The Final Book: Gods Penguin

Past heartbreaks and failed love has hardened Candace's fearful heart. David, her current love interest, wants all of her including her broken heart. David won't settle for anything less. Being with one woman is new for him, but he feels that Candace is worth it. Dwight has a few skeletons in his closet, but he's unsure of how he should come clean about them. Co-Co is unpredictable and there's no telling how he'll react to his news. Co-Co must decide if the risk of pushing away his only living parent is worth losing his one true love. To complicate matters, Dwight's cousin Yasmine not only moves in with him, but she also moves in on everyone's turf, especially the Roberts brothers. With drama, deceit and desperation all around, will Candace and David's love survive the many obstacles that are thrown their way or will one or both of them succumb to

temptation? Find out as we catch up with the gang from the bestselling "You're My Little Secret" series.

Multi-cultural, multi-historical, and spanning man's faith across time, The Final Book is a controversial and blasphemous last chapter of humanity. In the beginning there was love. The Goddess of Life in an elated romance with a beloved mortal. Her sister killed him. Their combined actions ripping a hole in destiny and plaguing mankind with an age of unprecedented corruption, vicious holy wars, and religious absolution. Though long forgotten by the mortals they serve, Zeus and his Pantheon continue to foster and protect mankind which is tearing itself apart—but even God isn't infallible. After failed diplomacy, the King of the Gods is left with no choice but to take the persona of a modern

man—the famed genetic scientist Dr. Hork. In an effort to preserve the future by reshaping the past, Dr. Hork uses Project Genesis—the transfer of consciousness—to send subjects back in time. However, not without devastating failures. Subjects of the experiment wreak havoc upon humanity until a familiar character is reborn to correct the course. Reincarnated and ready to fulfill his true destiny, Joshua Bach is the catalyst the Gods have been waiting for—and Dr. Hork's final beacon of salvation. Ferociously idealistic, the free-spirited young man struggles to come-of-age in a time and society ruled by money and corruption. Under the wing of the Gods, Josh rediscovers his purpose, along with a love that can

only be considered timeless. Set in three periods—modern day, the 1960s, and ancient Mesopotamia—this epic blends human history, ruthless mythology, science fiction, and the supernatural to tell a love story of the future.

Shakespeare the Dramatist, and Other Papers

One criterion for classifying books is whether they are written for a single purpose or for multiple purposes. This book belongs to the category of multipurpose books, but one of its roles is predominant—it is primarily a textbook. As such, it can be used for a variety of courses at the first-year graduate or upper-division undergraduate level. A common characteristic of these courses is that they cover fundamental systems concepts, major categories of systems problems, and some selected methods for dealing with these problems at a rather

general level. A unique feature of the book is that the concepts, problems, and methods are introduced in the context of an architectural formulation of an expert system referred to as the general systems problem solver or aSPS-whose aim is to provide users of all kinds with computer-based systems knowledge and methodology. The aSPS architecture, which is developed throughout the book, facilitates a framework that is conducive to a coherent, comprehensive, and pragmatic coverage of systems fundamentals—concepts, problems, and methods. A course that covers systems fundamentals is now offered not only in systems science, information science, or systems engineering programs, but in many programs in other disciplines as well. Although the level of coverage for systems science or engineering students is surely different from that used for students in other disciplines, this book is designed to serve both of these needs.

Fighter Wing

Suppose fate placed you on an inflatable life-raft in the middle of the freezing Atlantic Ocean along with your most bitter enemy contrivable? Would the emotions of hatred,

revenge and love of country trump the desire to survive, if killing that enemy ensured your own demise? Captain Mat Richardson, USN, and Emil Gluckler, a German submarine commander, experience that option during the 2nd World War. Mat, captain of a small destroyer, and Emil, commander of an attacking submarine, become stranded on a life-raft after each of the combatant crafts sink each other during a fierce naval engagement. They subsequently experience 38 harrowing days striving for survival. If nothing else, this required the ultimate in mutual cooperation. If the two survived, would the events have a lasting effect on their relationship? Or, if one had the opportunity to kill the other at a later date in a new war-time circumstance, would he do so, or not?
