Stressfire Createspace Independent Publishing Platform

Starting with the basics, this guide leads the reader through the process of reloading with ease. Perfect for beginners and a great refresher for experienced reloaders, the book first discusses all the necessary tools and accessories needed to get started, then goes through step-by-step instructions and safety tips for loading your own metallic cartridges and shotshells. Helpful illustrations guide readers through each step and make the process easy to understand. The ABC's of Reloading covers all aspects of the hobby, from benchrest loading techniques, to ballistic software, to competition and hunting loads and more. It also includes a comprehensive directory of reloading manufacturers. The guide carefully pieces together steps and techniques for reloading into an understandable process, outlining the basic procedures and providing information on cartridge cases, primers, powders, bullets, equipment and much more, putting beginners on the road to becoming experts! -

Modern Advancements in Long Range Shooting Nosler Inc

The entirely updated and revised *Ammo & Ballistics 6* is now available and is better than ever! *Ammo & Ballistics 6* contains data and illustrations on virtually every sporting cartridge sold in the USA. Besides clear and concise writing that clarifies the complexities of ballistic coefficients and energy versus momentum, this revised edition covers 200-plus calibers . . . from the .17 Mach 2 to the .700 Nitro Express. It contains information on rifle and handgun calibers, and it covers manufacturers, bullet weights, types, and construction. In addition, each caliber has an exact technical drawing with all dimensions and angles. There are over 3,000 tables with ballistic data for every caliber and every load for all commercially loaded hunting ammunition sold in the United States. Tables include velocity, energy, wind drift, bullet drop, and ballistic coefficients up to 1,000 yards. Manufacturers include A-Square, Aguila, ATK, Black Hills, CCI/Speer, Cor-Bon Bullet, Dakota Arms, Eley Ltd., Federal Cartridge, Fiocchi, Hirtenberger, Hornady, Patria Lapua Oy, Lazzeroni, Kynoch (Kynamco Ltd.), MagTech, Norma, Nosler, Inc., PMC (Eldorado

Cartridge Corp.), Remington, Dynamit (Nobel-RWS Inc.), Sellier and Bellot, Ultramax, Weatherby, and Winchester. If you want to know where you will be hitting at long distances, this is the book for you. This book is, quite literally, indispensable for the hunter or shooter.

Propellant Profiles Z-Hat Publishing

The Classic Reference - Bigger and Better than Ever One of the most respected reloading texts of all time, Reloading for Shotgunners is now bigger, more comprehensive and more profusely illustrated than ever! This all-new fifth edition includes exhaustive data for lead and non-toxic shot - and it goes well beyond the ho-hum 2-3/4" 12-gauge data contained in other books. From .410 bored to 10-gauge magnum, from 2" hulls to the mammoth 3-1/2", if it can be fired in a shotgun, it's in this book! Rick Sapp, co-author of The Gun Digest Book of Trap & Skeet, has outdone himself in creating this masterful compilation of shotgun reloading data. Whether you're a novice shotgunner or a seasoned reloader, you can't afford to be without this ground-breaking fifth edition of Reloading for Shotgunners.

Propellant Profiles 4D Reamer Rentals Limited

Zeglin has gathered years of pressure testing and shooting into a manual format that makes it easy for any reloader to form and fire Hawk Cartridge. This collection of data includes some new material and new cartridges in the Hawk line-up. There is no other resource for Hawk Cartridges that meets the needs of wildcatters, reloaders, and shooters everywhere.

A Bad Case of Capitalism Schiffer Publishing

Combining over fifty years of reloading knowledge to introduce the reader to reloading, metallic cartridge cases, types of gunpowder, primers, loading tools, bullets and ballistics -- valuable information for all levels of skill and a must for every reloader's library.

The M1 Garand John Wiley & Sons

This book can save your life! The best defense for any scenario is to be prepared. The Gun Digest Book of Combat Handgunnery prepares you for potential life-threatening situations with practical instruction and expert guidance. Author Massad Ayoob teaches you the skills to keep you and your family safe in any violent encounter, including: Selecting the right pistol, ammunition and holster How to use and accessorize your handgun Close-quarter battle techniques used by law enforcement and the U.S. military In addition to the tactical aspects of self-defense, Ayoob also covers practical information about selecting a used handgun and the legal aspects of self-defense with a firearm. Firearms technology and tactics change throughout the years, which is why the updated 6th edition of The Gun Digest Book of Combat Handgunnery is essential to the well-being of you and your family. Remember, your best defense is to be prepared.

Hawk Cartridges Reloading Manual Krause Publications

A basic understanding of headspace and how it affects the proper operation of a firearm are necessary if you wish to call yourself a gunsmith. Otherwise all you will be able to do is change parts with the hope that somehow the problem will go away. The later is normally called an armorer, not a gunsmith. This booklet contains all the information a gunsmith needs in order to understand and diagnose headspace.

