GOOD MORNING AMERICA BOOK CLUB PICK! A riveting page-turner about a Black classical musician's

desperate quest to recover his lost family heirloom violin on the eve of the most prestigious musical competition in the world. "This novel, which will keep readers on the edge of their seats until the very last page, is sure to be a favorite in 2022." —The Washington Post Growing up Black in rural North Carolina, Ray McMillian's life is already mapped out. If he's lucky, he'll get a job at the hospital cafeteria. If he's extra lucky, he'll earn more than minimum wage. But Ray has a gift and a dream—he's determined to become a world-class professional violinist, and nothing will stand in his way. Not his mother, who wants him to stop making such a racket; not the fact that he can't afford a violin suitable to his talents; not even the racism inherent in the world of classical music. When he discovers that his great-great-grandfather's beat-up old fiddle is actually a priceless Stradivarius, all his dreams suddenly seem within reach. Together, Ray and his violin take the world by storm. But on the eve of the renowned and cutthroat Tchaikovsky Competition—the

Olympics of classical music—the violin is stolen, a ransom note for five million dollars left in its place. Ray will have to piece together the clues to recover his treasured Strad ... before it's too late. With the descendants of the man who once enslaved Ray's great-great-grandfather asserting that the instrument is rightfully theirs, and with his family staking their own claim, Ray doesn't know who he can trust—or whether he will ever see his beloved violin again.

The business of beating death by becoming a modern day Medici is booming. In today's economy, where investments in stocks, bonds, commodities, real estate and hedge funds have either been severely battered from the Coronavirus crash or from the rollercoaster volatility, investors are increasingly seeking non-correlated alternative investments. How? By investing in a rare instrument and becoming a patron. It is not only a good return on investment. What better way to get rich and write yourself into history books than to be the owner and donor of a Stradivarius violin to a world class soloist or a museum? Tax deductions are indeed a benefit, but immortality is a better blessing. By reading this book, you can learn

---

from the experts in the field who understand that investing in immortality is the best way to have a meaningful and mortal life.

Violin-Making Heart of America Press  
Underwater Cultural Heritage investigates cases  
of underwater cultural heritage, exploring ethical

issues that have never been studied before. A vast cultural heritage lies beneath the sea, including the archaeological remains of more than three million vessels, as well as historic monuments and whole cities. In addition, climate change, population growth and current events around the world mean that new underwater cultural heritage is being created faster than ever before. It is, therefore, essential that the ethical issues related to the management of such heritage are considered now, especially as decisions made now will bestow the heritage with a value and will establish legal frameworks that could be used either to protect or harm underwater heritage in the future. Considering a range of challenges related to underwater cultural heritage - including preservation, management, use, sustainability, valuation, politics, identity, human rights, and intangible heritage - the book presents case studies that both illustrate the key ethical issues and also offer possible solutions to help navigate such challenges. The book will also explore the various legislative instruments protecting underwater cultural heritage and emphasise the importance of revising and updating legal frameworks, whilst also taking into account ethical concerns that may expose cultural heritage to more serious menaces. Underwater Cultural Heritage draws on case studies from around the globe and, as such, should be of great interest to

academics, researchers and students working in heritage studies, archaeology, history, politics and sustainability. It should also be appealing to heritage practitioners and policymakers who want to learn more about the issues surrounding not only management of underwater cultural heritage but management of cultural heritage in general.

#### The Strad Korinthan Violins

A guide to playing the fiddle offers advice on choosing an instrument and accessories, offers step-by-step instructions on the techniques of fiddling, and includes fingerboard charts and practice tunes. Illustrated with Working Diagrams Anchor Annotation: The Index is published in two physical volumes and sold as a set for \$250.00. As America's geography and societal demands expanded, the topics in The Etude magazine (first published in 1883) took on such important issues as women in music; immigration; transportation; Native American and African American composers and their music; World War I and II; public schools; new technologies (sound recordings, radio, and television); and modern music (jazz, gospel, blues, early 20th century composers) in addition to regular book reviews, teaching advice, interviews, biographies, and advertisements. Though a valued source particularly for private music teachers, with the de-emphasis on the professional elite and the decline in salon music, the magazine ceased publication in 1957. This Index to the articles in The Etude serves as a companion to E. Douglas

Bomberger's 2004 publication on the music in The Etude. Published a little over fifty years after the final issue reached the public, this Index chronicles vocal and instrumental technique, composer biographies, position openings, department store orchestras, the design of a successful music studio, how to play an accordion, recital programs in music schools, and much more. The Index is a valuable tool for research, particularly in the music culture of American in the late nineteenth and early twentieth centuries. With titles of these articles available, the doors are now open for further research in the years to come.
