The last few years in my basement flat, apart from leaving it to help out in the parishes of Scarborough in Toronto and those of Durham of Ontario Province, have helped me to reflect on many issues, most of them concerning Faith, its acceptance or rejection by today's secular culture, and how its very common misrepresentations could be corrected and clarified. I had to begin by understanding myself. Born in Trinidad, West Indies, in 1937, to a working-class family, I have lived through what may have been perhaps the most fantastic and important 80 years of all human history. World War I (1914-1918) saw my family involved, and the Spanish Civil War (1936-1939) welcomed me into the world. This was followed by World War II (1939-1945), the Cold War (1945-1989), the Korean War (1950-1953), the

Vietnamese War (1956-1975), the Second Vatican Council (1962-1965), the moon landings (1969 et seq), the Encyclical Humanae Vitae (1968), the Sexual Revolution (1965-1977), years during which hundreds of millions were killed and/or displaced, new nations were born, border lines were re-drawn, political philosophies directed how nations were to live-and I am still alive, even in these ongoing nuclear and electronic ages! The past 80 years have seen the rise and fall of big and small dictators-Stalin, Hitler, Mussolini, Mao, Pol Pot, Ho Chi Minh, Castro, Idi Amin, Mugabe, and the super-important papacies of Pius XII, John XXIII, Paul VI, John-Paul II, and Benedict XVI. Everything being considered, a most interesting time. But . . . This 21st century didn't happen by itself; it has been formed by the preceding centuries, their histories, philosophies, wars, and their immense cultural changes. How will it affect the succeeding ones? My primary and secondary educations were followed by legal studies, resulting in my admission to the Bar in 1975, which was upgraded in 1987. I left the profession of law for various reasons, joined the Society of Missionaries of Africa in 1963, and was ordained to the Catholic priesthood in 1970. There followed 50 most interesting years as a missionary in Africa and other countries, and at the present moment my superiors have allowed me to remain in semi-retirement to aid the Archdiocese of Toronto. The issues of these reflections concern mainly Faith and religion as understood by my Church, and thus this book is both catechetical and apologetic, no holds

barred. The use of the Bible is necessary and recommended. Due to the proximity of some of the themes, there's a bit of necessary repetition here and there, but all are my way of trying to find the "big picture," to "smell the roses," as it were. I trust the reader will enjoy them as much as I did in putting them together. Fr John Boos MAfr

Set in the upscale suburbs of Orange County, California, a family unwittingly finds themselves the target of a serial killer with a warped sense of justice. Driving home one night from Palm Springs, business executive Sam Grady crosses paths with the murderer on a deserted stretch of highway. A confrontation which leaves the killer injured on the roadside as Sam flees. In the days which follow, Sam struggles to push the traumatic incident from his mind, until he learns that the man he left for dead is still alive. A man who will not forget or forgive. Unable to turn to the police for help, Sam tries to thwart the systematic destruction of his family and professional life, but nothing can prepare him for what is about to happen...

BASIC APPROACH: Comprehensive -- this text explores the "full range" of finite element methods used in engineering practice for actual applications in computer-aided design. It provides not only an introduction to finite element methods and the commonality in the various techniques, but explores state-of-the-art methods as well -- with a focus on what are deemed to become "classical techniques" -- procedures that will be "standard and authoritative" for finite element analysis for

years to come. FEATURES: presents in sufficient depth and breadth elementary concepts AND advanced techniques in statics, dynamics, solids, fluids, linear and nonlinear analysis. emphasizes both the physical and mathematical characteristics of procedures. presents some important mathematical conditions on finite element procedures. contains an abundance of worked-out examples and various complete program listings. includes many exercises/projects that often require the use of a computer program.

When Plum Lovegrove finds herself being swallowed up in a beige and boring old age of lavender hand cream and proper pantyhose, she soon realises a slow and steady decline into old age is not her thing. At 76 years of age, Plum is coming out of retirement. In no time she's set herself up as a life coach, she's got herself on the interwebs, and she's assembled a Grannie Hipster Squad who won't let their wrinkles determine their existence. With Plum's encouragement, they set out to dust off their dreams and determine their own desires. A bunch of bored old ladies soon discover that it doesn't matter how long they've walked in the wrong direction, it's never too late to turn around!