Nosler Reloading Guide 7 Krause Publications Incorporated

Looking for a resource to improve your rifle shooting? The Practical Shooter's Guide contains information to help you solve different problems to take your shooting to the next level. Whether you are preparing for your first precision rifle match or hunting in the mountains, this guidebook has something for you. The Practical Shooter's Guide is a booklet illustrating various approaches to obstacles encountered in rifle shooting. Upon completion of this guide and through consistent application of the concepts, competitive/recreational shooters and hunters should have a "toolbox" of positional knowledge they can pull from to overcome a wide range of obstacles.

When Summer Ends Gun Digest Books

This thirteenth volume in the series covering the latest results in the field includes abstracts of papers which have appeared since the publication of Annual Retrospective XII (Volumes 303-304). As well as

the over 300 semiconductor-related abstracts, the issue includes the original papers: "Effect of KCl Addition upon the Photocatalytic Activity of Zinc Sulphide" (D.Vaya, A.Jain, S.Lodha, V.K.Sharma, S.C.Ameta), "Localized Vibrational Mode in Manganese-Doped Zinc Sulphide and Cadmium Sulphide Nanoparticles" (M.Ragam, N.Sankar, K.Ramachandran), "The Effect of a Light Impurity on the Electronic Structure of Dislocations in NiAl" (L.Chen, Z.Qiu), "Analysis of Finite Element Discretisation Schemes for Multi-Phase Darcy Flow" (D.P.Adhikary, A.H.Wilkins), "Theoretical Investigations of the Defect Structure for Ni³⁺ in ZnO" (Z.H.Zhang, S.Y.Wu, S.X.Zhang).

The Competitive AR15 Vihtavuori Reloading Manual Handbook of Firearms and Ballistics

This lecture attempts to tell stories through music and about music, and about the music of several cultures and times, about its effect on human experience, about the instruments and their makers in order to try and connect the present time with some of music's own roots, a cause for much reflection on the part of the lecturer.

U.S. Rifle, Caliber .30, M1 Dbi Books

Nowhere are the big guns covered in more detail. Before Sgt. First Class Dean Michaelis (Ret.) wrote the book on sniping, he wrote a first-of-its-kind program of instruction for the Special Operations Target Interdiction Course. A member of the 1st Special Forces Group, he taught students everything they needed to know to succeed and survive. Now he brings that information to you, covering every aspect of the sniper's art: the history, equipment, skills and missions. He also includes reproducible forms, a military-issue .50-caliber cartridge tip color guide and his exclusive Program of Instruction for Special Operations Hard-Target Interdiction Course. An invaluable resource for military and civilian shooters alike.

The Gun Digest Book of Deer Guns Trans Tech Publications Ltd

The Reloader's Handbook of Wildcat Cartridge Design is a must have for all shooters regardless of their experience. For the hunter with one gun or collector with many, you will find valuable information on accuracy, designing, building, loading and shooting wildcats. Calibers start with the tiny .10 ranging to some brawny .50 calibers; there is something for every interest. Self-reliant shooters and gunsmiths will learn how to make their own reamers and reloading dies in this book. If you desire to try out a new cartridge design you can be testing the new design in a day or two instead of weeks or months. Dimensioned drawings and loading data accompany cartridge descriptions. Historical cartridges as well as the newest and most popular designs are included. Chapters about important cartridge designers like P.O. Ackley, Jerry Gebby, Rocky Gibbs, and Charles Newton are important resources for the reloader and shooter alike. "It's a rare technical treatise that draws you in with illustration, or that keeps you with an easy flow of chat that, were it lifted from print, might pop up at any gun counter or handloading bench. Wayne van Zwoell" For anyone interested in wildcat cartridges, this is a "must have" book. It's thorough, and it's up to date." Larry S. Sterett, Gun Week "One of the problems collectors often encounter when they purchase custom-made sporting rifles is the absence of commercially made ammunition for those arms... This book offers hope to just those collectors. Written by a professional gunsmith and cartridge maker, it examines the history of "wildcat cartridge" development. In addition to discussing vintage designs, such as those developed by P.O. Ackley, Jerry Gebby, and Charles Newton, the book covers more recent work carried out by Estergaard, Gibbs, Z-Hat, and more." Herbert G. Houze, Man at Arms Magazine, Vol. 28, No. 4, 2006 "This is a fantastic book on American wildcats, US loads and much more. A must have for wildcatters and gunsmiths." Big Bore Journal, No. 18, June 2006

Iver Johnson's Arms & Cycle Works Firearms 1871-1993 Krause Publications

The most authoritative work on paper patched bullets. The current resurgence of single-shot and black-powder rifles creates a need for up-to-date and accurate information about paper patched bullets. This book presents today's most thorough, fully illustrated source of information for those who enjoy a taste of the past.

Catalina Collections and Recollections

Metallic Cartridge Handloading covers all aspects of the reloading process: cartridge case; maintaining, improving and loading the case; seating and reading of primers; loading of propellant; bullets and loading of bullets; accurate load development; internal & external ballistics; bullet making & casting; and handloading press. This is not a reloading manual containing specific recipes for various loads; it is a how-to book that covers the entire detailed process of cartridge reloading.

Unintended Consequences

Target shooting.
