What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart

century. Britain ' s virtuosi, gentlemanly patrons of the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

The Complete Survival Guide for the Worst Eight Weeks of Your Life! John Wiley & Sons Sheridan "Dani" Reed is a recently unemployed photojournalist living in New York City. Her

boyfriend is vacationing without her, and her best friend has abandoned her for a job in the south. Is a quarter-life crisis a thing? After accepting a freelance job in Louisiana for Southern Style magazine, she feels the bleakness of her life back in New York fading in the rearview mirror. Getting back to her southern roots seems to be just what she needs to lift her spirits and spark her creativity. During her stay, she meets playboy Micah Landry and his colorful family. She knows she should avoid him and keep things professional, but his

southern charms are hard to resist. Through the lens of her camera, she finds the beauty and soul of the Landry Plantation, but it's her beauty and soul that capture Micah's attention. When an unexpected phone call takes her back to New York, she's forced to face the life she was trying to escape head on. Will her trip and the Landrys only become fond memories, or will Dani find her way back to them and her beloved south? In their debut novel, Jiffy Kate bring you a story of love, adventure, and finding a place to call home. Index Medicus

From renowned guitarist and multi-Emmy-award winning composer, Brian Tarquin, comes a display-quality, full-color reference

guide to guitars. The *Guitar Encyclopedia* begins with the history of guitars spanning back to the birth of Epiphone by a Greek immigrant and the great inventions of Les Paul, to the boom of the Rock-'n-Roll-shredder days with Ibanez guitars and the futuristic designs of the Gibson Moderne and the Randy Rhodes Polka Dot Flying V. The book also contains interviews from guitar designers such as Fender and Eastwood, as well as boutique companies such as Gander and Specimen. A far cry from other dry schematic

encyclopedias, this book details the connections between different guitars and the monumental recordings that they produced. With introductions by Gary Hoey, Chris Poland (Megadeth), and Eric Shoaf (*Vintage Guitar* magazine), this book provides a rich and unique account of iconic guitars throughout history. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic

design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

True Christianity: It May Not Be What You Think seeks to define true Christianity and to help persons progress toward practicing it. The second edition includes some changes/corrections, some updated links, and seven new chapters, which makes a total of 51 chapters (in addition to the introduction). The book's introduction is followed by 51 mainly very short chapters that are subdivided into five parts. The chapters in the first part define true Christianity (also called authentic Christianity or real

Christianity) and offer general guidelines for practicing it. Chapters in the second section discuss specific attitudes and beliefs. Chapters in the third segment cover specific behaviors. The fourth portion is probably the most unusual one. It discusses the relationship between Christianity and some other beliefs and practices. This fourth section includes generally very brief discussions of subjects such as atheism, agnosticism, religions other than Christianity, hypnotism, mental illness, and ESP. One chapter in this fourth

part deals briefly with some of the unusual events the author has experienced or witnessed. Part five concludes the book with a brief summary/epilogue. A few chapters in the book deal much with the author's own views and/or experiences. A few cite numerous other sources to support the author's views. All chapters reflect the author's personal perspective rather than that of any particular Christian denomination or any other person. Each chapter after the introduction contains two or more sometimes provocative "Questions for

Reflection and Discussion." The author hopes the book will help persons live happier, healthier, longer, more fruitful lives by coming closer to practicing true Christianity.

This book contains the proceedings of the International Symposium on the Mechanisms of Sexual Reproduction in Animals and Plants, where many plant and animal reproductive biologists gathered to discuss their recent progress in investigating the shared mechanisms and factors involved in sexual reproduction. This now is the first book that reviews recent progress in almost all

fields of plant and animal fertilization. It was recently reported that the self-sterile mechanism of a hermaphroditic marine invertebrate (ascidian) is very similar to the self-incompatibility system in flowering plants. It was also found that a male factor expressed in the sperm cells of flowering plants is involved in gamete fusion not only of plants but also of animals and parasites. These

discoveries have led to the consideration that the core mechanisms or factors involved in sexual reproduction may be shared by animals, plants and unicellular organisms. This valuable book is highly useful for reproductive biologists as well as for biological scientists outside this field in understanding the current progress of reproductive biology. This updated second edition of Acute Ischemic Stroke: Imaging and Intervention provides a comprehensive account of the state of the art in the diagnosis and treatment of acute ischemic stroke. The basic format of the first edition has been retained, with sections on fundamentals such as pathophysiology and causes, imaging techniques and interventions. However, each chapter has been revised to reflect the important recent progress in advanced neuroimaging and the use of interventional tools. In addition, a new chapter is

included on the classification instruments for ischemic stroke and their use in predicting outcomes and therapeutic triage. All of the authors are internationally recognized experts and members of the interdisciplinary stroke team at the Massachusetts General Hospital and Harvard Medical School. The text is supported by numerous informative illustrations, and ease of reference is ensured through the inclusion of suitable tables. This book will serve as a unique source of up-to-date information for neurologists,

emergency physicians,
radiologists and other health
care providers who care for
the patient with acute
ischemic stroke.
