanoes have threatened life on Earth countless times in our planet's history. Yet despite their reputation for destruction, volcanoes are inseparable from the creation of our planet. A lively and utterly fascinating guide to these geologic wonders, Super Volcanoes revels in the incomparable power of volcanic eruptions past and present, Earthbound and otherwise—and recounts the daring and sometimes death-defying careers of the scientists who study them.

Science journalist and volcanologist Robin George Andrews explores how these eruptions reveal secrets about the worlds to which they belong, describing the stunning ways in which volcanoes can sculpt the sea, land, and sky, and even influence the machinery that makes or breaks the existence of life. Walking us through the mechanics of some of the most infamous eruptions on Earth, Andrews outlines what we know about how volcanoes form, erupt, and evolve, as well as what scientists are still trying to puzzle out. How can we better predict when a deadly eruption will occur—and protect communities in the danger zone? Is Earth's system of plate tectonics, unique in the solar system, the best way to forge a planet that supports life? And if life can survive and even thrive in Earth's extreme volcanic environments—superhot, superacidic, and supersaline surroundings previously thought to be completely inhospitable—where else in the universe might we find it? Traveling from Hawai'i, Yellowstone, Tanzania, and the ocean floor to the moon, Venus, and Mars, Andrews

Geology and the Environment HarperChristian Resources Laura Story's life took an unexpected turn when her husband, Martin, was diagnosed with a brain tumor. The devastating news forever changed their lives and brought Laura's dreams of a fairy-tale life to an end. Yet her struggles to accept her new situation also brought her deeper joy and intimacy with God as she allowed him to rewrite her story. In this five-session curriculum (DVD/digital video sold separately), Laura examines the twists and turns that took place not only in her own life but also in the lives of many of the heroes of the faith. She reveals how God used crises in the lives of people such as Abraham, Sarah, David, and Paul to bring them closer to him and set them on the path he wanted them to take. She also shows how God used each of these individuals in spite of their flaws and brokenness. God may not fix everything in our lives. In fact, our

In this five-session video Bible study (DVD/download sold separately), bestselling author Bob Goff shares some of the stories from his life that have helped him understand what it truly means to love everybody the way Jesus loved them – without fear, insecurity, or restriction. This begins by loving people right where you are through serving and helping the neighbors God has placed into your world. It means loving people when they mess up and helping them move past the place of shame to acceptance. It continues by being courageous and following where God leads one step at a time – even if you feel you are flying blind. Above all, it means not just agreeing with Jesus but actually stepping out and doing what Jesus said. Following Christ means more than just putting a toe in the water when it comes to loving others. It means grabbing your knees and doing a cannonball! And, as Jesus revealed, it means loving the difficult ones. Everybody, Always will provide practical steps to help you take that journey. The Everybody, Always

PHYSICAL GEOLOGY: EXPLORING THE EARTH, Sixth Edition, doesn't just explain physical geology and its processes; it places that knowledge within the context of human experience by consistently emphasizing relevance, resources, and the environment. With this edition, the authors seek to answer two central questions, "How does the planet work?" and "Why is this important to know?" By discussing the unifying theory of plate tectonics in detail early in the text, the authors are able to link diverse material by this common thread, providing a global perspective of Earth and allowing students to recognize seemingly unrelated geologic phenomena as a continuum of interrelated events within a complete planetary system. In addition to providing students with an

---

understanding of geology and its processes, the authors consistently demonstrate how geology relates to the human experience. By asking the question "What would you do?" throughout the text, students are encouraged to explore their reactions to particular situations. New "Geology in Your Life" sections address relevant student concerns, particularly in the areas of environment and energy. And a new penultimate chapter on Resources and the Fate of the Earth ties together many of the concepts of particular interest to students. This edition is fully integrated with the online student tutorial system Physical GeologyNow?. Physical GeologyNow uses a series of chapter-specific diagnostic tests to build a personalized learning plan for each student, allowing students to focus their study time on specific areas of weaknesses. Each personalized learning plan directs students to specific chapter sections and concept-driven multimedia tutorials designed to augment their understanding.
