If you know nothing about game development, you're basically me before I started working on my first game DARQ. This book assumes no knowledge of game development on the reader's part. As a first-time developer with no prior experience in coding, modeling, texturing, animation, game design, etc., I managed to launch DARQ to both commercial success and critical acclaim. With zero dollars spent on marketing, it

was featured in major media outlets, such as IGN, Kotaku, PC Gamer, GameSpot, Forbes, and hundreds of others. Ultimately, DARQ became #42 Most Shared PC Video Game of 2019, according to Metacritic, with the average user rating of 9 out of 10. In my book, I'm sharing with you exactly how I did it. The book guides you through a step-by-step process of making a game: from downloading a game engine to releasing your first commercial

title. The book features advice from 15 industry professionals, including Mark Kern (team lead of World of Warcraft), Quentin De Beukelaer (game designer of Assassin's Creed IV: Black Flag, Assassin's Creed Unity, Ghost Recon Breakpoint), Bjorn Jacobsen (sound designer of Cyberpunk 2077, Divinity: Fallen Heroes, Hitman), Austin Wintory (Grammy-nominated composer of Journey, ABZÛ, Assassin's Creed: Syndicate), and others.

The foreword is written by my mentor John Corigliano, Oscar, Pulitzer Prize, and 5-time Grammy Award-winning composer. [Textbook of Female Sexual Function and Dysfunction](#) Oxford University Press Casper ter Kuile, a Harvard Divinity School fellow and cohost of the popular Harry Potter and the Sacred Text podcast, explores how we can nourish our souls by transforming common, everyday practices—yoga, reading, walking the

dog—into sacred rituals that can heal our crisis of social isolation and struggle to find purpose—message we need more than ever for our spiritual and emotional well-being in the age of COVID-19. “After half a decade of research and hundreds of conversations with people around the country, I am convinced we are in the midst of a paradigm shift. That what used to hold us in community no longer works, and that the spiritual offerings of yesteryear no longer help us thrive.” –Casper ter Kuile

What do Soul Cycle, gratitude journals, and tech breaks have in common? For ter Kuile they offer rituals that create the foundation for our modern spiritual lives. We are in crisis today. Our modern technological society has left too many of us—no matter our ages—feeling isolated and bereft of purpose. Previous frameworks for building community and finding meaning no longer support us. Yet ter Kuile reveals a hopeful new message: we might not be religious, but that doesn’t mean we are any less spiritual. Instead, we are in the midst of a paradigm shift in which we seek belonging and meaning in secular practices. Today, we find connection in: CrossFit and SoulCycle, which offer a sense of belonging rooted in accountability and support much like church groups Harry Potter and other beloved books that offer universal lessons Gratitude journals, which have replaced traditional

prayer Tech breaks, which provide mindful moments of calm In *The Power of Ritual*, ter Kuile invites us to deepen these ordinary practices as intentional rituals that nurture connection and wellbeing. With wisdom and endearing wit, ter Kuile ' s call for ritual is ultimately a call to heal our loss of connection to ourselves, to others, and to our spiritual identities. *The Power of Ritual* reminds us that what we already do every day matters—and has the

potential to become a powerful experience of reflection, sanctuary, and meaning.
