The book presents a remarkable collection of chapters covering a wide range of topics in the areas of intelligent systems and artificial intelligence, and their real-world applications. It gathers the proceedings of the Intelligent Systems Conference 2019, which attracted a total of 546 submissions from pioneering researchers, scientists, industrial engineers, and students from all around the world. These submissions underwent a double-blind peer-review process, after which 190 were selected for inclusion in these proceedings. As intelligent systems continue to replace and sometimes outperform human intelligence in decision-making processes, they have made it possible to tackle a host of problems more effectively. This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for an international conference as a venue for reporting on the latest innovations and trends.

This book collects both theory and application based chapters on virtually all aspects of artificial intelligence; presenting state-of-the-art intelligent methods and techniques for solving real-world problems, along with a vision for future research, it represents a unique and valuable asset.

Windows 7 and Vista Guide to Scripting, Automation, and Command Line Tools Jones & Bartlett Publishers Winner of The Paris Review/Terry Southern Prize for Humor. "Chris Bachelder is a witty, compassionate troublemaker, and we need more like him." —George Saunders Here is the absorbing story of twenty-two men who gather every fall to painstakingly reenact what ESPN called "the most shocking play in NFL history" and the Washington Redskins dubbed the "Throwback Special": the November 1985 play in which the Redskins' Joe Theismann had his leg horribly broken by Lawrence Taylor of the New York Giants live on Monday Night Football. With wit and great empathy, Chris Bachelder introduces us to Charles, a psychologist whose expertise is in high

demand; George, a garrulous public librarian; Fat Michael, envied and despised by the others for being exquisitely fit; Jeff, a recently divorced man who has become a theorist of marriage; and many more. Over the course of a weekend, the men reveal their secret hopes, fears, and passions as they choose roles, spend a long night of the soul preparing for the play, and finally enact their bizarre ritual for what may be the last time. Along the way, mishaps, misunderstandings, and grievances pile up, and the comforting traditions holding the group together threaten to give way. The Throwback Special is a moving and comic tale filled with pitch-perfect observations about manhood, marriage, middle age, and the rituals we all enact as part of being alive.

Heart disease remains the number one killer of women, outpacing breast cancer, diabetes, and stroke, with one in four women receiving a diagnosis in her lifetime. And the problem is only getting worse. Dr. Mark Menolascino has been on the front lines of cardiac research for most of his life, running a highly successful clinic where he takes a holistic, personalized approach to reversing disease and jump-starting health. Most of his patients are women struggling with symptoms and illnesses that stem from the most important, life-giving organ in the body: the heart. In Heart Solution for Women, Dr. Menolascino explores the many ways our hearts are the pathway to overall health. While the classic risk factors for heart disease—obesity, high cholesterol, high blood pressure, stress, and poor diet—are critical components, symptoms of the disease manifest differently in women's bodies and can go misdiagnosed for years. They include depression, anxiety and panic attacks, poor sleep, and widespread pain, and can be masked during pregnancy, post-pregnancy, and menopause only to appear with great force later in life. Featuring the latest research on gut, brain, and hormone health and including answers to the most common heart-health misunderstandings, Heart Solution for Women finally gives women the tools to succeed, feel great in their bodies, and add years to their lives.
