precursors of radio broadcasting--the "Telephone Herald" in New York and the "Telefon Hirmondo" of Hungary--and the conflict between the technological development of broadcasting and the attempt to impose a homogenous, ethnocentric variant of Anglo-Saxon culture on the public. "A truly exceptional book."—Washington Post
There's bad news and good news about the Cutter High School swim team. The bad news is that they don't have a pool. The good news is that only one of them can swim anyway.

Bestselling author Chris Crutcher's controversial and acclaimed novel follows a group of outcasts as they take on inequality and injustice in their high school. "Crutcher's superior gifts as a storyteller and his background as a working therapist combine to make magic in *Whale Talk*. The thread of truth in his fiction reminds us that heroes can come in any shape, color, ability or size, and friendship can bridge nearly any divide."—Washington Post
T.J. Jones hates the blatant preferential treatment jocks receive at his high school, and the reverence paid to the varsity lettermen. When he

sees a member of the wrestling team threatening an underclassman, T.J. decides he's had enough. He recruits some of the biggest misfits at Cutter High to form a swim team. They may not have very much talent, but the All-Night Mermen prove to be way more than T.J. anticipated. As the unlikely athletes move closer to their goal, these new friends might learn that the journey is worth more than the reward. For fans of Andrew Smith and Marieke Nijkamp. "Crutcher offers an unusual yet resonant mixture of black comedy and tragedy that lays bare the superficiality of the high-school scene.

The book's shocking climax will force readers to re-examine their own values and may cause them to alter their perception of individuals pegged as 'losers.'"—Publishers Weekly An American Library Association Best Book for Young Adults New York Public Library Books for the Teen Age Features a new afterword by Chris Crutcher Metropolitan Books Rubina has been invited to her first birthday party, and her mother, Ami, insists that she bring her little sister along. Creole family, Lalita Tademy chronicles four generations of strong, determined black women as they battle injustice to unite their family and forge success on their own terms. They are women whose lives begin in slavery, who weather the Civil War, and who grapple with contradictions of emancipation, Jim Crow, and the pre-Civil Rights South. As she peels back layers of racial and cultural attitudes, Tademy paints a remarkable picture of rural Louisiana and the resilient spirit of one unforgettable family. There is Elisabeth, who bears both a proud legacy and the yoke of bondage... her

youngest daughter, Suzette, who is the first to discover the promise-and heartbreak-of freedom... Suzette's strong-willed daughter Philomene, who uses a determination born of tragedy to reunite her family and gain unheard-of economic independence... and Emily, Philomene's spirited daughter, who fights to secure her children's just due and preserve their dignity and future. Meticulously researched and beautifully written, *Cane River* presents a slice of American history never before seen in such piercing and personal detail.

A masterpiece of linguistics

scholarship, at once erudite and entertaining, confronts the thorny question of how—and whether—culture shapes

language and language, culture

Linguistics has long shied away from claiming any link between a language and the culture of its speakers: too much simplistic (even bigoted) chatter about the romance of Italian and the goose-stepping

<p>orderliness of German has made serious thinkers wary of the entire subject. But now, acclaimed linguist Guy Deutscher has dared to reopen the issue. Can culture influence language—and vice versa? Can different languages lead their speakers to different thoughts? Could our experience of the world depend on whether our language has a word for "blue"? Challenging the consensus that the fundamentals of language are</p>	<p>hard-wired in our genes and thus universal, Deutscher argues that the answer to all these questions is—yes. In thrilling fashion, he takes us from Homer to Darwin, from Yale to the Amazon, from how to name the rainbow to why Russian water—a "she"—becomes a "he" once you dip a tea bag into her, demonstrating that language does in fact reflect culture in ways that are anything but trivial. Audacious,</p>	<p>delightful, and field-changing, Through the Language Glass is a classic of intellectual discovery. <u>Just Fly Away</u> Pickle Partners Publishing From Sharon Creech, the Newbery Medal winning author of <u>Walk Two Moons</u>, comes a heartwarming adventure about finding family, and a home, when you least expect it.
