Discover the (surprising) secret
to lifelong financial freedom
with real estate investing. Real
estate has always been a
powerful tool for investing,
and many people believe that a

single-family home investment
strategy will help them achieve
their goals. However, the true
path to financial freedom using
real estate is found in apartment
buildings. Real estate investing
expert and author Michael
Blank learned that once
investors did their first deal, the
curious "Law of the First Deal"
led to the second and third
deals in rapid succession. Most
were able to quit their jobs
within 3-5 years of getting
started. Of course, when most
people hear "apartment
buildings" they immediately
assume they need years of
investing experience and

money saved up to be able get into the game. This simply isn't true. Michael has compiled the results of his research into his new book, *Financial Freedom with Real Estate Investing: The Blueprint to Quitting Your Job with Real Estate - Even without Experience or Cash*. He's outlined the "Financial Freedom Blueprint" that guides you through your first multifamily deal, even if you have no prior experience or your own cash.
