Managing Television News provides a practical introduction to the television news producer, one of the most significant and influential roles in a newscast. Recognizing the need for formal training in this key role, authors B. William Silcock, Don Heider, and Mary T. Rogus have combined their expertise and experience to shape this essential resource on the responsibilities, demands, and rewards of the news producer position. Their book provides a strategic approach to producing newscasts and serves as an in-depth guide to creating quality, audience-friendly newscasts working within the realistic limitations of most newsrooms. It helps the student and the professional producer sort through the various deadline-driven challenges

---

of creating a 30-minute newscast. Filled with real-world examples and advice from news directors, producers, and anchors currently in the business, and photographs illustrating the varied perspectives in the position, *Managing Television News* provides critical skill sets to help resolve ethical dilemmas, as well as keen and fresh insights on how to win the ratings without compromising news quality. Career concerns are also addressed. This resource is a pioneering book for the professional television newsroom and the individual reader interested in starting or expanding a producing career. It is an excellent text for the college classroom, as its structure fits neatly into a semester schedule, and it is a must-have resource for both seasoned and novice producers, as well as students in broadcast news.

This study centers on the question: how do

particular readers read a biblical passage? What factors govern each reading? DeLapp here attempts to set up a test case for observing how both socio-historical and textual factors play a part in how a person reads a biblical text. Using a reception-historical methodology, he surveys five Reformed authors and their readings of the David and Saul story (primarily 1 Sam 24 and 26). From this survey two interrelated phenomena emerge. First, all the authors find in David an ideal model for civic praxis—a “Davidic social imaginary” (Charles Taylor). Second, despite this primary agreement, the authors display two different reading trajectories when discussing David's relationship with Saul. Some read the story as showing a persecuted exile, who refuses to offer active resistance against a tyrannical monarch. Others read the story as exemplifying active defensive resistance against a tyrant. To account for this convergence and divergence in the readings, DeLapp argues for a two-fold conclusion. The authors are influenced both by their socio-

---

historical contexts and by the shape of the biblical text itself. Given a Deuteronomic frame conducive to the social imaginary, the paradigmatic narratives of 1 Sam 24 and 26 offer a narrative gap never resolved. The story never makes explicit to the reader what David is doing in the wilderness in relation to King Saul. As a result, the authors fill in the “ gap ” in ways that accord with their own socio-historical experiences.

A Manual to Accompany The Study Reader for the Third Year Rowman & Littlefield

This Guide for the Perplexed will demonstrate how modern biblical scholars have expressed dissatisfaction with a one-sided historical-critical approach to biblical texts and have argued that developments in secular literary theory should be applied in biblical studies. Whereas the historical-critical approach was concerned with the moment of a text's production (authorship, date, place of writing etc), the literary approach is

concerned with the moment of the text's reception. Eryl W. Davies shows how and why approaches such as 'reader-response criticism', 'feminist criticism', 'ideological criticism', 'canonical criticism' and 'post-colonial criticism' are now becoming more popular in many quarters. The volume explains to the uninitiated in a readable and accessible form how strategies originally derived from secular literary criticism have been adopted by biblical scholars in order to understand the text of Scripture and to appreciate its relevance. When it was first published twenty years  
ago, The Bedford Guide for College  
Writers brought a lively and innovative  
new approach to the teaching of writing.  
Since that time, authors X. J. and Dorothy  
M. Kennedy have won praise for their  
friendly tone and their view, apparent on  
every page of the text, that writing is the  
"usually surprising, often rewarding art of  
thinking while working with language."  
More recently, experienced teacher and  
writer Marcia F. Muth joined the author  
team, adding more practical advice to help

all students — even those underprepared for college work — become successful academic writers. While retaining the highly praised "Kennedy touch," The Bedford Guide continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills, with expanded coverage of audience analysis, source-based writing, argumentation and reasoning, and more.
