As an entrepreneur and racecar driver, Tom Panaggio has learned that you cannot avoid risk if you want to be a winner. In *The Risk Advantage*, Panaggio tells the story of how he and his business partners built two thriving companies: Direct Mail Express (which now employs more than 400 people and is a leading direct marketing company) and Response Mail Express (which was eventually sold to equity fund Huron Capital Partners). The book is designed as a guide for those who are contemplating an entrepreneurial pursuit, are already engaged in building a business, or are currently working for someone else and want to inject their entrepreneurial ideas and attitude. With *The Risk Advantage*, Panaggio aims to help entrepreneurs face the many situations, predicaments, and crises they'll encounter during their lives as well as to help them formulate their leadership style and business strategy. *The Risk Advantage* is a story about an entrepreneurial journey that explores the relationship between opportunity and risk, two important forces that are necessary for success. Panaggio teaches that the unexpected edge for entrepreneurial success starts with identifying a worthy risk and then having the courage to take it. In his book, he identifies those risks based on what he's experienced along his own journey. Opportunities are always there for you to grab. If you want to realize a dream, accomplish a daunting goal, or simply start your own business, you must be willing to embrace risk. Learning the lessons of *The Risk Advantage* is an important first step to do just that.

"Olmsted opens a window into a psychologically compelling world of passion and purpose." —Harvey Araton, author of *Our Last Season: A Writer, a Fan, a Friendship* Larry Olmsted's writing and research have been called

"eye-opening" (People), "impressive" (Publishers Weekly, starred review), and "enlightening" (Kirkus Reviews). Now, the New York Times and Washington Post bestselling author turns his expertise to a subject that has never been fully explored, delivering a highly entertaining game changer that uses brand-new research to show us why being a sports fan is good for us individually and is a force for positive change in society. Fans is a passionate reminder of how games, teams, and the communities dedicated to them are vital to our lives. Citing fascinating new studies on sports fandom, Larry Olmsted makes the case that the more you identify with a sports team, the better your social, psychological, and physical health is; the more meaningful your relationships are; and the more connected and happier you are. Fans maintain better cognitive processing as their gray matter ages; they have better language skills; and college students who follow sports have higher GPAs, better graduation rates, and higher incomes after graduating. And there's more: On a societal level, sports help us heal after tragedies, providing community and hope when we need it most. Fans is the perfect gift for anyone who loves sports or anyone who loves someone who loves sports.

This original collection demonstrates the importance of sporting practices, spaces and leisure affiliations to understanding issues around identity, (post-) migration, diaspora and transnationalism for global South Asian populations. The chapters provide a critical (re-) examination of the roles that sport plays within and in relation to South Asian groups in the diaspora, and raises a series of pertinent questions regarding the multifarious relationships between sport and South Asianness. The chapters range across a wide variety of disciplines, regions, sports and identifications. They are in conversation with each other while showing the particularity of each diasporic context and relationship to sport. The book encompasses a number of global contexts from the "homeland" (India, Pakistan, Afghanistan) to the diaspora (Fiji, Norway, the US, the UK), and addresses a broad range of sporting contexts, including basketball, boxing, cricket, cycling, field hockey, soccer and golf. The chapters combine a range of qualitative methods, including ethnography, auto-ethnography, participant observation, memoir, interview and textual analysis (film, television and print media). This collection comprises the latest cutting edge research in the field, and will be essential reading for scholars and students both of sport and South Asian diasporas. This book was published as a special issue of *South Asian Popular Culture*.

How far would you go to escape fate? In this prequel to the international bestselling WICKED LOVELY series (over a million copies sold), the Faery Courts collide a century before the mortals in *Wicked Lovely* are born. Thelma Foy, a jeweler with the Second Sight in iron-bedecked 1890s New Orleans, can see through the glammers faeries wear to hide themselves from mortals, but if her secret were revealed, the fey would steal her eyes, her life, or her freedom. But when the Dark King, Irial, rescues her, Tam must confront everything she thought she knew about faeries, men, and love. Unbeknownst to Tam, she is the prize in a centuries-old fight between Summer Court and Winter Court. To protect her, Irial must risk a war he can't win--or surrender the first mortal woman he's loved. "What a delight to discover how much I loved being back in the *Wicked Lovely* world, discovering details about beloved characters that made me want to race back for a series reread. This is Irial's story set in 1890s New Orleans, brimming with faerie court drama and steamy romance. Can we. and should we, outrun fate? And if so, are we prepared for the consequences? I could not put it down." --Angela Mann, *Kepler's Books*, Menlo Park CA "Set 100 years before the events in *Wicked Lovely*, *Cold Iron Heart* finds Irial, the king of the Dark Court, in New Orleans and entranced by a mortal. Is his interest in Thelma Foy just a passing fascination, or could it change the course of her life and the world forever? Melissa Marr masterfully rises to challenge of writing a prequel by both expanding on the mythology of the original series while telling a story that exists wholly on its own. Fans of the series will inhale this delicious glimpse into Irial's past."--John McDougall

This beautifully designed and illustrated monograph sets out Patrick Tighe's innovative, diverse and wide-ranging collection of contemporary work towards the post-digital, showing the reader a hyper-detailed analytical investigation of digital forms and their practices. It sets out how his architecture has brought a return to the real in an attempt to rethink the language and practice of architecture. The book's many inspiring and intricate drawings render clear the ideas that show the palpable energy and momentum that exists in this practice. In every instance, this firm embraces dichotomy, mining its potential to produce a more vital and consequential architecture. The book's stunning imagery and nuanced narratives tell the story of Tighe's architecture across 35 projects spanning across the globe, to help establish how his work draws from and builds upon existing polarities to find resolution, and how tensions yield a more dynamic architecture. The work is multiple and varied: from the small-scale residential to the urban scale, from the United States to Europe to China to North Africa, from high-end villas for royalty to art installations to social housing projects. This compelling collection of work follows the following five key themes: CRAFT (from the manufactured to the technological); MATERIAL (from the natural to the synthetic); EXPERIENCE (from the actual to the perceptual); GEOMETRY (from the simple to the complex); and METHOD (from the analog to the digital). This distinguished monograph also includes an incisive introduction by Patrick Tighe and is augmented by two essays by Thom Mayne and Stephen Phillips, who also provide clarity and insightful discourse on how Tighe's work is continuously in transition and evolving, and how he's rethinking and engaging in a discourse to defamiliarize the familiar.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother;

---

Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

With its fun, conversational tone and funky maps, infographics, and illustrations, *How to Drink Wine* is a brand-new kind of wine resource. Instead of drilling down into the nitty-gritty details of one specific region or varietal, it gives a digestible overview for anyone who's looking to learn the basics or up their wine game. Award-winning sommelier Grant Reynolds and The Infatuation co-founder and CEO Chris Stang help boost your wine confidence in the most unpretentious way with information on navigating the store, dissecting a label, tasting in public without looking like a jerk, building your vocab (hello, "tannins" and "cuvee"), pairing your wine with social situations (think brunch, beach days, and pizza nights). They walk you through how to figure out exactly what you like to drink, framing it through the lens of the most widely accessible types--for instance, if pinot noir is your usual jam, try a bottle from Beaujolais next time. With this book, a wine key, and just one kind of glass (really!), you're sure to become the resident wine expert--or at least be able to fake it really well.
