A collection of essays on music and life by the famed classical pianist and composer Stephen Hough is one of the world’s leading pianists, winning global acclaim and numerous awards, both for his concerts and his recordings. He is also a writer, composer, and painter, and has been described by The Economist as one of “Twenty Living Polymaths.” Hough writes informally and engagingly about music and the life of a musician, from the broader aspects of what it is to walk out onto a stage or to make a recording, to specialist tips from deep inside the practice room: how to trill, how to pedal, how to practice. He also writes vividly about people he’s known, places he’s traveled to, books he’s read, paintings he’s seen; and he touches on more controversial subjects, such as assisted suicide and abortion. Even religion is there—the possibility of the existence of God, problems with some biblical texts, and the challenges involved in being a gay Catholic. Rough Ideas is an illuminating, constantly surprising introduction to the life and mind of one of our great cultural figures.
Probability and Statistics with Applications: A Problem Solving Text

McGraw Hill Professional
With body piercing and tattooing becoming more popular and mainstream, many teens may think about engaging in these forms of body modification. An excellent resource for young people pondering a piercing or tattoo, this title presents some of the pros and cons they should consider. In an honest and engaging manner, the author presents important information teens need to protect their health, including how to identify a reputable studio, what to expect from the procedures, and how to do proper aftercare. Legal, social, and familial issues are explored, too, including the importance of discussing the decision with their parents and choosing tattoos or piercings they can live with throughout adulthood.

You will never look at a word searches the same again. Introducing Swear 'N' Search : Word Search for real adults!Get ready to laugh your ass off as you impress your family, friends, and co-workers with the very thing that will make them lose track of the next 6 hours and any responsibility! You will all have a craptastic time!The book is packed full of profanities and insults of all sorts including such classics as: twatlips, dicksneeze, and douchetrain.Perfect gift for any occasion or holiday - especially if you need help getting rid of your mother-in-law.
Princeton Review
Pirate Island, North Carolina, is an unlikely vacation destination for Prince Alexander of Moreno. But when a detour brings him to the rustic campground, he jumps at the chance to be just Alex, no media glare, no royal responsibilities, for four glorious weeks. That the manager is a beautiful, fun-loving redhead unlike any woman he's ever met makes the prospect even sweeter... Katherine Kendall doesn't trust men easily, including the wickedly handsome stranger who practically washes up on her island. But most of all she doesn't trust her body's reaction to this uncommon man – and when he offers to tutor her in the nuances of lovemaking, to awaken the

sensual woman within, she cannot resist... Days with Katherine bring out a playful side Alex thought long-buried, and nights are filled with passion. As summer wanes, Alex begins to crave something he never has before. But will his secret tear them apart?
General Microbiology Field Translation Series
The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, Blue Legalities illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, Blue Legalities questions what we think we know—and what we don ’ t know—about oceans, our earthly planet, and ourselves.

Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.

Memphis Noir Rizzoli Publications

Katie ' s Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie ' s Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie ' s Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie ' s Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of Greek Revival from the Garden: Growing and Cooking for Life, offers a foreword about her friendship with Katie and her admiration of Katie ' s dream to end hunger one garden at a time.

Flyaway Hadley Press

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

A Journey with Luke C. Scott Publishing

This must-read for lovers of Stephen King's The Shining will leave readers

breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

If you know someone who loves fox themed gifts then they will be sure to love this adult coloring book too!

People: Yearbook 2002 ACTEX Publications

"In the post-9/11 struggle for a sane global vision, this antihatred manifesto could not be more timely."--O: The Oprah Magazine In this acclaimed volume, Pulitzer-Prize nominated science writer Rush W. Dozier Jr. demystifies our deadliest emotion--hate. Based on the most recent scientific research in a range of fields, from anthropology to zoology, Why We Hate explains the origins and manifestations of this toxic emotion and offers realistic but hopeful suggestions for defusing it. The strategies offered here can be used in both everyday life to

improve relationships with family and friends as well as globally in our efforts to heal the hatreds that fester within and among nations of the world.

The PEOPLE YEARBOOK 2002 brings together the celebrities, personalities, and their riveting stories, in full-color photography and in words.

