The Cosmic Machine Springer Nature  
Natalie Shapero spars with apathy, nihilism, and mortality, while engaging the rich territory of the 30s and new motherhood  
Databases and Information Systems Simon and Schuster  
Early in the 21st century, after the Great Recession, poet and young mother Maggie Roche is harassed by a lovely woman, Sriyanie, and a famous neuroscientist, David Elfield. She doesn't know it yet, but she is about to become history's first time traveler. When agents from the far future attempt to kill her, in baffled fury she slingshots herself into the 7th millennium. Instantly she's on the run from the Ull Lords and their virtual reality devotees. These superbeings are cyborged humans constructed to live forever, with the ambition to rule the universe. Maggie is having none of this. Encountering an earlier version of Sriyanie, her fated future role in the formation of the multiverse falls upon her shoulder like a thunderous lightningbolt. A Being at the end of time she calls the Something wages

endless war with its foes, the Ull Lords. Torn from her beloved child and her own time, Maggie must choose whether to accept this alienating path into an alternative cosmic history fit for a poet and a free woman.

Avoid the messy confrontations that accompany delivering bad news personally and let one of these cute baby animal postcards deliver the devastating message for you. Are you afraid to tell your girlfriend that her ass looks fat? Do you need to explain to your nephew that dreams don't come true? Why not let a cute, fuzzy bunny do it for you! We understand how hard it is to tell someone that you're sleeping with his wife, so let a photograph of a duckling sleeping on a teddy bear soften the blow. These perforated postcards answer all of your cowardly prayers—you'll finally be able to tell the truth without ever conquering your fear of confrontation. Let these adorable baby animals supply a silver lining to any bad situation and avoid, a long, tearful afternoon explaining why daddy's never coming home.

The rewards of carefully chosen alternative investments can be great. But many investors don't know enough about unfamiliar investments to make wise choices. For that reason, financial advisers Larry Swedroe and Jared Kizer designed this book to bring investors up to speed on the twenty most popular alternative investments: Real estate, Inflation-protected securities, Commodities, International equities, Fixed annuities, Stable-

value funds, High-yield (junk) bonds, Private equity (venture capital), Covered calls, Socially responsible mutual funds, Precious metals equities, Preferred stocks, Convertible bonds, Emerging market bonds, Hedge funds, Leveraged buyouts, Variable annuities, Equity-indexed annuities, Structured investment products, Leveraged funds The authors describe how the investments work, the pros and cons of each, which to consider, which to avoid, and how to get started. Swedroe and Kizer evaluate each investment in terms of: Expected returns Volatility Distribution of returns Diversification potential Fees Trading and operating expenses Liquidity Tax efficiency Account location Role in an asset-allocation program Any investor who is considering or just curious about investment opportunities outside the traditional world of stocks, bonds, and bank certificates of deposit would be well-advised to read this book.

Energy, Entropy, Atoms, and Quantum Mechanics form the very foundation of our universe. But how do they govern the world we live in? What was the

difficult path to their discovery? Who were the key players that struggled to shape our current understanding? "The Cosmic Machine" takes you from the earliest scientific inquiries in human history on an exciting journey in search of the answers to these questions. In telling this fascinating story of science, the author Scott Bembenek masterfully guides you through the wonderment of how scientific discoveries (and the key players of those discoveries) shaped the world as we know it today. With its unique blend of science, history, and biographies, "The Cosmic Machine" provides an easily accessible account without sacrificing the actual science itself. Not only will this book engage, enlighten, and entertain you, it will inspire your passion and curiosity for the world around us.

Cliff Richard has been Britain's longest surviving and most consistent hit music maker. Starting his career as a rock 'n' roll threat to decent, upstanding citizens, he is now a friend to Royalty and prime ministers, a Knight, and a holder of the OBE. This book tells his story chronologically, through the voices of his friends, family, and colleagues including songwriters, film directors, managers, and agents—like listening in on a dinner party attended by most of the key people in his career. The stories reveal Cliff as seen by those closest to him and, in contrast to the many official publications, this book does not just include the flattering stories. The author's probing questions have elicited extraordinary memories and observations, previously unheard by the public. Heavily illustrated with rare and interesting photographs of Cliff at work and

The importance of databases and information systems to the functioning of 21st century life is indisputable. This book presents papers from the 13th International Baltic Conference on Databases and Information Systems, held in Trakai, Lithuania, from 1- 4 July 2018. Since the first of these events in 1994, the Baltic DB&IS has proved itself to be an excellent forum for researchers, practitioners and PhD students to deliver and share their research in the field of advanced information systems, databases and related areas. For the 2018 conference, 69 submissions were received from 15 countries. Each paper was assigned for review to at least three referees from different countries.

Following review, 24 regular papers were accepted for presentation at the conference, and from these presented papers the 14 best-revised papers have been selected for publication in this volume, together with a preface and three invited papers written by leading experts. The selected revised and extended papers present original research results in a number of subject areas: information systems, requirements and ontology engineering; advanced database systems; internet of things; big data analysis; cognitive computing; and applications and case studies. These results will contribute to the further development of this fast-growing field, and will be of interest to all those working with advanced information systems, databases and related areas.

**Every Last Kiss: The Bloodstone Saga** Penguin

The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of the great writers of a bygone era. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

A mission meant to inspire hope ... and nothing is quite as it seems. When a seemingly unstoppable evil descends upon the city, Ethan Tannor must race against time to save a desperate world that may fall to ruin. April 1986. The Cold War is nearly over. Or is it? Wealthy business mogul Tobias Keane is dead in an apparent suicide. But Ethan Tannor, a detective on the scene and nephew of Keane, suspects something else. In his effort to prove murder, Ethan discovers hidden items in his uncle's safe that reveal there was more to Tobias's past than he initially thought: a strange watch that doesn't tell time, a cryptic journal, confusing newspaper

clippings from years past, a cipher that points to something ominous, a worn copy of the *Rubáiyát* of Omar Khayyám, and the mysterious words "Tamám Shud". The more Ethan uncovers, the more he realizes his own life is in danger. And when he stumbles upon a shadow group that tips him off to an impending hostile takeover of the United States, Ethan finds himself in the center of something he can't explain. Political agendas headed by an enigmatic leader, and an evil force tipping the balance of power will bring him face to face with things beyond the realm of belief and possibility. As the lines of reality and fiction become blurred, Ethan embarks on the near impossible task of reshaping the world. If he fails, the battleground will be America, with new territory lines carved across the map as the victor stakes their claim. But Ethan is determined to end it where it all began: April 1986. \*Language and violence AND THE TIDE TURNS is Timothy Dalton's debut novel - an action-packed thriller filled with colorful characters that will leave readers guessing as they journey with Ethan Tannor in his quest to uncover the secret behind his uncle's death ... a quest that brings him to places he never imagined, and the discovery of his uncle's strange connection to the unsolved mystery of The Somerton Man. Edited by Cyneva Dalton-Vazquez. Artwork by Matthew Dalton. Cover by Tara Dalton.

Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad – the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.
