Human Karyotyping Activity Answer Key
Karyotypes A genetic mutation that occurs when chromosomes do not separate correctly during cell division can be observed by looking at human DNA when it is in chromosome form.

Observation can determine if there are any extra chromosomes, or missing or damaged chromosomes.

VIRTUAL LAB: University of Arizona

Karyotyping Activity ...

Each karyotype has been started for you. The first 12 chromosomes have been matched. Your job is to match the remaining 11 chromosomes, determine whether or not your patient has a chromosomal abnormality and if so, which one, and to diagnose the patient with the expected symptoms of their karyotype. You better get started, your patient list is growing.....