The Subtle Ruse Alone

Gerrard ' s Legacy A collection of powerful magical artifacts is the only defense against the forces of evil that are arrayed against Dominaria. Gerrard, the heir to the Legacy, together with Sisay, captain of the flying ship Weatherlight, has sought out many parts of the Legacy. Gerrard ' s Quest Sisay has been kidnapped by Volrath, ruler of the plane of Rath. Gerrard stands at a crossroads. His companion is in danger, the Legacy may be lost forever. Only he—with the loyal crew of the Weatherlight—can rescue Sisay and recover the Legacy.

Throb Duke University Press Books

The text begins by reviewing, in a simple and precise manner, the physical principles of three pillars of Refrigeration and Air Conditioning, namely thermodynamics, heat transfer, and fluid mechanics. Following an overview of the history of refrigeration, subsequent chapters provide exhaustive coverage of the principles, applications and design of several types of refrigeration systems and their associated components such as compressors, condensers, evaporators, and expansion devices. Refrigerants too, are studied elaboratively in an exclusive chapter. The second part of the book, beginning with the historical background of air conditioning in Chapter 15, discusses the subject of psychrometrics being at the heart of understanding the design and implementation of air conditioning processes and systems, which are subsequently dealt with in Chapters 16 to 23. It also explains the design practices followed for cooling and heating load calculations. Each chapter contains several worked-out examples that clarify the material discussed and illustrate the use of basic principles in engineering applications. Each chapter also ends with a set of few review questions to serve as revision of the material learned.

The Vendor Compliance Handbook Walter de Gruyter GmbH & Co KG Language acquisition is a human endeavor par excellence. As children, all human beings learn to understand and speak at least one language: their mother tongue. It is a process that seems to take place without any obvious effort. Second language learning, particularly among adults, causes more difficulty. The purpose of this series is to compile a collection of high-quality monographs on language acquisition. The series serves the needs of everyone who wants to know more about the problem of language acquisition in general and/or about language acquisition in specific contexts.

There's so much more to confidence than being outgoing, and self
esteem has a huge impact on both your happiness and what you are
able to achieve in life. Marisa Peer's tried and tested programme is
an effortless way to maximise your potential and overhaul your whole
outlook on life for the better. Her powerful hypnotic language and
effective techniques mean that just reading the book enables you to
change negative thought patterns and break harmful habits that have
been holding you back without you knowing it. Written in the highly
engaging style she is renowned for, Marisa's book speaks to you on an
extremely personal level and tailors her proven methods in
establishing confidence to your unique needs. Unlike other books on
the market, not only does her programme provide lasting results but
she focuses much more on how to like yourself, because until you do
you can't enjoy the benefits of confidence. Marisa's programme is the
effortless way to tackle every type of confidence issue so that you can
achieve your full potential in life and reap the rewards.

The Vintage Mencken HarperCollins Australia

Five great poets of the T'ang dynasty (eighth and ninth centuries
A.D.) are represented in this collection: Wang Wei, Li Po, Tu
Fu, Li Ho, and Li Shang-Yin. Each poet is introduced by the
translator and represented by a selection that spans the poet's
development and career. These constitute some of the greatest
lyric poems ever written.

His Royal Pleasure Springer Science & Business Media

There's a jiiiigsaaaaw, waiting in this box / It'd like for you to solve it / but
it thinks it'll blow your mind! Not unlike the lyrical genius of David Bowie,
jigsaw puzzles are at times mystifying yet always satisfying. Not only is the
Where's Bowie? Jigsaw Puzzle a fun 500-piece detail-focused puzzle, it's
also a find-Bowie interactive adventure. On the finished eight-by-eight-inch
puzzle, hidden in multiple places across the detailed image, Bowie--in his
various chameleonic guises--is patiently waiting to be spotted by a well-
trained eye. It's like Where's Waldo? but, well, better, because it's about
Bowie! This jigsaw is jam-packed with Bowie references that might even
teach the most hardened Bowie aficionado a thing or two. In case you
missed it--jigsaws are back, baby! Give yourself a much-needed digital
detox, turn off your phone/tablet/laptop screen, grab a stiff drink, and put
on your puzzle hat. This 500-piece jig saw puzzle is going to take some
good old-fashioned puzzling. Maybe whack on Aladdin Sane, The Rise
and Fall of Ziggy Stardust, or whichever Bowie record you adore the most,
for the ideal backing track to your puzzle-solving adventure.
