When John Maloof bought an unmarked box of undeveloped negatives back in 2007, he had no idea that he had just stumbled upon one of the 20th Century's most important troves of street photography and self/portraiture. The photographer: Vivian Maier, a secretive and eccentric nanny who over the course of more than three decades took tens of thousands of photos of everyday urban life - and showed them to no one. Finding Vivian Maier follows Maloof as he embarks on a quest to reveal the woman behind the Rolleiflex camera. Part retrospective, part detective story, Finding Vivian Maier is a touching portrait of a woman haunted

by her past. For a contemporary age obsessed with self-documentation via all forms of technology, Vivian Maier was a pioneer.

The photographs in STREET were taken by Carrie Boretz in New York City from the mid-1970s through the 1990s. It is common knowledge that the city was on rocky ground for many of those years but these are not pictures filled with drama or strife. Instead Boretz was always more interested in the subtle and familiar moments of everyday life in the various neighborhoods where she lived, before much of the graffiti was scrubbed away and the city sanitized and reborn to what it has since become. For so many living in and visiting New York today, it is forgotten or altogether not known how different so many parts of the city were during that time. Many of these pictures show the reality of the streets then, where every day workers, the homeless, the affluent, and tourists all shared the common space, providing examples of how one of the greatest cities in the world was one often filled with contradictions. But there is also a timeless element to these images as children still play in the parks, streets, and schoolyards, commuters still face the elements daily as they wait, there are still regular demonstrations and parades, and the whole spectrum of the joys and pitfalls of humanity are still visible most anywhere a person looks. For Boretz nothing was scripted,

it all played out right before her. As Patti Smith said, "You need no rationale, no schooling. It's love at first sight. You see something and you have to capture it. Instinctive, bang, you feel one with it." Indeed, Boretz doesn't have a philosophy about shooting other than trusting her instinct: she saw, she shot, she moved on, always looking for moments that made her heart beat faster. It was the continual rush of knowing that at any time she could come upon something real and beautiful. That is why and how she shot and why and how her STREET is so special.

Presented for the first time in English, this volume brings together twelve notable interviews and conversations with Henri Cartier-Bresson carried out between 1951 and 1998. While many of us are acquainted with his images, there are so few texts available by Cartier-Bresson on his photographic process. These verbal, primary accounts capture the spirit of the master photographer and serve as a lasting document of his life and work, which has inspired generations of photographers and artists. Here, Cartier-Bresson speaks passionately, with metaphors and similes, about the world and photography. A man of principles shaped by the evolving eras of the twentieth century, his major influences included Surrealism, European politics of the 1930s and '40s, the Second World War, and his experiences with Magnum as cofounder and reporter. This book illuminates his thoughts, personality, and reflections on a seminal career. In his own words:

[Photography] is a way of questioning the world and questioning yourself at the same

time. . . . It entails a discipline. For me, freedom is a basic frame of reference, and inside that frame are all the possible variations. Everything, everything, everything. But it is within a frame. The important thing is the sense of limit. And visually, it is the sense of form. Form is important. The structure of things. The space.

Street Farrar, Straus and Giroux

The original, instant classic which set the world afire. The first book to introduce the phenomenon that is the life story and work of Vivian Maier. A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America's post-war golden age. It wasn't until local historian John Maloof purchased a box of Maier's negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day. Presented here for the first time in print, *Vivian Maier: Street Photographer* collects the best of her incredible, unseen body of work. Please note that all blank pages in the book were chosen as part of the design by the publisher.

The Ongoing Moment Gost Books

Winner of the National Book Critics Circle Award in Criticism *A New York Times Book Review Editors' Choice* *A New York Times Top 10 Nonfiction Book of the Year, as selected by Dwight Garner* Geoff Dyer has earned the devotion of passionate fans on both sides of the Atlantic through

