You could buy guide Vivitar 285 Guide Number or get it as soon as feasible. You could speedily download this Vivitar 285 Guide Number after getting deal. So, as soon as you require the book swiftly, you can straight get it. Its consequently agreed easy and in view of that fats, isnt it? You have to favor to in this express

Vivitar Key Features •
Guide number 120 (ISO
100/feet). ... Vivitar 285 HV
Flash In reply to Yanny •
Mar 8, 2003 I have the

285HV. I used it with my
Olympus E10 and have used
it with my Canon D30.
Never a problem. It does not
do ETTL or TTL at all. It
runs about \$100 which
should be the first indication
of its abilities. ...

285 HV and Cactus
KF36. I've been noticing
some people finding my
page on Google
searching for more
detailed information
about the 383 Super.
Now, since both of my
383's are presently dead
and I've started to buy
Vivitar 285 HV's instead,
I might as well provide

yet another guide.

Flickr: Discussing Vivitar 285 HV or Canon speedlite 540 ...

the guide number for the vivitar 285 is listed in feet.. 120 feet... but they are actually around the same brightness at full power and full zoom. i have both flashes and did some testing..

Vivitar Flashes Quick Guide - Help Wiki

In 2012, I measure the actual light output of my Vivitar 285 as Guide Number 45 in feet at ISO 100, which is one stop less than its rated GN 64. This is typical for all flashes, and not bad for a 1970s flash tested in 2012.

Vivitar 285HV Zoom Thyristor Troubleshooting ...

Flash Guide Numbers.

Flash guide numbers will

help you calculate f-stops for exposures using the manual position or when you bounce your illumination. Measure the flash-reflector-subject distance, and divide the total into the Flash Guide number listed for the ASA film you are using. Round off the result to the nearest f-stop and open one stop ...

Amazon.com: Customer reviews: Vivitar 285HV Flash for SLR ...

To say that the Vivitar 283 and 285 flashes were regarded as workhorses would be rather like calling the VW bug just another popular small car in the 70's. Consider this little factoid: Vivitar introduced the 283 in 1972. By 1976, they had already produced their 3,000,000th unit.

Vivitar 283 Flash Review
- Ken Rockwell

The flash has a guide number of 140 (ISO 100, "tele" 105mm zoom position -- i.e. with the head/sleeve pulled all the way out -- in feet), which puts it at the low end of similar-sized units like the Sigma EF-500DG Super (GN 165), Canon 580EX (GN 191), and Nikon SB800 (GN 184).

Vivitar 285 Flash Review - Ken Rockwell

Fast flash durations come at a cost, however, both in price and in 'power' for lack of a better word. A flash's power is determined by its Guide Number, with low Guide Numbers (GN) indicating a weak or less powerful flash than one with a high GN. For ease of comparison, most flash GNs are rated for an ISO

100 film.

Vivitar 233965 285HV
Non-Dedicated Shoe
Mount Flash
VIV-285HV

The VIVITAR 285HV Professional is a simple automatic and manually controlled Non-Dedicated Flash with no TTL or iTTL options. The 285HV is considered to be a "workhorse" strobe unit. Simple, Versatile, and Powerful (and always ready!). That is why I love with my old faithful but brand new collection of VIVITAR 285HV's.

Vivitar 285 Guide
Number

The limit of my knowledge is what I've read on a couple of websites, such as: A Concise Guide to the Vivitar 285 and Vivitar

285 HV and Cactus KF36 around the corner! Who
That website implies will we see this year?!
