Readers' Guide to Periodical Literature Legare Street Press This paper discusses commodity prices might serve as a useful leading indicator of inflation, based on the relative

importance of flexible auction markets for the determination of these prices. They thus may have a tendency to respond relatively quickly, especially in response to monetary disturbances. Estimation of alternative commodity-price indexes, in which the weights are chosen so as to minimize the residual variance in aggregate inflation regressions, was not fully successful. The commodity prices do have a useful role to play as an aid in predicting inflation, so long as one is careful to interpret the relationships qualitatively and in the context of more general macroeconomic developments. The ratio of consumer to commodity price movements' changes over time, and the relative price of commodities undergoes long sustained swings; nonetheless, the qualitative linkages are quite evident in the data. Perhaps most importantly, turning points in commodity-price inflation frequently precede turning points in consumer-price inflation for the large industrial countries as a group.

 More than a memoir of a

custom cafe racer build this  
 book is a tribute to a teacher  
 who inspired young people to  
 be creative with their minds  
 and capable with their hands.  
 Growing up in Fargo, North  
 Dakota in the 1970s and 80s,  
 The Urban Monk had the  
 opportunity to develop a love  
 for machines, metal working  
 and motorcycles. This book  
 provides a glimpse into what  
 life was like for the author and  
 his young friends in Fargo  
 during that time. It is also a  
 poignant defense of industrial  
 arts education in public schools.  
 After an over three year effort  
 building a custom cafe racer in  
 his spare time and documenting  
 the entire process in videos  
 shared with the world on his  
 YouTube channel Urban  
 Monk TV, the author tells the  
 story of how this project  
 became more than a custom  
 motorcycle build - it became a  
 tribute to his middle school  
 Metal Shop teacher who  
 inspired him to go on to a life  
 time of peaceful meditation in  
 his garage with a wrench in his  
 hand. Anyone interested in  
 motorcycles, mechanics, do-it-  
 yourself projects or a historical  
 retrospective of life in 70s-80s  
 Fargo will enjoy this pleasant  
 read.