his wildly inventive, romantic novels as well as several brilliant, uncategorizable works of nonfiction. All the while he has been writing some of the wittiest, most incisive criticism we have on an astonishing array of subjects—music, literature, photography, and travel journalism—that, in Dyer's expert hands, becomes a kind of irresistible self-reportage. *Otherwise Known as the Human Condition* collects twenty-five years of essays, reviews, and misadventures. Here he is pursuing the shadow of Camus in Algeria and remembering life on the dole in Brixton in the 1980s; reflecting on Richard Avedon and Ruth Orkin, on the status of jazz and the wonderous Nusrat Fateh Ali Khan, on the sculptor ZadKine and the saxophonist David Murray (in the same essay), on his heroes Rebecca West and Ryszard Kapuscin ski, on haute couture and sex in hotels. Whatever he writes about, his responses never fail to surprise. For Dyer there is no division between the reflective work of the critic and the novelist's commitment to lived experience: they are mutually illuminating ways to sharpen our perceptions. His is the rare body of work that manages to both frame our world and enlarge it.

Max and Olive National Geographic Books
The full spectrum of Ansel Adams' work in a single volume, offering the largest available compilation from his legendary photographic career capturing American landscapes. The photographs are arranged chronologically into five major periods, from his first photographs made in Yosemite and the High Sierra in 1916 to his work in the National Parks in the 1940s up to his last important photographs from the 1960s. An introduction and brief essays on selected images provide information about Adams' life, document the evolution of his technique, and give voice to his artistic vision. Few artists of any era can claim to have produced four hundred images of lasting beauty and significance. It is a testament to Adams' vision and lifetime of hard work that a book of this scale can be compiled. **ANSEL ADAMS: 400 PHOTOGRAPHS** is a must-have for anyone who appreciates photography and the allure of the natural world.

"The latest entry in National Geographic's popular photo line gives readers a front-row seat to the wonders of landscape photography. Choosing from among the world's best portfolios, curators at National Geographic have arranged a symphony of photographs that tell the story of a single day, from dawn's first light to the closing moments of sunset, from daylight to dark. Short legends accompany every photograph to explain the picture, the scene it conveys, or how the photographer captured it, along with

quotations from literature that provide historical context. With the widest possible array of perspectives, close-ups, and details, these photos present a lifetime of vision, each page a new experience of time and light" -- Street Photographer Simon and Schuster

The definitive monograph of American photographer Vivian Maier, exploring the full range and brilliance of her work and the mystery of her life, written and edited by noted photography curator and writer Marvin Heiferman; featuring 250 black-and-white images, color work, and other materials never seen before; and a foreword by New York Times bestselling author Laura Lippman. Vivian Maier's story—the secretive nanny-photographer during her life who becomes a popular sensation shortly after her death—has, to date, been pieced together only from previously seen or known images she made and the handful of facts that have surfaced about her life. During her lifetime she shot more than 100,000 images, which she kept hidden from the world. In 2007, two years before her death, Chicago historic preservationist John Maloof discovered a trove of negatives, and roll upon roll of undeveloped film in a storage locker he bought at auction. They revealed a surprising and accomplished artist and a stunning body of work, which Maloof championed and brought to worldwide acclaim. Vivian Maier presents the most comprehensive collection and largest selection of the photographer's work—created during the 1950s through the 1970s in New York, Chicago, and on her travels around the country—almost exclusively unpublished and including her previously unknown color work. It features images of and excerpts from Maier's personal artifacts, memorabilia, and audiotapes, made available for the first time. This remarkable volume draws upon recently conducted interviews with people who knew Maier, which shed new light on Maier's photographic skill and her life.

With a rising number of women throughout the world picking up their cameras and capturing their surroundings, this book explores the work of 100 women and the experiences behind their greatest images. Traditionally a male-dominated field, street

photography is increasingly becoming the domain of women. This fantastic collection of images reflects that shift, showcasing 100 contemporary women street photographers working around the world today, accompanied by personal statements about their work. Various joyful, unsettling and unexpected, the photographs capture a wide range of extraordinary moments. The volume is curated by Gulnara Samoilova, founder of the Women Street Photographers project: a website, social media platform and annual exhibition. Photographer Melissa Breyer's introductory essay explores how the genre has intersected with gender throughout history, looking at how cultural changes in gender roles have overlapped with technological developments in the camera to allow key historical figures to emerge. Her text is complemented by a foreword by renowned photojournalist Ami Vitale, whose career as a war photographer and, later, global travels with National Geographic have allowed a unique insight into the realities of working as a woman photographer in different countries. In turns intimate and candid, the photographs featured in this book offer a kaleidoscopic glimpse of what happens when women across the world are behind the camera.

Ansel Adams: 400 Photographs Amherst Media, Inc

During the summer of 1980, under the direction of his father, a photographer, Jamel Shabazz armed himself with a Canon AE1 SLR camera and passionately photographed the urban landscape that he called home. New York City—"the city that never sleeps"—was the ideal epicenter to photograph because of its 24-hour subway system and the many businesses that are open late into the night. Never without a dull moment, New York's energy inspired him to use the streets as a canvas for the majority of his work for over 35 years. Photographing in the streets put Shabazz in the heart of all of the action—he carried his camera everywhere, always set and at the ready. Like a fisherman seeking a fruitful catch,

Shabazz ventured into locations full of life and uncertainty in hopes of capturing a unique moment. More importantly, he sought to gain insight into the conditions of the larger world and its inhabitants. *Sights in the City* is a testament to Shabazz's visual journey, containing 120 color and black-and-white photographs, most of which have never been published. His images are both intimate and provocative in nature, each having its own DNA.

Mordantly funny, thought-provoking travel essays, from the acclaimed author of *Out of Sheer Rage* and “one of our most original writers” (*New York Magazine*). This isn't a self-help book; it's a book about how Geoff Dyer could do with a little help. In these genre-defying tales, he travels from Amsterdam to Cambodia, Rome to Indonesia, Libya to Burning Man in the Black Rock Desert, floundering in a sea of grievances, with fleeting moments of transcendental calm his only reward for living in a perpetual state of motion. But even as he recounts his side-splitting misadventures in each of these locales, Dyer is always able to sneak up and surprise you with insight into much more serious matters.

Brilliantly riffing off our expectations of external and internal journeys, Dyer welcomes the reader as a companion, a fellow perambulator in search of something and nothing at the same time.

People talk about love at first sight, about the way that men and women fall for each other immediately, but there is also such a thing as friendship at first sight. Luke moves to Paris with the idea of writing a novel but things get in the way. He becomes friends with a fellow expatriate, Alex; then he falls in love with Nicole. Alex meets Sahra, and the two couples form an intimacy that changes their lives. As they discover the clubs and cafés of the eleventh arrondissement, the four become inseparable, united by deeply held convictions about dating strategies, tunneling in P.O.W. films, and, crucially, the role of the Styrofoam cup in action movies. Experiencing the exhilarating highs of Ecstasy and sex, they reach a peak of rapture—the comedown from which is unexpected and devastating. In this book, Geoff Dyer fixes a dream of happiness—and its aftermath—with photographic

precision. Boldly erotic and hauntingly elegiac, comic and romantic, *Paris Trance* confirms Dyer as one of England's most original and talented writers.

Vivian Maier National Geographic Books

In her new novel, Christina Hesselholdt delves into the world of the enigmatic American photographer, Vivian Maier (1926-2009), whose unique photographic body of work only reached the public by chance. On the surface, Vivian Maier lived a quiet life as a loving, firm and feisty nanny for wealthy families in Chicago and New York. But throughout four decades, she took more than 150,000 photos, mainly with Rollieflex cameras. The pictures were only discovered in an auction shortly before she died, impoverished and feasibly very lonely. In a time when self-obsession and representation are at an all-time high, Vivian Maier holds a particular fascination. Who was this eccentric person? And why did she not try to make a living from her art? In *Vivian*, a chorus of voices, including Vivian's own, address these questions. We watch Vivian grow up in a severely dysfunctional family in New York and Champsaur in France, and we follow her as a nanny in Chicago and as a photographer on the streets of these American cities and in rural France. The novel comprises multiple voices: Vivian's, her mother's, one of the children she looked after and her parents. And crucially, the voice of the inquisitive narrator, who pulls the threads together and asks Vivian prying questions.

Trace the history and evolution of photography through iconic photographs, biographies of famous photographers, and the extraordinary cameras that made it possible. From the first black and white photograph to modern digital imagery, photography has been one of the most fascinating developments in the past 200 years. This is the perfect photographic coffee table book for budding photographers, seasoned professionals and anyone fascinated by the history of photography. It includes:

- Biographies of 50 famous photographers like Ansel Adams and Dorethea Lang.
- The history of photography, starting from its origin in the 1800s.
- Beautiful illustrations, plus many of the most iconic photos in history.
- Special features that center on a single arresting photograph, including Pulitzer Prize winners.

The development of photography is possibly one of the most extraordinary feats of modern

technology. *Photography: The Definitive Visual Guide* captures the most awe-inspiring photos, people that have pushed the boundaries of this medium, and the cameras they experimented with — from the daguerreotype to digital cameras. Packed with inspiration, this photography book also takes a step away from the pure art form and highlights how this medium has influenced social and cultural change. Author Tom Ang further includes segments on special types of photography — like street photography — and special features delving into the stories behind photographic images that changed how people saw the world!

Street Photographer Little, Brown

The definitive biography that unlocks the remarkable story of Vivian Maier, the nanny who lived secretly as a world-class photographer, featuring nearly 400 of her images, many never seen before, placed for the first time in the context of her life. Vivian Maier, the photographer nanny whose work was famously discovered in a Chicago storage locker, captured the imagination of the world with her masterful images and mysterious life. Before posthumously skyrocketing to global fame, she had so deeply buried her past that even the families she lived with knew little about her. No one could relay where she was born or raised, if she had parents or siblings, if she enjoyed personal relationships, why she took photographs and why she didn't share them with others. Now, in this definitive biography, Ann Marks uses her complete access to Vivian's personal records and archive of 140,000 photographs to reveal the full story of her extraordinary life. Based on meticulous investigative research, *Vivian Maier Developed* reveals the story of a woman who fled from a family with a hidden history of illegitimacy, bigamy, parental rejection, substance abuse, violence, and mental illness to live life on her own terms. Left with a limited ability to disclose feelings and form relationships, she expressed herself

through photography, creating a secret portfolio of pictures teeming with emotion, authenticity, and humanity. With limitless resilience she knocked down every obstacle in her way, determined to improve her lot in life and that of others by tirelessly advocating for the rights of workers, women, African Americans, and Native Americans. No one knew that behind the detached veneer was a profoundly intelligent, empathetic, and inspired woman—a woman so creatively gifted that her body of work would become one of the greatest photographic discoveries of the century.

The black and white photos in *Mean Streets*, collected here in print for the first time, offer a look at the infamously hardscrabble NYC in the 70s and 80s captured with the deliberate and elegant eye that propelled Grazda to further success. In the late 1970s and early 80s, the institutions of power in New York had failed. A bankrupt city government had sold its power over to the banks, and the financiers' severe austerity programs gutted the city's support systems. Most of the city's traditional industries had already left, and those power brokers in charge of the new system retreated to their high rises and left the streets to the hustlers, preachers, and bums; the workers struggling to get by; and a new generation of artists who were squatting in the empty industrial buildings downtown and bearing witness to the urban decay and institutional abandonment all around them. For the tough and determined, the quick and the gifted, the prescient and the prolific, a cheap living could be scratched out in the mean streets. Renowned photographer Edward Grazda began his career in that version of NYC. The black and white photos in *Mean Streets*, collected here in print for the first time, offer a look at that desolate era captured with the deliberate and elegant eye that propelled Grazda to further success. It's a version of New York that has been all but scrubbed clean in the financially solvent years that have followed, but the character of the city has been indelibly marked by the scars of those years. *Otherwise Known as the Human Condition* Damiani Limited
LOOKING AT ANSEL ADAMS is a personal and

penetrating study that explores Ansel's life as an artist by looking closely at the stories behind 20 of his most significant images. Immediately recognizable photographs like Moonrise, Hernandez, New Mexico, and Mount McKinley and Wonder Lake are turned on their axes and seen from a new angle, along with ancillary photographs, alternative versions, and letters and postcards that relate to these beloved icons. Less familiar but equally important photographs provide unexpected insight into Ansel's creative and personal life. For anyone with a love of the American wilderness and an interest in the life and work of the country's most revered landscape photographer and environmental advocate, **LOOKING AT ANSEL ADAMS** is an essential and deeply satisfying book.
